Eukulele Fashioned from Cottonwood

Ernie Howard, 59, O'Neill farmer, spent a number of long winter evenings fashioning a ukulele from cotton-wood lumber out of a treffeled on his place southeast of the city. Strings are an-choring behind the bridge (cottonwood) with a tailpiece which was transferred from a discarded "uke". The finish-nails and wood screws are "store bought"—otherwise it's a homemade work. Metal on the "uke" is tin. Mr. Howard and his wife exhibited the in-strument in O'Neill and Mr. Howard demonstrated not only the instrument's but his own musicianship. — The Frontier Photo.
