IT'S LIKE TWO ENGINES IN ONE!

**TRIPLE-ACTION RESERVE POWER!** Simply nudge the accelerator beyond the 1/2 mark and you "call out the reserves!" The J-2 Rocket then operates on three dual carburetors! J-2 is available now at a modest extra cost. Try it!

It's the most exciting engine development since the first Rocket was launched! Engineers have dreamed for years of an engine that combined exceptional horsepower and torque potential with outstanding fuel economy in normal operation. And today, Olds has it in the new J-2 Rocket. You'll find it's like two engines under the hood! In your day-to-day driving, you enjoy the smooth, alert action of the Rocket—with the fuel economy of dual-jet carburetion and a 10-to-1 compression ratio. But to meet the exceptional driving situations, just open the accelerator beyond the 1/2 point and new additional carburetors automatically jet into action. There's an instant boost in torque and power. You'll appreciate the immediate response as another Olds contribution to your pleasure and safety at the wheel!

\*277-h.p. Rocket T-400 engine standard on all models. J-2 Rocket engine, with 300 h.p., and special Rocket engine, with up to 312 h.p., optional at extra cost.

**Consumers Wins Permanent Possession of Safety Trophy**

Nearly one hundred employees in the O'Neill district of Consumers Public Power were honored here Saturday evening for working over 645,000 man hours without a disabling injury. The safety dinner-meeting was highlighted by the presentation of the traveling safety trophy for 1956. The district, which won the gold-plated, clock-adorned trophy in 1953 and 1955, now has permanent possession. Presentation was made by R. L. Schacht of Columbus, general manager of CPPD in Nebraska. The award was received by H. G. Kruse of O'Neill in behalf of K. L. Van-

Voorhis, O'Neill district manager, who had been summoned to Scottsbluff because of a death in his family. Front row (left to right): Glenn Miller of O'Neill; J. W.
