ECONOMY WHEN YOU WANT IT!
 Here's the secret of its greater gas mileage. In the J-2 Rocket a single two-barrel carburetor serves the engine, at peak efficiency, for all your ordinary power needs. You choose your own kind of performance—you're in economy range up to 3/4 throttle. Yet you enjoy famous Rocket action all the way.

POWER WHEN YOU NEED IT!
 All three carburetors (six barrels) go into action, automatically, whenever the occasion demands. Push your foot to the floor, and you have extra safety power on tap to whisk you up the steepest grade, or out of the path of danger. Here's alert action for added safety in any driving situation!

OLDSMOBILE NOW OFFERS YOU THE MOST EXCITING NEW ENGINE DEVELOPMENT SINCE THE FIRST HIGH-COMPRESSION POWER PLANT!

Greater economy for all normal driving! A greater reserve of extra safety power for the exceptional situation! That's why Oldsmobile's new J-2 Rocket Engine* is like two engines in one. And you, the driver, are in complete control of how you want to travel. For practically all driving needs you enjoy the fuel-saving economy of a single carburetor. Or, a touch of the accelerator past the three-quarters mark will bring two additional carburetors into use. This gives you gas-saving performance over a 50 percent broader operating range plus a reassuring reserve of power that means added safety. If you have not already tried the J-2 Rocket, your nearby Oldsmobile Dealer invites you to come in for a drive soon. Be his guest for a J-2 test. You'll find it is a totally new and wonderful driving experience.
