PREACHERS

Should preach only one sermon or so a year. People are against sin, anyway, so why harp on it?

TRAFFIC LIGHTS

Should be turned off at dangerous intersections to save electricity. Everybody knows it's a dangerous spot and that is sufficient.

TEACHERS

No need to review lessons. Tell the children just once and they'll never forget.

HIGHWAY POLICE

Stop driving up and down the highways. No need to caution drivers by patrolling highways. Drivers know the law and should obey.

OUT OF TOWNERS

That advertise in the local paper and mail order firms that send out catalogs are wasting their money. Everyone knows what is sold at stores in town and they'll shop at home.

BUT

If you are one of the foolish kind—like the Notre Dame cathedral that has stood six centuries but still rings the bell every day to let people know it is there—and believe in continuous, profitable advertising, then you will advertise in...
