**Grand Ole Opry

**Famed TV-Radio Unit
Coming to Neligh**

NELIGH—The outstanding program being offered at the Antelope county fair this weekend is expected to attract a crowd much larger than in former years. Fair officials are confident that the unusually fine entertainment scheduled this year will be remembered as one of the best.

The 1957 rodeo holds promise of being a dandy. Riders, ropers and bull doggers from long distances signified their intentions of entering in the various events. There will be saddle bronc riding, bareback riding, calf roping, bull riding and bulldogging with two extra events added. These will be a cutting horse event and two barrel races, one for men and the other for girls. It is going to require a lot of talented cowboys to tame the tough string of rodeo stock being furnished by Clarence Papstein. His bucking broods are some of the best and those Brahma bulls are really tough customers to handle. The rodeo will be held on both Saturday and Sunday afternoon.

The Grand Ole Opry Troupe of Nashville, Tenn., radio, stage and television fame will be at Neligh. The troupe, masters of country music and comedy, have been packing in crowds at state fairs over the nation.

"This will be the Opry's only showing in the section of the country," according to M. H. Snider of Clearwater, who is in charge of publicity.

Tri-State shows will be on the midway with rides and concessions.

"Antelope county on the hoof" is the theme of the 4-H, FFA and open-class livestock showing at the livestock barns. A parade of livestock is scheduled Sunday afternoon.

Open-class entries are to be made on Friday. Home economics and school entries will be made Friday at the pavilion instead of the judges' stand.

Gate admission is 50 cents; grandstand, 50 cents.

**25 cents; box seats, \$1 available

Below you see the latest in Clothes Dryers, now being erected by Maytag. Possibly the name, "Halo of Heat" at this time does not mean much other than a fancy name tied to a new product.

I am sure if you are interested in a clothes dryer it will pay you to investigate this all new Maytag Dryer. I have seen it demonstrated, and am familiar with the new principles, and I have never been so sold on a new product before, as I am sold on this new dryer.

This dryer will be the most copied after dryer in the next two years of any dryer on the market I am sure. I will guarantee you I can install this dryer along side of any competitive make of dryer, and will dry your clothes better, faster, and with less electricity or gas.

When you are shopping for a dryer, at least let us show you this all new dryer, and I am sure you too will be convinced that Maytag really have something new and well worth the money; a product which will become as popular as the well known Maytag Washer. I would like to tell you all about the "Halo of Heat" and how it works.
