good ways to measure your telephone service

1 Measure the pleasure. Take a generous cupful of happiness for each friendly visit you make by phone. Add heaping tablespoons of fun for the parties, the dinners, the good times that start with phone calls...

2 Measure the convenience. Tote up the hours of errands your telephone runs—to grandma's, the grocer's, the cleaner's, the office. (Don't forget the minutes and steps you saved with a kitchen, bedroom or basement extension)...

3 Measure the cost. Count the few pennies you pay for dependable, 24-hour service. Add it all up and you'll know why your telephone is the cheapest service you buy!
