**ARE YOU GOING ON A DIET?**

To reduce? To gain weight? To gain strength? Then discuss this miraculously high-protein extra-vitamin bread with your doctor today.

**Contour**  
SPECIAL FORMULA BREAD

Only 47.4 calories per 18 gram slice!

Eight ounces of Contour will supply 45.5% of the daily allowances of protein for an active woman 25 years of age.

Compared with other foods as you buy them, Contour Special Formula Bread gives you generous quantities of balanced protein. Contour Bread contains as much protein in one pound (one loaf) as 3 pints of whole milk, or 8 fresh eggs, or 2½ pork chops.

Contour Special Formula Bread has been fortified with Lactalbumin, a milk protein containing lysine, an essential amino acid that provides nitrogen balance. What does this mean in terms of nutrition to a person on a diet? Simply this. These food substances added to bread enable the body to convert 100% of the protein intake from bread for its use. Bread without lysine, only 80% of the protein can be converted, and from bread without milk solids and Lactalbumin only 20% of the protein can be converted for body use. Thus, Contour with these added food substances not only is high in protein but provides a nitrogen balance so necessary for body tissue growth and repair.

**Combines animal and cereal proteins**

If you are one of the millions who are calorie conscious, remember this. When low quality proteins alone are consumed the human body utilizes them mainly as heat and energy. This causes greater surpluses of fat and carbohydrates to be stored resulting in a need for additional protein and subsequently more calories.

But the proteins in Contour are balanced, complete proteins, 100% usable for tissue building, so essential to both sexes of all ages. So be sure to eat foods that are high in balanced proteins. Buy Contour Special Formula Bread Today.

**Contour tastes good—toasts good, too!**

With all the special benefits of Contour you also get a real bonus in flavor because Contour is not only good for you, but it tastes good. For a real treat try Contour toasted. Toasting brings out all the fine, fresh flavor of quality ingredients and makes eating Contour a genuine pleasure.

The following table lists the percentages by weight or amounts of the food substances in Contour Special Formula Bread essential to body tissue growth and repair:

Proteins—11.0%	Minerals—2.1%
Calcium—0.08%	Lactalbumin—3.1%
Vitamin B <sub>1</sub> —2.0 MGS./LB.	Vitamin B <sub>2</sub> —1.3 MGS./LB.
Niacin—18.8 MGS./LB.	Iron—14.8 MGS./LB.
