## HERE'S WHY

- you see more every day!

EVER stop to ask yourself why you see more and more husky GMC's on every highway every day? Why so many cost-wise buyers are singling out GMC's as their first choice?

The answer is, "GMC" spells profit to the man whose business depends on the performance of his trucks.

To light-truck users, "GMC" means the highest horsepower in its class—for GMC 1/2- to 2-tonners are second to none in pulling power.

And to commercial haulers, "GMC" means America's most popular Diesel

—for efficiency, for long-lasting, fleet-footed power and lowest operating cost. And in between, throughout the GMC line—from the smallest gasoline-powered pickup truck to the largest Diesel—the story's the same:

Power, brakes, comfort, safety and stamina—the right combination of everything essential to low-cost hauling—in the right vehicle for your loads.

Before you buy another truck—come in. See for yourself why GMC is the best truck buy you can make today.
