Pedestrian Struck, Hurled Against Curb

EMMETT—Mr. and Mrs. Henry Kloppenborg accompanied by their son, Ervin, of Cozad, left Thursday, February 7, for Santa Ana, Calif., to be with their daughter, and sister, Mrs. George Pierson, the former Lovina Kloppenborg, who was seriously injured on February 5, while crossing a street.
She was hit by a truck and thrown about 15 feet against the curb. The driver's foot slipped from the brake as he tried to avoid hitting her. She was taken to a hospital where they found a serious operation was necessary in connection with internal injuries. She was given several blood transfusions.
On the arrival of her parents and brother, she was "somewhat improved," according to word received by relatives. Her husband, T/Sgt. George Pierson, a marine reservist, was called back to duty last April and has been stationed at a marine air base near Santa Ana. Mrs. Pierson with their 2 sons joined him last summer where they have been making their home. Sergeant Pierson had been assigned overseas and was to leave U. S. February 29, but due to the accident the assignment has been canceled.

Growth of Use of Electricity in the Home

Average kilowatt hours use per household Customer annually

CONSTANTLY GROWING!

Everyday MORE homes are going ALL ELECTRIC!

THE DEMAND FOR BETTER LIVING

The conveniences of living electrically, the SPEED—SAFETY—ECONOMY—CLEANLINESS and DEPENDABILITY, have brought the demand for the BETTER living that is ELECTRICAL living to an all-time high! The amount of electricity used, in the average American home, has risen from approximately 350 kilowatt hours in 1920, to today's average annual consumption of nearly 2,000 kilowatt hours! Today, your electrical penny has over 2 1/2 times the value of 1920's electrical penny!

Through the greater use of electricity in the home, the user now enjoys the benefits of better living — at lower cost!
