A very important contributing factor is Ford's Automatic Power Pilot which squeezes the last ounce of power out of every drop of gas. Found for pound, Ford's All-New Mileage Maker Six is definitely the most economical low-priced car to run!

**NEW FORD 101-horsepower MILEAGE MAKER SIX with Overdrive**  
**53.855 TON-MILES PER GALLON**  
**25.463 MILES PER GALLON**

\*The AAA Council Board determines the winner by a "ton-miles per gallon" formula to insure equal standards for all cars in each class regardless of size and weight. Ton-miles per gallon equals the car weight (including passengers) in tons, multiplied by number of miles traveled, divided by number of gallons consumed.
