It gives this old familiar sign

TOULD you be interested in getting one gallon free with each tankful of gasoline you buy?

Then we can tell you this: It will certainly be worth your while to read this brief story of Buick's new Airpower carburetor.

Truth is—a skillful driver can just about double the bonus we mention, if he makes the most of what this year's ROADMASTER has to offer.

The reason you can get such a bonus traces to a pair of simple facts:

(1) It's a mixture of gasoline and air that gives you power.

(2) Buick engineers have come up with a four-barrel automatic carburetor that lets you use more gallons of air per gallon of fuel.

Most of the time, only two of these barrels are needed-and they feed such a thrifty mixture that you use less gasoline at 40 mph than you'd formerly use at 30.

But - when you want a quick burst of eager power - you can double the air supply as well as the gasoline feed-and come up with the highest horsepower that Buick's Fireball 8 Engine ever delivered.

Of course, any man who's buying a car as fine as a ROADMASTER wants a lot more than extra miles from a tankful of gas.

He wants the distinction of extra room, extra comfort, richer fabrics and all the other refinements that make a car truly fine.

He wants to ride with solid security, confident poise and lordly silence.

new meaning

And, while he may not admit it, he yearns for a car that's full of fun.

All this, we promise you, and more will be yours when you take the responsive wheel of a ROADMASTER.

How about doing that—soon?

Equipment, accessories, trim and models are subject to change without notice.
