

# OPEN HOUSE

## Dedication Day . . . St. Anthony's Hospital

IT IS WITH SPECIAL PRIDE we take this means to invite you to tour the new hospital and to inspect first-hand the fine, modern plumbing facilities, heating and ventilating system, and laundry equipment. We say special pride because we were honored with these contracts — our biggest and greatest undertaking in more than 51 years in the field and as one of O'Neill's oldest business institutions. We cherish the trust that was placed in our hands and, on this dedication day, we say, most sincerely, "Thank-You!"

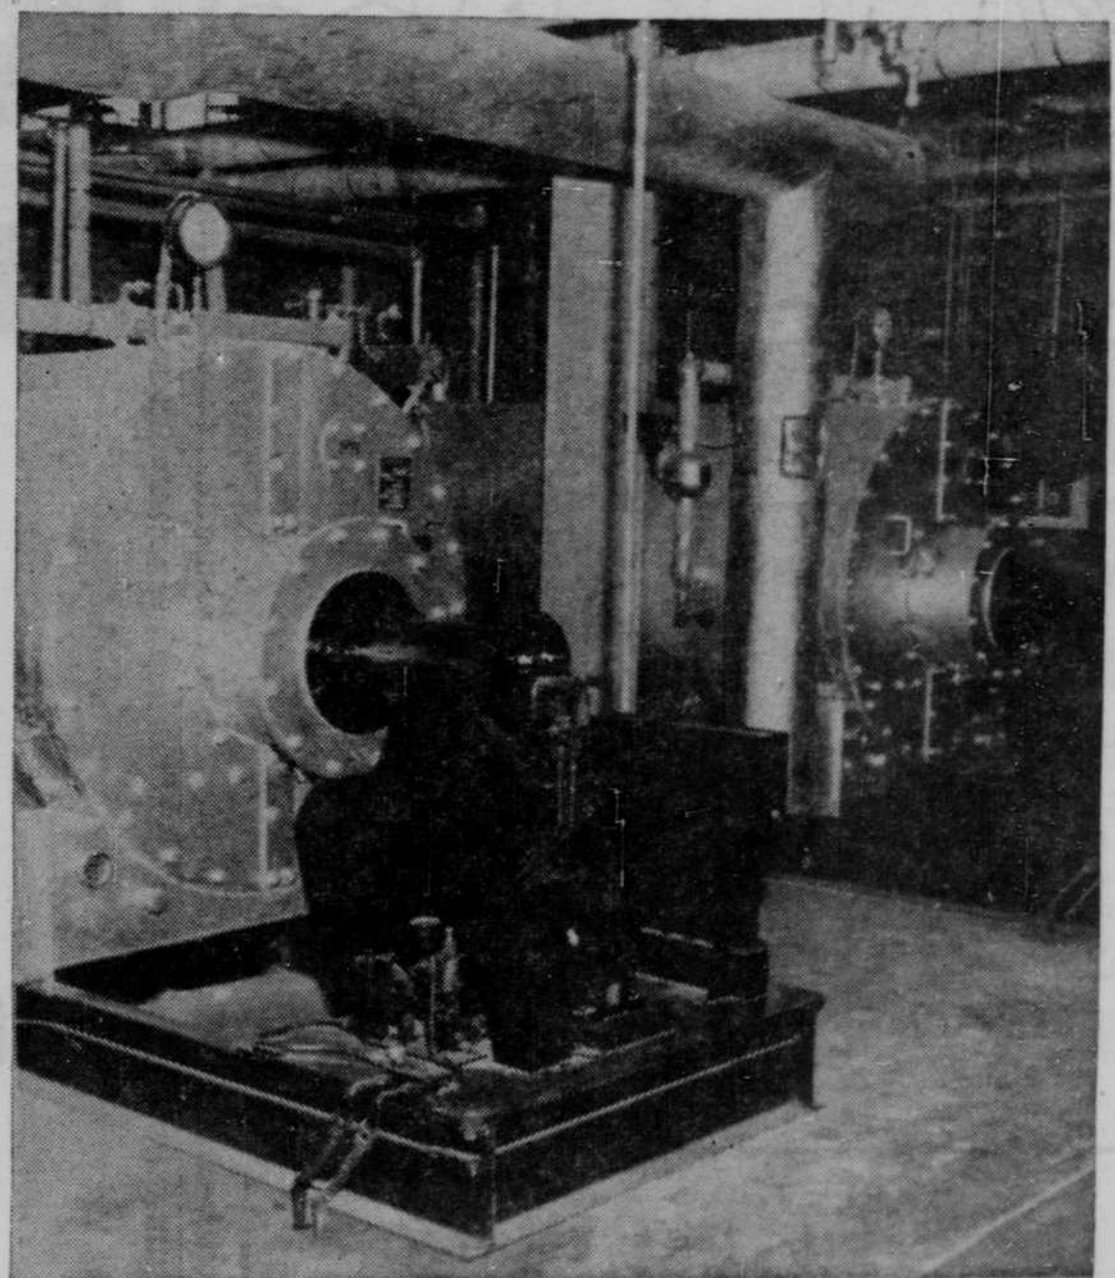

AND BEST WISHES TO GOOD SISTERS OF ST. FRANCIS AS THEY EMBARK ON THEIR NOBLE MISSION OF MERCY AND HEALING!"

ST. ANTHONY'S HOSPITAL

No matter what your requirement, large or small, we pledge our expert attention . . . a credo we have steadfastly pursued over the years.

On a slight knoll where once cows used to roam, the new St. Anthony's Hospital today rises in impressive grandeur —an important signpost indicating O'Neill is on the march.
