

# 'Dorsey Reader' Declares Everything Tastes Better in Large Amounts

By BLANCHE SPANN PEASE

Do you feel like fixing up a special salad for company dinner for some special meal? Cherry surprise salad is a good one for just such a time.

You'll need two cups chopped sweet cherries, one package lemon flavored gelatin, one cup hot water or hot fruit juice, two cups cottage cheese, 1/3 cup mayonnaise, 1/4 cup slivered toasted almonds or English walnut meats.

Add the hot fruit juice or water to the gelatin and stir until thoroughly dissolved. Chill. When it reaches the syrupy stage, beat with rotary beater until light and fluffy. Add the cottage cheese and mayonnaise, and beat with rotary beater until the cheese is broken up and creamy.

Fold this mixture together with the chopped cherries and nuts into the gelatin mixture. Chill until thoroughly set. Cut into squares and serve either with or without additional dressing.

months subscription. Dear Mrs. Pease: With some of us our families are growing smaller, so the recipes we used to use are too large. How nice it is to have a recipe just large enough for two to four. Especially when the recipes tell how many it will serve. I just love to cook for a large amount, maybe it's my imagination but it seems like every thing tastes better. I always had lots to cook for, but now I've been trying to find small recipes so I don't have to half and fourth my old ones. Was wondering if anyone was in the same boat as I am.

Here are a few small recipes, these are the ones my little girl likes to make.

### CHOCOLATE CREAM PUDDING

Six tablespoons sugar, 3/4 table-spoons corn starch, three table-spoons cocoa, two cups milk, 1/2 teaspoon salt, 1/2 teaspoon vanilla.

Put 1/4 cups milk in a double boiler. Mix sugar, cocoa, salt, corn starch thoroughly to keep it from lumping, gradually add the 1/2 cup of milk you have saved back, when well mixed add to the milk in double boiler. If the milk in double boiler is hot, stir as you add the cold mixture to the hot. Cover and cook for 15 minutes. Then remove from heat and beat until smooth. Add flavoring. Then place in individual molds or dishes.

### CREAMED CABBAGE

Two cups milk, one quart finely shredded cabbage, 3 table-spoons butter, two table-spoons flour, 1/2 teaspoon salt, dash of pepper.

Heat milk and cook cabbage in it for 2 minutes, mix the butter and flour thoroughly. (You may have to soften the butter, so it will blend with the flour. Add it to cabbage, add salt and pepper. Cook rapidly, 3 to 5 minutes, stir constantly.

### MACARONI AND CHEESE

Two cups boiled macaroni, 1/2 cup finely chopped cheese (more may be added if you like it cheesy). Salt and pepper to taste about 1/2 teaspoon salt, if you cooked your macaroni in salted water. One cup milk, one cup buttered crumbs. Butter baking dish, place in layer of macaroni, then a layer of cheese, sprinkle with salt and pepper. Add another layer of each, then salt and pepper. Add milk and cover with buttered crumbs. Bake 20 to 25 minutes in moderate oven.

### SPICE CUP CAKES

Four table-spoons lard or butter, one cup sugar, one egg well beaten, 3/4 cup milk, 1 1/4 cups flour after sifting, 2 1/4 table-spoons baking powder, 1 1/2 table-spoons cinnamon, 1/4 teaspoon each of nut-meg and cloves.

Cream shortening and sugar. Add egg, milk and flour mixture, stirring well after each, add about 1/3 of each mixture at a time. Bake 25 minutes in a moderate oven. This yields 12 cup cakes, but that will also depend on the size of muffin pans used.

This recipe may be varied to make the following cakes, Plain cake, omit spices and add one teaspoon vanilla. Chocolate cake, omit spices and add one teaspoon vanilla. Use two table-spoons less flour, add three table-spoons cocoa. Sift cocoa with flour and baking powder. If baked in two layers about 30 minutes, if baked as a loaf, about 50 minutes.

You can select any frosting you like. Caramel with white, white powdered sugar with cocoa, fudge with plain white.

### CARAMEL FROSTING

One cup brown sugar, 1/2 cup cream, boil until forms soft ball when dropped in cold water. Beat until creamy. If you are frosting a two layer cake, it takes one pound of powdered sugar for 10 place between layers and cover top and sides of cake. I vary my powdered sugar frosting by using peanut butter to mix it up with, instead of cream, and then sometimes I use orange juice and butter. Whatever I use, I add just a little at a time, so as not to get it too thin.
