Short Hair versus Long Hair With the beginning of fall and winter we find so many women "letting their hair grow", as is commonly spoken. For some reason associate short hair with summer and long hair with winter. For some time there has been a gradual, but very decided trend towards shorter hair, and the smart hair styles of this winter promise to be shorter hair styles. Skirts are getting shorter, hats are getting smaller and both of these style trends demand shorter hair.

And too, short hair, contrary to popular opinion lends itself more AUTOMOTIVE FIELD readily to avariation in style than

long hair. We recommend the short hair style because we know it will give satisfaction. General Greets Private

A general of Peace greets a private of the fighting forces. General Albert Orsborn shakes hands with a United States soldier in The Salvation Army Red Shield Canteen in Philadelphia. General Orsborn, world leader of The Salvation Army, visited the canteen a few days after his arrival in the United States on a three-months' tour of the Western Hemisphere. He entered the building accompanied by a group of distinguished civic leaders and high-ranking Salvation Army Officers. Noticing a small group of soldiers and sailors at a table, the General walked away from his distinguished escort, shook hands with all of the members of the armed forces and passed several minutes chatting with them. General Orsborn's tour includes fourteen cities of the United States and about a dozen countries in North and South America
