Will Vote For Son

Richard L. Metcalfe, mayor of Omaha and dyed-in-the-wool Democrat, is going to vote for Theodore W. Metcalfe, his Republican son, for lieutenant-governor. "I am a better father than I am a Democrat," said Mayor Metcalfe. "Each of us is doing his own thinking, and that is what counts. Ted has always been a Republican, and I respect him for having the courage of his convictions." "Even outside the family," said Ted "I know of many Democratic votes I will receive. I probably have slept in more bath-tubs at Democratic conventions during my early life than most of the candidates on the Democratic ticket. I count hundreds of Democrats, out-state as well as in Omaha, as my good friends."

Following is what the Washington Pathfinder recently said about the Metcalfes: "Why should not members of the same family differ in politics the same as other people do? It may well be a sign of intelligence and character when they do so differ in a friendly way. Political principles and issues should be a matter of judgment, not of inheritance. Of course, it is perfectly all right and quite natural for a son to be influenced by his father, politically. It is a subject in which half the people are always trying to convert the other half to their views. But the less inherited politics and the more personal convictions along this line, the better it will be for our government and country."

Dear Sir:
 I am writing you in regards to the situation in the north end of Omaha among the Colored citizens; a large number of whom are your tenants; and some are buying property from you. I am quite sure you had not observed the seriousness of the situation; and those who are depending upon this class of people, makes it very hard to keep all things adjusted properly.

I have been a customer of yours for the past 8 or 9 years, and I have tried to be very prompt in taking care of my accounts. I have spent a considerable large sum with your company carrying tenants who have paid me well, or as they should each month when the rent comes due, and they have been doing this for 4 or 5 years. Perhaps you have not realized to what extent this unfortunate body of people have been. They are not receiving from the different concerns, the proper consideration that they should in proportion to the amount of money they spend.

When one takes into consideration, corporations such as the Telephone Company, Nebraska Power, Metropolitan Utilities District, Paxton & Gallagher, and other businesses that we patronize representing from 11,000 to 14,000 which is at least 5% of the city's population; each concern makes our group the last to be hired and the first to be fired, and they stand at the bottom of the list when it comes to being given a fair consideration, regardless of how they support a business. They are human and act similar to any other body of people if able, appreciative, trusty and fair and give a chance. They are dependant and anxious for an opportunity to make good.

These businesses that they are helping to fortify, expect the same fee as regular from them, as they do of others, but regardless of qualifications they give them the least, or no consideration. I am sure this body of people have meant a great deal to your Association. Many of them are anxious to save their homes, and will give an opportunity. If work was plentiful, matters would be perhaps somewhat different; but wherever there is employment, after every other

nationality is served, this body of people is then given consideration, or that which is left; often they are not considered at all.

I am sure you realize, the more intelligence one has, the better equipped he is to prepare himself for the necessities of life; the more comfortable and inviting he can make his surroundings to guard himself against disease, and the more desirous he can fit himself for the situation; regardless of nationality.

If every man was given a fair chance, there would be no discrimination as to employment or business transactions; no confusions; or ill feelings, but every one made happy; not speaking from a social standpoint point of view, for that is not to be considered.

I know that you have any number of houses in this community, and perhaps you and several of those employed on your staff are members of the Omaha Chamber of Commerce, or some other organization banded together for the betterment of the city. I was thinking if there is not some way that you can influence these different corporations to give this body of people a more fair consideration, in regards to the amount of money they spend with you and other different firms. This body of people would be happy to know you have given them consideration which is greatly needed, and perhaps will be a wonderful help to you in keeping your books up to date, and helping any number of property buyers to hold on.

Many businesses have used this body of people as a means to an end. Any number of concerns have given them satisfaction to the extent that "they were going to do," but this is often the end of such consideration, and no further action is taken on same, and I am appealing to you, for a body of people who are not in a position to help themselves.

If there is anything you can do to help better this situation, and help bring about a fairer consideration, it will be highly appreciated among this group of people.

Thanking you for whatever consideration you may give, I am
 Respectfully yours,

 Dr. G. B. Lennox,

Omaha, Nebraska.
 My dear Doctor:

I acknowledge receipt of yours of July 29th regarding situation in the North part of Omaha amongst the colored citizens.

The fact that out of the very few properties which we own, only three very small ones are located in this territory, does not in the least lessen our interest in the problem which you present. We have a number of loans to different colored residents and have many of them with savings accounts on our books.

It might be of interest to you to know that out of a total list of twenty-eight employees on our pay roll, two of them are colored, drawing we believe very fair compensation—no reduction in wage having been put into effect by us in their cases.

We have a high regard for the worth of the average colored citizen and assure you that we will do everything which we reasonably can in helping the colored people collectively or individually to meet the exigencies which confront.

We were pleased to receive your letter showing your interest and hope that you and others who are interested with you will have success in arousing general interest.

Yours truly,

Dear Sir:
 In receipt of your letter dated August 3rd, I highly appreciate your consideration in regards to the situation among the Colored citizens.

We appreciate very much the Colored employees that you have. We had the information to that effect, but knowing conditions perhaps better than the average person, due to coming in contact with so many, I thought of different firms and associations with whom they dealt; thinking perhaps, in some way, if these same concerns were informed, and something should come about, it would perhaps mean another opening for a few of this unfortunate group.

There is no better and greater feeling for one to have, than to know he has been dealt with fairly, squarely and considerately. Many homes have been lost, after one has often paid down to the minimum, a few would pay if they had the means; and will pay if given a fair chance and a reasonable consideration. This will be appreciated by all, and I am sure each back payment will be brought up to date. As a rule, an Association of this kind has to deal with all, practically the same. I realize these times have struck the fortunate, as well as the unfortunate, and there are any number of persons who have gone for days, seeking and trying continuously to find opportunities and work, in order that they might take care of their homes; often this has all been in vain.

I know of no specific instance where the Colored people are not receiving a fair consideration by you, the same

as are others. If you could inject a proposition that will be of some assistance, whether the same is, or is not connected with the Association, it will be highly appreciated and needed among this body of people. In this group, there are men and women, as manly and womanly, as are found in any other people; the good, bad and indifferent are found in all, regardless of race. As a whole, they are an appreciative body, and are anxious appreciative body, and are anxious to do their part.

We are not expecting that you go to an extra expense in our behalf, for we realize the situation of today, but wherever there is a duty to be performed that requires employment, it will be highly appreciated by this body of people if they are given consideration.

Thanking you for your kind letter, and whatever future consideration you may give, I am

Who Can Pull Us Out of this Economy Parlysis?

The United States Congress is the only body with power to help the tax payers at this time. To be truthful it makes no difference whether the President or Congress is democratic or republican.

The important thing is to elect men to Congress who will stand for rigid government economy. "Mac" Baldrige is a leader of the Economy Bloc. His economy record stamps Baldrige as one of the outstanding fighters for government economy.

Regardless of party affiliations the tax payers of this district can not afford to lose "Mac" Baldrige in Congress. That is why we are urging you to re-elect Congressman Malcolm Baldrige on November 8 (This advertisement written and paid for by democratic and republican supporters of Mac Baldrige.)

AT THE DREAMLAND
 (C. Homer Burdette)
 13 Blue Devils: Robert (Lil Brother) Jackson won the dancing contest. Over 400 people attended the Halloween ball given at the Dreamland Hall, Monday, Oct. 31. Many wore masks and regalia comparatively different from the usual good old American custom. Wynnie Harris sported a black face powdered hair and dress characteristic of the good old darkey of the plantation. Roy Gordon wore a cowboys outfit. Ten gallon hat, boots, badanna hankie every thing to make his outfit look real except the horse. Miss Taggart could not be rivaled in her broncho busters regalia. Louie Carpenter wore a devils uniform if old Lucifer could be imitated.

AT THE GYM
 by C. Homer Burdette
 Ladies Now Participate in the Manly Art
 Three ladies work out secretly up at the A & Duhya gym. Prof. Gately has added to—three beautiful colored girls. Now to tell you how its done. Prof. Gately has just received patents on a new style shock absorbing boxing glove, an air cushion is inserted in between two layers of ordinary felt padding, this removes the terrible shock from the glove and makes the blow feel as though some one gave you a lick across the jaw with a feather pillow. The boxing commission voiced their approval of the glove and ruled that only women and children could use them for professional use. Prof. Gately expects to make a young fortune on his newly created shock absorbing boxing glove. Promoters are yelling long and loud for a chance to place these ladies on their cards. These maidens of the squared circle are in good condition, have learned how to duck and have brains enough to duck when they see a blow coming at the beautiful visage. They use their mitts beautifully. I pity the saps these girls marry.

I saw Bat Geo. Dixon give Johnny Smoogy a good work out. The terrible Pop Eye is feeling much better since his fractured jaw began to mend. Tigerman Grimes is wearing a long face, mumbering when is ah gon git a fight. Kid Chocolate is still holding out tell his forefinger gets well. A lot is being said about a bet between two managers. Jay Conney beat Buzz Smith, in Sioux City not so long ago. 20 green dollars were laid on the wood by Johnny Connelly, claim-

ing he did not want it if his young brother failed to annihilate Smith. The other manager called his bluff, but kept his money in his pocket, and after losing, failed to take it out of his pocket.
