### 56 Get Jobs Through Through State Employment Service

Feb. 25—Fifty-six young people in Omaha were placed in private industry jobs during January by the two NYA junior placement counselors, who are attached to the staff of the State Employment Service here.

This service, which is available to unemployed youth, also showed an increase in the number of young people registering, and a larger number of previously registered youth were reinterviewed during the month.

An effort is made by the junior placement counselors to stimulate the flow of young people into private industry through assistance in helping the youth to learn of occupational demands and to encourage them to develop skills and abilities. Interviews with the young people are intended to aid youth in analyzing their own situation and in addition serves as a basis for placement of the youth in a private job.

### OMAHA SENATOR LEADS FIGHT FOR RELIEF FUNDS

#### LYNCHING RESOLUTION ACCEPTED

Beating down an effort led by Senator John Adams, jr. of Omaha to retain the full extra one cent emergency gasoline tax for relief and old age pensions the Senate Tuesday agreed in Committee of the whole upon Senator Frank Well's bill re-enacting the 5 cent gas tax and diverting six-tenths of the extra penny as additional highway money.

Senator Adams' amendment, pleaded for on grounds the governor's estimate of social security needs is three to seven million dollars too small, gathered a 20-to-20 vote and lost for want of a majority.

The amendment was reconsidered in the Senate Wednesday morning and voted down 28 to 13. Senator Adams said that there was not much likelihood of his amendment being voted into the gasoline tax bill but that the forthcoming liquor tax bill would perhaps absorb the deficiency by the deduction of the .6 of a cent levy for additional highway use.

Apparently taking cognizance of statements that Douglas county presents 37 per cent of the relief burden although containing only 17 per cent of state population, all Omaha Senators supported the Adams amendment.

#### Needed by Poor

"In 1935 and 1936 roads got 12 million dollars, or two million more than they anticipated, yet now they are seizing two millions more that belong to and are sorely needed by the poor and aged," Senator Adams declared summing up an all morning floor fight on his amendment.

On February 15th Senator Adams memorial to congress to pass the federal anti lynching bill was unanimously adopted by the legislature. This resolution was as follows:

Now therefore be it resolved by the Legislature of the State of Nebraska assembled:

1. That this legislature does most earnestly petition and memorialize Congress and the President of the United States to enact a Federal Anti Lynching law for the prevention of lynching in this Nation.

2. That the Chief Clerk of this Legislature be instructed and directed forthwith to forward a copy of this Resolution properly authenticated and suitably engrossed to the President of the United States, to the Vice President, to each of the Senators and Representatives representing this state in the National Congress and to the Secretary of the Judiciary Committee of the Senate.
