

RANDOLPH SAYS FIGHT MUST BE MADE NOW TO GET BALL PLAYERS IN MAJOR LEAGUES

(Continued from page 1) leagues. The door is open through which Negro players may enter the field of national league baseball, but of course, the door will not stay open automatically, states Randolph. It is up to the Negroes themselves with the support of their liberal white friends to keep the door open and open it wider. Now is the time for the Negroes to make their fight and bid for players in major professional baseball. The reason for this is that a large number of the white ace players are going into the army and the same condition maintained in the baseball field maintains in other business and professional enterprises, namely, the demand is greater than the supply. If Negroes are not able to break into the major leagues now while the war is on, when the war is over, there will be practically little hope and opportunity because all of the players that are now in the army will be back looking for jobs. But when once the Negro players break through the barriers of race and color and make good, and of course, they will be because of their talent and competency, a place in major league baseball will have been made for the Negro, comments Mr. Randolph. Some of the biggest salaries received in the country are received by white baseball players who are not

Miss Leonore Cox, formerly assistant supervisor of a recreation project in New York City hospitals sponsored by the Juvenile Aid Bureau, has been assigned to Fort Huachuca, Arizona, as a Red Cross hospital recreation worker. Miss Cox has done extensive research, lecturing and magazine writing on the contribution of Negroes to the dance. in the same category of talent and ability with many Negro players. It is a matter of common knowledge that Negro baseball players and white baseball players meet in Cuba, New York, and Chicago and different cities in semi-professional baseball. But usually it's in the form of a full Negro Baseball team. We do not want Negroes to enter the major leagues in the manner of a Negro Baseball team. We want them integrated into every Baseball Club in the country as pitchers, catchers, in-field and out-field players on the same team with white pitchers. This can be done and now is the time for Negroes to make an effective fight for it.

ASKING YOUR CONSIDERATION AT THE BALLOT BOX ON HIS RECORD OF SERVICE

Most Omahans today accept their Metropolitan Utilities District which supplies the city with gas and water service, as rather commonplace or ordinary because it renders its services so methodically, year after year. Just like the front door, or the kitchen sink, it is taken for granted.

But to those outside of Omaha, people interested in the utility business throughout America, this institution is looked upon as an outstanding example of a well-managed, non-political, publicly-owned utility. For example, Omaha has for several years enjoyed the lowest manufactured gas rate in America. Allan A. Tukey, one of the present Directors of the Metropolitan Utilities District, is making his bid for re-election as a Republican member of the board on the strength of the long record of good business management which has characterized this institution during his association with it. Mr. Tukey has always favored the policy of passing along to the public rate reductions during his term of office. Mr. Tukey has also stood for fair promotion of those employees who showed ability and who, like himself, have made it a point to know thoroughly the gas and water busi-

WHY KELSE MORGAN SHOULD BE ELECTED COUNTY ATTORNEY

Kelse Morgan should be nominated for County Attorney because: He is the best qualified candidate in the race. He has had the widest experience as a lawyer. He is a man of character and integrity. He has the required judicial temperament. He is an excellent trial lawyer. He will prosecute all violators of the law to the limits of the law, but he will protect with equal ability and courage all persons who are wrongfully brought before the bar. He will be faced with many intricate legal problems during his term of office involving taxation and other problems of the administration of County Government. To deal with them, Mr. Morgan is the best equipped man seeking this office. No one capable of intelligent, fair judgment will venture any other statement. In the public interest, Mr. Morgan should be nominated on the 11th of August. Intelligent, self-interest requires it of the whole people in general and of the Colored people, in particular. —By H. J. PINKETT.

ness so that the Omaha public should enjoy efficient, dependable service. That long-range planning and careful attention to good business practice have been the rule during Mr. Tukey's public service on the District Board is brought out in his recent retirement of all bonded indebtedness in the Water Department. In 1912, when the city acquired the water plant and distribution system, a bonded debt of \$7,500,000 was incurred. Last December 15th the remaining outstanding water bonds, in the amount of \$2,668,000, were retired leaving the water property debt-free. To accomplish this, it was necessary to pursue a conservative policy, straining every effort to see that increasingly large amounts were put aside in the debt retirement fund. When this was done, the Board immediately set in motion another long-range program for the benefit of Omaha water users. A \$2,200,000 five year improvement program was started to rehabilitate and expand the water system. This work had been held off to a large extent during the years while the directors were performing the double task of paying off the bonded indebtedness and reducing rates. Republican voters interested in maintaining efficient business management in the Metropolitan Utilities District are urged to vote for Allan A. Tukey on August 11th. Although this is primaries day for most candidates, it is election day for this office. Each major party automatically elects a Director when it nominates its candidate.

estate and insurance business, which he has conducted in Chadron, he organized and became president of the Coffee Cattle Company in 1914, which now has extensive range holdings in Sioux County, Nebraska. He volunteered and served in World War I as a Second Lieutenant in the Air Service. Mr. Coffee served eight years as a member of the important House Agricultural Committee, an dis now serving his fourth consecutive term on Congress. In 1935 he was married to Katherine Newbranch Douglas, and he is the author of the present Federal Seed Labeling Act and is largely responsible for the legislation authorizing removal of surplus agricultural products through relief channels and subsidized exports. The Food Stamp Plan was the result of this legislation. He also sponsored the 1941 amendment which made available to farmers 85 percent or parity loans.

The following quotations are some of his beliefs. "Today the one great objective of the American people, regardless of occupation or party, is to win the war. We must win it to preserve our liberties, our property rights and national existence." "We must crush the Axis powers before these ruthless and imperialistic forces can assimilate into their war machine the resources and the hundreds of millions of people now being brought under their domination." "When the war is over, we must speedily return to democratic processes of government and extricate ourselves from the war-born grip of a controlled economy." Concerning the ability to serve his statement, Rep. Harold D. Coolidge (Dem. N. C.) recently said of Mr. Coffee: "Harry B. Coffee is a train-

ed, sincere, able and distinguished statesman, who appreciates fully the magnitude of the great problems with which our nation is at this hour confronted." He has never been willing to sacrifice principles for political expediency or for fleeting popularity. By background, training, experience, character and by every yardstick by which the measurements of a real man are taken, he is well qualified to serve the people of his State in the United States Senate. He did everything within his power to keep his State in the United States Senate. He did everything within his power to keep this nation out of war, yet he did everything within his power to prepare it for a just defense against all attacks. Not only has Harry Coffee sought to protect this nation from enemies both within and without, but he has made great contributions to the cause of American agriculture. The livestock producers in the nation have no better friend in Congress than Harry Coffee." Vote for Harry B. Coffee for United States Senator.

For seven years I was Election Commissioner for Douglas County, and during my term saved the Douglas County Tax Payers over \$70,000. Also during my term I was instrumental in getting the 1941 Legislature to change our election law thereby saving the Tax Payers of Douglas County another \$10,000 for 1942.

It was also my pleasure to have the Legislature pass Bill 23, which will save every man in the Service 75c every time he votes. The approximate total savings for the soldiers in the Armed Forces of the United States from Nebraska will total \$45,000.

While serving as Douglas County Election Commissioner, it was always my policy to give courteous, efficient and economical service and that same policy will prevail if I am elected your County Treasurer.
