It's dessert that makes the meal

And here's a real winner! Peanut Scotch Pie—a tender, flaky, one-crust pie with a new mellow-rich filling, topped with delicate meringue. It's highly nutritious and energy-giving, and it also makes wise use of rationed ingredients. Notice the e-a-s-y two-step method for making pastry. In a jiffy, creamy-soft Spry cuts into the flour—be sure to try this popular way of making perfect pastry. Peanut butter is plentiful and children love it. Make a Peanut Scotch Pie today, and see how the whole family goes for it!

Peanut Scotch Pie

3 1/4 cups milk
1 cup brown sugar, firmly packed
2 tablespoons cornstarch
3 tablespoons flour
1/2 teaspoon salt
egg yolks, slightly beaten
4 tablespoons peanut butter
1 baked Spry Pie Shell
2 egg whites
4 tablespoons sugar

Scald milk in top of double boiler. Combine sugar, cornstarch, flour and salt, and mix thoroughly. Add to scalded milk and cook until thick and smooth, then cook 15 minutes longer, stirring constantly. Stir a small amount of mixture into egg yolks, return to double boiler, and cook a few minutes longer. Remove from heat. Add peanut butter and blend. Cool. Pour filling into baked pie shell.

Beat egg whites until stiff. Add sugar gradually, beating constantly. Pile lightly on filling. Bake in slow oven (325° F.) 25 to 30 minutes, or until firm and delicately browned.

Cream Cheese Turns Plain Jane Gingerbread Into Glamour Cake

DON'T worry too much if the main course of dinner seems a little light. Serving highly nutritive glamour desserts is an easy and popular way of jacking up the food value of the meal. If your protein foods are low, you'll find cream cheese desserts especially desirable; for cream cheese, like meat, is rich in the body-building elements needed daily for proper growth.

The six-ounce wedge cuts of cream cheese, which come in relish, pimento and chive, as well as the plain variety, can be relied on for easy dessert aid. They are packaged to keep, unopened, for several weeks in the refrigerator, so you can have them on hand for emergency calls. And here's another good point for Victory menu planners to remember: Cream cheese is rich in butter fat, so it makes a delicious topping for fruit puddings and tarts instead of hard sauce. Just let a wedge of the plain cream cheese stand at room temperature until it is softened, then whip it with a rotary egg beater to a snowy fluff. File it on your pies or puddings with a spoon or else force it through a pastry tube.

Mixed with nuts and raisins or cranberry sauce, and used as a filling and topping, whipped cream periods.

PIMENTO Cream Cheese Salad Dressing

1 six-ounce wedge cut of pimento cream cheese
1/2 cup (or 4 tablespoons) mayonnaise
Place wedge cut of pimento cream cheese in bowl, soften it with mayonnaise, using a silver fork. Beat with rotary egg beater until smooth and thick. Makes about one cup.
