**KNOW YOUR MONEY**  
And Avoid Loss Due to Counterfeits

TO THE AMERICAN PUBLIC:

The United States Secret Service and your police wish you to KNOW YOUR MONEY, and through this nation-wide educational program aim to suppress the major crime of counterfeiting.

CHIEF WILSON

Observance of these few simple rules will safeguard the pocketbooks of the Nation. Therefore, I urge every person to carefully study the rules and to follow them.

The United States Secret Service is grateful for the whole-hearted cooperation which it has always enjoyed from your police officers, and we now solicit the assistance of every American citizen in this effort to prevent crime through this modern method of education, instead of the age-old method of prosecutions and imprisonment.

Chief, U. S. Secret Service.

**HOW TO DETECT COUNTERFEIT BILLS**

1. KNOW YOUR MONEY!
2. COMPARE the suspected bill with a genuine of the same type and denomination. Observe carefully the following features:
  - (a) PORTRAIT: Genuine is lifelike; stands out from oval background which is a fine screen of regular lines; notice particularly the eyes. The counterfeit is dull, smudgy, or unnaturally white; scratchy; background is dark with irregular and broken lines.
  - (b) SEAL: On genuine, sawtooth points around rim are identical and sharp. On counterfeit, sawtooth points are usually different; uneven; broken off.
  - (c) SERIAL NUMBERS: Genuine have distinctive style; firmly and evenly printed; same color as seal. Counterfeit, style different; poorly printed; badly spaced; uneven in appearance.
  - (d) PAPER: Genuine bills are printed on distinctive paper, containing very small red and blue silk threads.
3. RUBBING a bill will NOT prove whether it is genuine or counterfeit; ink will rub off of either.
4. REMEMBER—NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.

**TYPES OF CURRENCY**

The only three types of currency printed by the United States Government for circulation are:

1. FEDERAL RESERVE NOTES, which bear GREEN serial numbers and seal.
2. UNITED STATES NOTES, which bear RED numbers and seal.
3. SILVER CERTIFICATES, which bear BLUE numbers and seal.

**PORTRAITS**

Denominations of bills may be identified by portraits, as follows:

WASHINGTON	on all \$1.00 bills
JEFFERSON	on all \$2.00 bills
LINCOLN	on all \$5.00 bills
HAMILTON	on all \$10.00 bills
JACKSON	on all \$20.00 bills
GRANT	on all \$50.00 bills
FRANKLIN	on all \$100.00 bills

**BRITISH BATTLESHIP REPORT HIT BY NAZIS**

AT SEA—The 31,000-ton battleship Malaya, which the Nazis said reached Gibraltar showing extensive damage from an attack on a British flotilla made by German and Italian planes. This phase of the war is looked upon by military leaders as a crucial point. The eternal question of recent modern warfare has been battleships or not? If modern planes can easily sink a naval man-o-war, then the terrible investment has, all been in vain. If, on the other hand, warships can withstand the onslaught of airplanes, and still serve their ultimate purpose, the nation with greatest naval strength will be supreme. If German planes succeed in driving British fleet from the Mediterranean it will be a serious blow to the Allies.

**AUSTRALIANS IN NORTH AFRICA**

Australian troops continue to smash their way through the Italian defenses in Northern Africa according to a report by the middle east high command. This photo shows Australian tanks and infantry awaiting the zero hour for an attack against a tactical strong point during maneuvers in the Libyan Desert. Passed by British censor.

It was agreed to set up a permanent advertising committee to analyze sales markets and public brochure and make these findings available to associated publishers. A uniform editorial policy in attacking discrimination in the army, navy, defense as well as in the general economic and social structure.
