THE COMMON DEFENSE

REVOLUTION BY THE PROPAGANDISTS OF DISUNITY

Sometimes the hate-mongers and propagandists of disunity in this country are defended as the innocent victims of some kind of plot or other to discredit their "worthy" and "patriotic motives". Do the facts support that defense? Are the propagandists of disunity innocent? Are they "patriots"? If we think so we shall be deceived.

We do not have to be deceived. We have facts to show that, concealed beneath the campaign to divide and weaken America by arousing racial and religious antagonisms, is the purpose to replace our democratic form of government with one that is despotic, totalitarian and fascist.

For the record shows that the propagandists of disunity were stout defenders of Hitler and National Socialism. "The time has come for an American Hitler," said one of them. "I respect Hitler 100 per cent," declared another. "We are for Germany and Hitler," said a third. "I am for National Socialism in America" and "My religion is National Socialism" were the "patriotic" declarations of others.

These people stand for revolution in America, as the record also shows. One of them has declared, "In America the revolution will be staged by American fascist forces, patriotic American nationalists". And another, "It appears to be too late to save America without chaos and bloodshed". And still another, "I'm going to start little fires all over the country so that they can burst spontaneously into a flame that'll raise democracy clear to the ground".

Perhaps that's enough to wake us up to the real danger. The revolutionary plot that lurks behind and beneath the chaos these wicked propagandists strive to create by making Americans of different races, religions, and national origins and suspect each other. It ought to be enough to put us all on guard lest, by repeating lies and rumors about our neighbors who are not of our religion or nationality or acer, we help the wicked propagandists advance their revolutionary plot to overthrow our government.

Columbia Broadcasting Symphony Dr. Koussevitsky's cousin accidentally turned on the radio while Carol was performing DeFalla's "El Amor Brujo" and Dr. Koussevitsky heard her for the first time. He immediately called long distance to New York to arrange for a special audition with Miss Brice for himself.

Of course, the rest is history. Carol Brice's singing for the Boston Symphony orchestra, culminated in Dr. Koussevitsky's describing her as being the possessor of a voice like a Cello, his commissioning of a special vocal symphony to be written for her and now her appearance with the Boston Symphony orchestra at the Berkshire Festival where she will perform Brahms' "Alto Rhapsody".

NAT FINDS A WAY TO GET VACATION  
New York, N. Y.—(Calvin's News Service)—Because the option on the Kraft Music Hall, on Thursday, 9:00 WEA-F, has just been taken up by its sponsors, the KING COLE TRIO, made up of Nat Cole, Oscar Moore, and Johnny Miller, will be beaten out of summer vacations. The former closing date for Kraft had been set at August 8th and the boys were ready to shove out immediately after for their Los Angeles homes. Nat had been watching the ca-

lendar because he was jumpy to see his new \$19,000 home which his wife has moved into and furnished while waiting for him to return. Oscar had his heart set on finally getting to deep sea fish. Johnny just wanted to get back to look around.

But the Kraft officials put holes in their dreams by extending the radio time which the Trio shares with stars Edward Everette Horton and Eddy Duchin until September. They thought the team rated a hold over.

So throughout August the Trio will remain in New York, that is all but Nat. The King himself has figured out a solution to his home sick problem. After the August 1 show he'll fly providing reservations come thru, to Hollywood, spend four days at home and fly back to New York just in time for Kraft rehearsals the next Thursday morning, Kraft officials say OK but he better not be grounded!
