The only Pure Cream of Tartar Powder.—No Ammonia; No Alum.  
Used in Millions of Homes—40 Years the Standard

The merry-go-around has been folded up and moved hence.

The salary job would indicate that the slush fund scheme threatens to become too hot for its manipulators.

J. W. Hupp has plans and specifications ready for his new house, and submitted the same to contractors here, last Saturday.

Reports indicate that there will be quite a shortage of winter wheat generally over the country.

The Bridges Bros. formed a singing class in the Lutheran church, Wednesday evening, with over 90 members, the largest they have ever had in Nebraska. The convention will close on next Wednesday evening with a concert.

H. Thompson & Co. have received two carloads of flour and feed and have opened up their business on west Dennison street, in the building north of the McEntee hotel, and respectfully solicit a share of the trade in that line.

The Meeker ditch is being filled with water for irrigating purposes. The process is slow, but the water has now reached the land about south of the city. It is a misfortune to some that the water was not available earlier.

A Rochester man has invented self-patching jackets and trousers. Won't he please invent self-darning stockings? Then he will go down to posterity as the greatest benefactor of the age. Women will fall upon his neck and bless him, and children will cry for him.

Mayor Brewer seems to take considerable satisfaction in controlling Supt. Meeker and the water works company. The consumers on the hill portions of the city now insist that he control the lawless consumers of water. Will he do it? If he can't or won't, will he be man enough to repeal the ordinance and let those who can protect them.

The safety bicycle as now built is rapidly coming into general use as a new method of rapid and convenient locomotion, second only to the railroad; an effectual exerciser and a delightful recreation. Many improvements have been made during the last two years; the perfection of the pneumatic tire, the invention of the elliptical gear improved construction, bring out light, strong machines, graceful in every curve and line, many of the high grade machines weigh less than thirty pounds. The bicycle of today is a "thing of beauty," easily ridden, easily managed safe, inexpensive to keep, is instantly ready for use when you start out and instantly disposed of when you return. You can if you choose, ride with less exertion than would be expended in walking, or you can make the sweat roll off in drops that will cleanse the very fountains of life. "Throw physic to the dogs" and try the prescription of the "wheel." Days of languor and depression will be unknown for the "wheel" will medicine thee to a sweeter, sounder sleep than could the "poppy or mandragora, or all the drowsy syrups of the world."

## REMOVAL.

J. F. Ganschow may now be found in his Elegant New Quarters in the Union Block, where he is exhibiting one of the finest and largest stocks of LADIES' and CHILDRENS SLIPPERS to be seen in Southwestern Nebraska. Remember the "OLD RELIABLE" when you need anything in the shoe line. His goods and prices are always right. Be sure to remember that he has removed to the Union Block and is now located in the old Lytle store room.

This bad weather for his whiskers. Don't forget to plant trees tomorrow.

A daughter was born to Mr. and Mrs. Harry Barbazet, Saturday.

One of J. M. Flannigan's daughters is down with an attack of diphtheria.

We understand that George Laverty and family will remove from our city.

Real estate men are waiting till the clouds roll by—the clouds of dust of course.

Banker wrecker Mosher has been arrested again and declining to give bond is now in custody.

F. H. Elliot is running the restaurant alone now, having purchased Mr. Clarke's interest in the business.

S. C. King is building a house and barn on his farm near the city. The barn will be 28x40 feet in size.

A '93 Model Bicycle, Ball Bearings, Pneumatic Tires, weight 35 pounds, etc., for \$80. A. J. BERTCHER, Agent.

There may be some wise purpose in this weather but it takes an unusual amount of philosophy to appreciate the fact.

At the Harris Hardware you can get a Sewing Machine a good one from \$20 to \$45 with the company's guarantee for five years.

Mrs. J. B. McCabe has three furnished rooms to rent in the Rawlings residence on east Dodge street. Inquire at the residence.

Call and inspect Kaldstedt's immense stock of new goods. The finest selection ever exhibited in the city. Don't wait until the line is broken.

Lenhart's little but frisky black mare took another spin down Dennison street, yesterday morning, at considerable expense and damage to the laundry wagon.

Last Friday Squire Berry at his office united in marriage Mr. R. P. Trout of Hayes Centre, and Miss Anna Lupole of Phillipsburg, Penna. The groom is 51 years of age, the bride forty.

The concert on Thursday evening next by the McCook K. of P. band will be a musical event which no one should miss. Reserved seats now on sale at the drug store of L. W. McConnell & Co.

Some unknown person or persons passed a \$20 counterfeit note in Altschuler's saloon, Monday night. The marshal and two or three others instituted a search for the "shovers of the queer," but without success.

The band proposes giving the people of McCook free open air concerts weekly during the summer. Their benefit concert on next Thursday evening, for the of securing money with which to buy music, etc., should be liberally patronized.

A missionary concert will be given by the Endeavor society on Sunday evening 7:45 o'clock in the Lutheran church. Nine young ladies will represent in costume, missionaries from darkest Africa. Special singing by a chorus of 25 voices supported by an orchestra of 7 pieces.

Several successful experiments in steam plowing have been made in this state this spring, and the belief is gaining ground that it is cheaper to plow with a steam engine and gang plows than with horses. Perhaps the day is not far distant when the Nebraska farmer will break up his land with a storage battery electric motor, which is certain to be the cheap power of the future.

Hasn't Mayor Brewer the nerve to enforce his own water ordinance? He should do it in justice to the company and the consumers on the hill, who are daily robbed of their supply by those over the city who are continually breaking the ordinance by running their springlers out of lawn hours, using hose without nozzles, etc. There should be a strict enforcement of the water ordinance by the city authorities, or the ordinance should be repealed and the company allowed to manage their own affairs.

Supt. Meeker insists that the company is pumping more than the maximum amount of water for cities having a population equal to McCook's. Mayor Brewer declares that the company is not pumping a sufficient supply. Supt. Meeker has repeatedly asked for an investigation, that the matter be tested. He still courts investigation, and the indignant citizens of the hill portion of the city be located. Let the mayor take immediate steps to ascertain the facts. If the company is at fault let us have redress. If the fault is with the mayor on account of his failure to do his duty let the people demand of him the enforcement of the ordinance or its repeal. In all events let us have water and that right away. Locate the responsibility.

A laughable farce will conclude the concert on next Thursday evening.

The Columbia Bicycles, manufactured by the Pope M'fg Co. of Boston, are the best on earth. A. J. BERTCHER, Agent.

That new salary ordinance is a brilliant stroke of business and economy. It will increase our burden about \$800. That's all.

WANTED:—Pupils to take a course in short hand. Evening class begins May first from 7 to 9 o'clock P. M. Three doors east of Commercial hotel.

William Barton passed through last Friday en route to McCook, having been promoted to the position of special agent at that place. The Star congratulates Mr. Barton on his merited boost.—Wallace Star.

There is considerable missionary work to be done in order to insure the voting of the desired and needed \$12,000 school bonds, as opposition to the proposition is cropping out in various quarters—unexpected opposition.

It is announced that Mayor Brewer has sent to Omaha for an expert to come and test the capacity of the water works system. And THE TRIBUNE hopes that the report may prove correct. The test cannot come any to quickly.

This county would surely present a pleasing sight to a man in a balloon. The county is literally covered with new residences, barns, wind mills, corn cribs, granaries and other improvements of great importance to the farmer.

The public schools of the city are holding Arbor day exercises, this afternoon. This evening the lantern class program will be appropriate to the same occasion; and on tomorrow will occur the tree planting portion of the arrangements.

The concert by the Bridges Bros. in the Lutheran church, Wednesday evening, attracted an overflowing audience, and gave very fair satisfaction. A class of seventy was formed after the concert for a week's instruction in vocal and instrumental music.

The program to be rendered at the K. of P. band concert is a varied and excellent one, embracing the instrumental and the vocal, and McCook's best talent in both. In the opera house on Thursday evening next. Reserved seats now on sale at McConnell's.

George Etter is keeping up the old time prestige of the Commercial House at McCook. No matter how late the trains come in, George is up to see that his guests get "roomed" all right and helps Scott to make them comfortable.—Lincoln Call.

One of the statistical items that is now going the rounds of the press is to the effect that there are 3,000,000 men in this country over 30 who have never married. There is nothing specially alarming or ominous about this. In fact, it may be a good and happy thing for 3,000,000 women of varying ages.

We hope that the good people of our town will respond, and at once, to the invitation of the Endeavor Society to help entertain the delegates in the coming convention April 28-30. If you can spare accommodations notify Pastor Stevenson or C. T. Watson by dropping a postal card stating how many you will receive.

Some one has taken the trouble to find out how far a farmer has to walk to put in and attend forty acres of corn. To plow the ground he travels 365 miles, to harrow the ground thoroughly before planting he walks 50 miles, to cultivate it afterwards he will have to travel 300 miles, making a grand total of 770 miles besides the gathering.

As a sample of what can be done in this country, we mention the case of Alex Johnston, living south of McCook. Mr. Johnston raises corn, cattle and hogs and made a clean thousand dollars profit on his year's work. The element of speculation did not cut any figure in this, as any man can do as well if they will. He estimates his corn brought him one dollar per bushel.—Indianola Independent.

The Indianola Paint and Ochre company, which grew out of the discovery of an excellent ochre bed at Indianola, has filed articles of incorporation with the secretary of state. With a capital stock of \$30,000 the work of manufacturing all kinds of paints will be carried on. The incorporators are E. C. McMillan, C. F. Kiel and M. T. Butterfield. The directors are Messrs. McMillan, Kiel, Hinskamp, Starr and Butterfield.—Lincoln Journal.

A real genuine, all-wool-and-a-yard-wide business like and economical mayor and municipal government come high in this village—but we must have them. One of the expiring acts of the city patriots is an ordinance voting an increase of salaries—in many cases doubling the present salaries, which are already excessive for a town of this size. The offices of mayor and councilmen should be filled for patriotic motives and not for pelf, and in many towns the salaries are nothing or merely nominal. The old schedule for clerk, treasurer and police officers was ample pay for the services required and rendered. The new law places an extra burden of about \$800 on this already tax-cursed city, and is nothing more nor less than an outrage.

## PEOPLE YOU KNOW.

P. A. Wells is in Kansas city on business.

Sheriff and Mrs. Banks were among our guests Tuesday.

J. G. Tate of Hastings was a Commercial guest, last night.

Between Two Days. Richard Slick, late clerk in the Famous clothing store, left this section of country some time between last Thursday night and the following morning, and his whereabouts is a matter of deep impene-trable mystery to a number of small creditors. His departure was unannounced and a surprise to many. It is stated that he was driven to Indianola during the night and that he took the train east from that point. It is also stated that a blond-haired member of one of our houses of ill-repute disappeared from her local haunt of shame about the same time that Richard vamoosed. Which doubtless explains Slick's disgraceful break.

Monday, April 24th. Is the date of the exhibition of the marvelous work of the J. I. Case Triumph sulky plow in our city. Every farmer who can possibly be in town on that day should make it a point to see the exhibition. Also to hear what their Mr. Kiser has to say on the question of plows and plowing. The J. I. Case Co. pays him \$5,000 a year just to tell the people how to do it properly. So you want to be present without fail. See George J. Burgess, local agent.

O'Neil-McAdams. Tuesday morning at nine o'clock, preceding high mass in St. Patrick's church, Father Hickey united the destinies of two of our most estimable and sterling young people in the persons of Albert O'Neil and Miss Maggie McAdams, a large congregation being present on the auspicious occasion. The newly wedded couple left on the noon train for Denver to enjoy a brief honeymoon with the warmest wishes of all.

### Plant Trees.

Arbor Day is near at hand and the admonition to plant trees is in order. The day is peculiarly our own in Nebraska, and other states merely follow in our footsteps. The 22d of April is the day made by law a holiday for planting trees and the proclamation of the governor has been sent out calling the people to a due observance. It is a magnificent record that this state has made in tree planting since Arbor day was established. The prairies are dotted with young forests and where nature left but barren plain and valley, those who have observed Arbor day have developed and beautified nature until Nebraska is no longer barren and treeless. The good work that has been done should only be an incentive for greater work in future, and the record of this year should be the greatest of them all. If every man in the state will plant a single tree on Arbor Day, what results will show for it twenty years hence! If the same zeal is used this year as in the past it will be added inspiration for the future that will keep alive the day and its mission for the common good of all. Plant trees just as you would plant money in savings banks and the trees will accumulate in value more rapidly than any interest.

### Happily Wedded.

On last Sunday evening H. H. Berry united in wedlock Mr. Milow M. Rardin of King City, Missouri, and Miss Lena Miller of this county.
