MARKET LETTER

From Our Regular Kansas City Stock Yards Correspondent

Kansas City Stock yards, Oct. 12 1908.—Cattle receipts last week here amounted to 97,500 head, including 14,000 calves. This was the greatest number of cattle ever received here in a single week, and also established a new record on number of cattle and calves combined received for one week. The market declined 10 to 20c early in the week, but held steady after Tuesday, good grades of westerns showing some strength the last of the week. Stockers and feeders sold steady at 25 cts lower according to quality, trade greatest of the season in country grades, purchases by country buyers 1000 car loads for the week. Receipts today are 28,000 head, a liberal run, but 10,000 head less than receipts a week ago. Good runs are expected the balance of the week, attracted by the cattle show which opens here today. The market here is strong to ten cents higher. Some choice steers from the Harbaugh feed lots in Nebraska, received a bid of \$8.00 early today, highest price this fall. Packers continue their liberal buying, and take a portion of the steers classed as feeders. The grass killing westerns bring \$3.60 to \$5.20; grass cows \$2.75 to \$3.75 calves \$3.50 to \$7.00; feeders \$3.50 to \$4.80.

Hog receipts last week were 91,000 head here, as compared with 43,000 same week a year ago, which big increase in receipts, in connection with the increase of 80 per cent in receipts of hogs in September, furnishes ample grounds for the steady decline in prices, common at all markets. The market closed last week with a net loss of 50 cents for the week, and prices are 5 to 15 lower today, run 13,000 head. Top today \$6.30

Sheep and lambs weakened after Tuesday, and closed 10 to 15 cents lower than best time. The run was 55,000 head last week, supply today 12,000 head, and good runs

are expected for a few weeks yet, when receipts from Utah will drop off. The market is steady today on lambs at \$5 to \$5.90 for killers; sheep and yearlings strong yearlings \$4 to \$4.50; ewes \$3.80 to \$4.10; breeding ewes \$3.75 to \$4.50.

DOMESTIC ECONOMY.

"My wife," replied the cheerful pessimist, "knows enough to let a cook have her own way so that she will think we are worth staying with."
