DEPARTMENT CALLED OUT

There were two fire alarms turned in from R. A. Dittmar's residence Tuesday afternoon. The first time the firemen went out they found smoke issuing from the walls of the house but were unable to find any other traces of fire. An hour later, the fire alarm was turned in again and the fire company appeared on the scene. This time a thorough investigation was made. It was thought that perhaps some pine boards and other trash which had been put in the kitchen stove to be burned had made a smudge and the chimney not working well, the smoke had blown back down and out through the fire place and wells as will sometimes happen if the walls are cold. A large crowd was present and the excitement ran high for some time.
