

PEOPLE AND EVENTS

H. B. Hatch, of Chapman, Neb., brother of Mrs. H. V. Hilliker, spent the early part of the week in town.

Miss Jessie Peters, of Omaha, niece of Mrs. W. A. Ambury, is spending the heated term with relatives in this city.

F. Walsh returned from Sterling, Col., on Wednesday morning where he has been the past two weeks working buildings.

John Keith is so far recovered from the recent injuries received from a horse as to be able to go around, and visited the city this week.

A. Holmquist, of Gothenburg, took in the ball games Saturday and Sunday. He is getting to be quite a sport.

Mr. and Mrs. Thomas Keilley are in Boulder, Colorado, and will remain there during the heated term.

A. Rosenfeld is making preparations to shortly visit the commercial centers of the east to lay in his fall stock of goods.

C. C. Hawkins returned home Saturday evening after several weeks' absence in Lincoln. His many friends are glad to see him back.

Miss Georgea, of Omaha, is visiting friends in this section, being at present a guest at the Burke ranch near Cottonwood.

Miss Kimberly, of Clerks, has been visiting in the city this week, the guest of Mr. and Mrs. H. V. Hilliker.

We were pleased yesterday to make the acquaintance of W. B. Risse, late of Carthage, Ill. Mr. R. is a member of the legal profession and has decided to locate in our city.

A. B. Brown arrived in the city yesterday and with the assistance of a clerk is opening up his first installment of goods in the room next to the postoffice.

C. E. Gunnell, one of the leading citizens of Paxton, came down to the future good Monday. He reports that a little sleek in his town at present.

Mrs. J. E. Hoagland and Mrs. E. C. Holbrook returned Saturday evening from an overland trip to Curtis, visiting Mr. and Mrs. E. J. Overstreet of that place.

L. F. Simon has been taking inventory this week preparatory to going east to lay in his fall and winter stock.

Charles Bird uses a cane to assist his locomotion, having been kicked by a horse.

Frank Wilson, a former printer of this city, stopped off this week to visit friends while enroute to California.

The work of rebuilding the railroad bridge across North River is about completed, two or three days more only being required.

Mrs. Langtry passed east Tuesday evening in her special car "Mayflower." The Jersey Lilly refused to be interviewed by the reporters of the city.

A kindergarten school is being conducted in Unitarian hall by Misses Lizzie Ross and Carrie Bowen. The former lady has had considerable experience in the work.

Joe Hawkins came in from Lincoln Thursday night with several cars of fine brood mares which he will drive down to the ranch in the south part of the county.

Messrs. Hoagland, Ferguson, Oberst, and Kocken went over to Gandy yesterday to institute a lodge of Odd Fellows at that place. The ceremony was to have taken place last evening.

A gentleman from the south part of the county says he never knew prairie chickens to be as plentiful as they are this season. Sportsmen are anticipating fine shooting this fall.

The officers of the agricultural society are repairing the race course at the fair grounds, and expect to have it in first class shape before fair time. This is important, as it is expected the entries in the speeding will be larger than ever, and the sport more attractive and exciting.

Mayor Hammond has received notice from the American Water Works and Guarantee Company that the company has accepted the proposition contained in the ordinance. The company also sent a check as required in the ordinance, which will come up for approval at the meeting next Monday.

The work of putting the machinery in the mill is progressing satisfactorily. Mr. Holtry expecting to be ready to make flour by the first of September.

The wheat raised in Lincoln county and vicinity is of fine quality and prompt of the mill may depend on getting four good.

Advices from the southwestern part of the county are to the effect that they have one of the best wheat crops ever harvested and that other crops are in a highly promising condition. On Wednesday Messrs. Nation, Brainard and Ferrell bought a threshing machine of Hershey & Co. and they will commence work without delay.

A couple weeks ago there was some complaint of a short supply of water in the city. The difficulty was caused by the long continued southeast wind, causing the water in the river at the head of the ditch to fall perceptibly by blowing it to the north side.

The ditch is carrying a large volume of water now and there is not likely to be a short supply again this season.

A few weeks ago the butter market was referred to as being almost dead. There has been a revival, under the pressure of short supply, and a good article is again in demand at 25 cents.

It should be brought in good shape in order to command the top price and ready sale. Packed solidly in five-pound jars is the preferable way for family use.

Frank Peale is an old resident of this country and he does not like to place too much confidence in the forbearance of the elements, consequently when he planted his corn crop last spring he thought it prudent to have it insured against the destructive work of hail.

The storm of Saturday night destroyed his corn, and he will receive some return for his labor.

Manager McEvoy received a telegram from Sidney yesterday at noon stating that the base ball nine would be down to-morrow and cross bats with the visiting team in the afternoon.

The visiting club will probably be composed of players from the post and town, selecting the best players in both clubs. A good game will be the result; in fact the home team will be compelled to play ball for all it is worth or else suffer their first defeat.

Talking about hotels, the best site in the city for a first-class structure of that kind at the present time, is on the corner of Spruce and Fifth streets.

This property fronts east and south, offering comfort in the summer, and sunlight and warmth in winter. If the present scheme to build on Locust street falls, it would be a good investment for property holders on Spruce street to form a syndicate and put up a first-class structure. There are no other sites of this kind here.

The work of making hay for the coming winter is now in full progress. Every acre of grass land should be cut, as it is likely the demand for hay will be much better than last year, the crop of Colorado upland being almost a failure.

Taken as a whole, the last year was not prosperous one for hay makers, the market being dull and almost a paying point all the fall and winter. About the first of May there was a revival and shipping some something, but profits were not sufficient to overcome losses sustained during the winter.

The wind during the storm of Saturday night last was the strongest we have had this season, attaining a velocity of about 50 miles according to the registering apparatus at the signal office. Many of the trees were blown down, and probably it did in places. We have heard of damage only in one instance—that of young Charles Brooks, who sustained quite a severe loss by the blowing down of a tree breaking a buggy and it is reported killing a horse. A number of wind mill towers that have been standing a dozen years or so were expected to go but they failed to succumb.

The outrage committed on Mr. Strickler's store Monday night will have just the contrary effect desired. While it is not pleasant to be treated that way and inflicts some damage, it advertises his business and increases his trade, for when you try to boycott a man fairminded people feel it incumbent on them to go around and see the man and buy something just for spite. We know nothing about any agreements, and don't wish to know, (at the same time it is just as well to remark here that we question the wisdom of closing stores at 8 o'clock in the evening this summer time) but if Mr. S. has violated any alleged agreements, those who are aggrieved are proceeding in the wrong way to find a remedy. Throwing incendiary eggs on a man's place of business, shutting the windows and damaging the property is not in the line of relief and will not receive the sanction of the people. In justice to our business men it had a trial before Justice Hawley in the afternoon. The charge was for destroying property of less than one hundred dollars in value. As we go to press the trial is still in progress.

WANTED—A girl to do general housework at the New England Bakery on Front street.

W. H. Welby has been suffering from a severe attack of rheumatism, compelling him to amble around on crutches.

Mr. Mitchell, clerk of Logan county, was in the city Thursday. He says there was not much hail in Logan county last Saturday.

The alagolithic walk in front of Foley's block is the admiration of all pedestrians. If there is anything new Foley is the first to find and adopt it.
