Upon Lord Lyons' coffin was placed a wreath with the inscription, "A mark of the highest regard and true friendship from Victoria, R. I." Another was "A last token of enduring friendship and sincere regret from Albert Edward."

Bishop Walker of Dakota denies the story that he will soon marry Mrs. Kate Noel, daughter of Judge Wakeman. The bishop says that it is against the tenets of the Episcopal church to even solemnize marriage with a divorced person.

Gen. Clinton B. Fisk explains that Mrs. Cleveland's name on the list as contributing \$100 to the prohibition campaign fund was placed there by him in response to a proposition from another gentleman who said: "Put Mrs. Cleveland down for \$100 and I'll pay it."

It is a funny rumor that is flying around now in literary circles, to wit: that there is a matrimonial engagement between Mrs. Frank Leslie and Marshall P. Wilder, the humorist. It is known that they have been attached friends for several years and have more than once voyaged in the same vessel to England and return.

**Pretty Women.**  
All women look attractive when their color and complexion is clear. If your skin is sallow, eyes dull, you are bilious, secure a box of Williams' Australian Herb Pills, take as directed, and the feeling of languor will leave you, your eyes brighten, and you are another woman. C. W. Price, Agent.

completed during the year, counting buildings, equipment, etc. The money which has thus been expended furnished temporary employment to a vast army of workmen and has given permanent employment to another army of probably 65,000.—*Railway Age.*

Survivors going over the line between Washington and Green counties, Pennsylvania, found one house so situated that the husband eats his meal in Washington while his wife eats hers in Green, and they sleep with their heads in one county and their feet in the other.

The secretary of the Litchfield, Conn., school committee recently received a box containing two dozen extra quality nine inch footballs. They were sent by someone signing himself "An Old Boy," who desired that they might be distributed among the twenty-two free schools of the town.

**Ballard's Horehound Syrup.**  
A single bottle of Ballard's Horehound Syrup kept about your house for immediate use will prevent serious sickness, a large doctor bill, and perhaps death, by the use of three or four doses.

Long Lake, in Michigan, has been gradually rising for four years, until the Grand Rapids & Indiana railroad has been forced to abandon its old short line. It is said that the waters of the lake generally rise and subside every few years.

At a recent entertainment in Philadelphia admission was not by ticket, but by vegetable, each person being required to hand over to the doorkeeper a potato or some other vegetable product. The net proceeds were distributed among the poor.

Marshal MacMahon, ex-president of France, has aged rapidly. His old wounds, often inclined to be troublesome, have lately been much more so, and his friends have been receiving anything but reassuring news as to his condition. His intellectual powers are as strong as ever.

In Salt Lake city the houses of the Mormons all have two doors, even the smallest of them. Some have also two woodsheds and two woodsheds and two wells. A house that began with only one room is frequently lengthened out by room and door by door as new wives are taken.

**Electric Bitters.**  
This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise.—A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, will remove Pimples, Boils, Salt Rheum and other affections caused by impure blood.—Will drive Malaria from the system and prevent as well as cure all Malarial fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters.—Entire satisfaction guaranteed, or money refunded.—Price 25 cents and \$1.00 per bottle at A. F. Streit's Drug Store.

A physician who resides in the northern part of the city is noted for his extreme leanness. He is very tall and thin. Several days ago, during his absence, a match boy called at the house, was admitted, taken into the back office, and the doctor's wife purchased some of his stock, the money was in a closet in company with an articulated skeleton, which was disclosed as soon as the door was opened. The boy took one look at the grinning horror and fled from the house, leaving both money and matches. This was related to the doctor, and several days afterward the same boy was seen passing the house. On the doctor's attention being called to the fact, he went to the door and beckoned the lad to come to him. The match boy shouted out: "Not much, you old skeleton. I know yer, even if ye have got on yer clothes."—Philadelphia Call.

While Nebraska towns less than ten years old have street cars and electric lights, there are some somewhat older cities in the east half a century old which are hypothetically illuminated by gas, and in which the horse does the work of the street car. When you want to see a state filled with brave young towns, come to Nebraska.—*Topics.*

**Is Consumption Incurable?**  
Read the following: Mr. C. H. Morris, Newark, Ark., says: "Wife down with Abscess of Lungs and friends and physicians pronounced her incurably Consumptive. Upon taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."

These Middleworts, Dealer, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Trouble. Was given up by doctors. Am now in best of health." Try it. Sample bottle free at A. F. Streit's Drug Store.

An exchange says: The cleanest and quickest case of corn husking we ever heard of occurred in Minnesota a few nights ago. A prairie fire went through six acres of corn in five minutes, completely burning away every husk, and leaving the corn on the stalks bright, clean and no way injured by the fire or smoke. A high wind was blowing. That cornfield was novel sight, with its yellow stalks standing out upon the dry stalks. The only corn discolored or injured was the outside row, where there was a heavy growth of prairie grass, that took the fire longer to burn than did the corn.

One of my exchanges speaks of a millinery store kept by a very estimable lady, and says the editor was gratified to see her stocking up. The editor says he was never so astonished in his born days as he was when the paper came out, to meet the millinery lady and have her strike him across the brow with an umbrella, and claw his hair with her hands, and tell him he was a liar, and that she would tell his wife. He says he don't know what she was mad at, and he has read the item over a hundred times to see if there was anything in the item that is the least bit disrespectful.—*Douglas (Wyo.) Budget.*

Eighteen hundred and eighty-seven has surpassed all other years in railroad building in the United States, the total so far reported reaching 12,734 miles. This is all new main line track, side tracks or relay tracks not being counted. The greater part of this prodigious increase of railways has taken place in a few western states. Kansas leads them all with a total of 2,070 miles. Nebraska comes next with 1,101, Texas 1,055, then the following: Colorado, 818; Dakota, 760; Michigan, 700; Montana 616; Missouri, 554; Indian territory, 499, and so on. Many of these lines have been very costly, as in instance those over the Rocky mountains in Colorado, the Southern Pacific extension in northern California, the Atchison's Kansas City and Chicago extension, the Northern Pacific work in the Cascade mountains, etc. Careful estimates show not far from \$325,000,000 have been expended on the lines.

**What am I to Do.**  
The symptoms of Biliousness are unappetite but too well known. They differ in different individuals to some extent. A bilious man is seldom a breakfast eater. Too frequently, also he has an excellent appetite for liquids but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred, it is rough, at all events.

The digestive system is wholly out of order and Diarrhoea or Consumption may be a symptom of the two may alternate. There are often Hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity or flatulence and tenderness in the pit of the stomach. To correct all this if not effect a cure try Green's August Flower, it cost but a trifle and thousands attest its efficacy.

Chicago has wholly lost its reputation as a divorce center. Detroit has won the record for speed, while New York seems to be entitled to stand at the top of the list so far as numbers are concerned, although its laws are more stringent than those of any other state. The New York Sun recently investigated the matter, the result being the discovery of a most scandalous state of affairs. The number of real and fraudulent divorces obtained in that city in one year is estimated at 1,500. Very many of these are illegal, being secured from regular divorce mongers. "The cheapest piece of paper," we are told, "that purports to be a divorce costs \$25, and the most elaborate kind, with a full set of witnesses, a referee, and a genuine seal, is promised for \$750, to be paid in installments as the steps are taken, or for less if the sum was paid in a lump." The time varies from twenty-four hours to three months.—*Toronto Mail.*

**Save the Children.** They are especially liable to sudden Colds, Coughs, Whooping Cough, etc. We guarantee **Acker's English Remedy** a positive cure. It saves hours of anxious watching. Sold by A. F. Streit.

Among the Lolos of western China it is customary for the bride on the wedding morning to perch herself on the highest branch of a large tree while the elder female members of her family cluster on the lower limbs, armed with sticks. When all are duly stationed the bridegroom clambers up the tree, assailed on all sides by blows, pushes and pinches from the dowagers; and it is not until he has broken through their fence and captured the bride that he is allowed to carry her off. Similar difficulties assail the bridegroom among the Mongolian Koraks, who are in the habit of celebrating their marriage in large tents divided into numerous separate but communicating apartments. At a

possible moment they are surrounded by the bridegroom's attendants, who are by no means disposed to let the bride escape. She is then carried off to the room of her husband, where she is surrounded by his attendants, who are by no means disposed to let her escape. She is then carried off to the room of her husband, where she is surrounded by his attendants, who are by no means disposed to let her escape.

**Can't Sleep?** Nights is the complaint of thousands suffering from Asthma, Consumption, Coughs, etc. Did you ever try **Acker's English Remedy?** It is the best preparation known for all Lung Troubles, sold on a positive guarantee at 10c, 50c. For Sale by A. F. Streit.

President Cleveland has forced the fight between free trade and protection, in spite of the frantic protests of the democratic organs that he has not favored free trade. In the three doubtful states New York, New Jersey, and Connecticut, Cleveland is looked upon as the champion of practical free trade, and no amount of denials of representations to the contrary will change the attitude of the voters to him. In the next campaign he will receive the enthusiastic and unanimous support of the free traders, while he will be solidly opposed by every man who refuses to acknowledge the "blessings" of free trade. The statements of his organs that he is the friend of the workingman, that he does not destroy protection, will not effect the result with the voters or cause them to modify their views.

Cleveland will either have to back down from his present position or lose the states of New York, Connecticut and New Jersey. Without the electoral votes of these states he cannot be elected. The chances are in favor of his backing down.—*Journal.*
