**HA! HA! THE BEST OF ALL!**

It did not take five years to discover that the

**Jewel Gasoline Stove**

was the only safe gasoline stove made, but in 1887, the first year it was introduced in North Platte, FORTY-SIX were sold, more than was sold of all others combined. We have them with either drop tank or the pneumatic, and in the language of the poet, "no pump to get out of order or gas forced through the room," but can prove that less gas escapes from it than any stove made and can show it has many points of superiority over all others, and prove to you that the Jewel is

**The : Best : Stove : Made.**

They are all guaranteed to give perfect satisfaction and will consume less gasoline than any stove in the market. Call and examine the late improved Jewel and be convinced and you will buy no other.

Grand Patriarch J. S. Hoagland, of North Platte, has given official assent to the organization and mustering in of Canton, P. M., at Beatrice and Norfolk. North Platte will be the next on the list. --Hastings Gazette-Journal.

The Herald can inform the sheriff of this mammoth county that if he wasn't so far away but what he could give this end a little personal attention he would find material here for a liquor case. Whiskey is being sold right along, and the miscereants engaged in the illegal and damnable traffic should be brought to justice. --Wallace Herald.

The section lying around Wallace is getting the name abroad of "Egypt." The fact that crops are raised here when other localities have failures is not lost upon our neighbors and when they come here to buy grain it is no wonder they quote Scripture and say they are "coming down into Egypt after corn." Our overflowing granaries and fertile soil make the appellation particularly appropriate, and it will no doubt cling to us. --Wallace Herald.

We learn from Mr. Doll that John Hanser, of Osburn precinct, while returning home from McCook one night last week, had his collar bone broken. The night was dark and his team shied out of the road and very soon had reached an abrupt canyon, overturning the buggy, thus injuring Mr. Hanser. At present he is getting along very well. --Stockville Paper.

Gordon Taylor Hughes, of Ohio, son of the American Consul at Birmingham, England, has been awarded a Cambridge scholarship valued at \$2,000, one of the greatest prizes in English school life. This is the first instance of an American winning an English scholarship. Young Hughes is but 17 years old.

T. C. Crawford has visited the little town of Bussana, in Italy, which was visited by an earthquake a year ago when such destruction of life was reported. Mr. Crawford discovered that these people were killed in the church, where it was reported 300 had lost their lives, and in the whole neighborhood the killed numbered fifty-six instead of 400. He thinks European papers heat the American article for sensationalism.

WILL YOU SUFFER with dyspepsia and liver complaint? Shiloh's Vitalizer is guaranteed to cure you. For sale by A. F. Streitz.

SLEEPLESS NIGHTS made miserable by that terrible condition, Shiloh's Cure is the remedy for you. Sold by Streitz.

W. F. Wilcox of North Platte and E. J. Short of Ogallala, were in Grant Thursday and Friday last conducting the contest case of M. L. Mead and Solomon Eaton of Madrid. The testimony was taken before attorney Reed, the trial occupied all of Thursday and the greater part of Friday, there being a great many witnesses to examine. The land in question lies near Madrid and is valuable property. Mr. Mead informed us that the case was a rather peculiar one. He went upon the land and made some improvements, under the impression—which is correct, we believe—that it was not necessary to file first. Meanwhile Eaton goes to North Platte and enters the land for himself. Mr. Mead was the first to improve and Mr. Eaton the first to file. The case is therefore to determine which of the two is most entitled to the land. So far as we could learn, the testimony favored Mr. Mead. The law seems to be that improvement of vacant land is sufficient evidence that the settler intends to enter it and hence his claim takes precedence over all others. --Grant Sentinel.

And remember, my son, you have to work. Whether you handle a pick or a pen a wheel-barrow or set of books, digging ditches or editing a paper, ringing an auction bell or writing funny things, you must work. If you look around, my son, you will see the men who are the best able to live the rest of their days without work are the men who work the hardest. Don't be afraid of killing yourself with over work. It is beyond your power to do so on the sunny side of thirty. They die sometimes, but it is because they quit work at 6 p. m. and don't get home till two a. m. Its the interval that kills, my son. The work gives you an appetite for your meals and lends solidity to your slumbers. It gives you a perfect and graceful appreciation of a holiday. There are men who do not work, my son; but the world is not proud of them. It does not know their names, even; it simply speaks of them as old So-and-so's boys. Nobody likes them; the great busy world doesn't know they are there. So find out what you care to be and do, my son, and take off your coat and make a dust in the world. The busier you are, the less deviltry you will be apt to get into, the sweeter will be your sleep, the brighter and happier will be your holidays and better satisfied will the world be with you. --Burdette.

J. S. Hoagland, of North Platte, Grand Patriarch of the Grand Encampment of Nebraska I. O. O. F., met with the fraternity in this city last evening and instituted an encampment here. He was assisted by D. A. Cline, of Lincoln, Grand Scribe of the order; G. H. Cutting, Grand Master, and J. C. Ayers, Grand Senior Warden, both of Kearney, were also present to take part in the ceremonies. A successful and pleasant time was enjoyed. --Omaha Republican.
