

STEVENS & BARE, EDITORS AND PUBLISHERS. SATURDAY, MAY 10, 1888.

The base ball season has opened in the East. When will it open in the West?

P. E. Sullivan will file a petition to the county commission for a saloon license to sell liquors in Wall.

Next Sunday being Whitsuntide, the Holy Communion and Confirmation will be administered in the Lutheran Church.

We have had plenty of warm weather this season, but it came before it was ripe. We should not be too previous in the affairs of life.

Councilman Wm. Roche was the first to subscribe for water, his application being No. 1. James Belton did the plumbing Tuesday.

It is given out that a young lady of West will wear a bridal veil in a week or so, the gentlemen who will thus be made happy being a resident of another state.

We understand several of our most fascinating young men have begun a re-arrangement of expenses preparatory to taking a jaunt through Colorado the coming summer.

The first butter from the creamery was placed on the market Monday morning in tubs. It will be put up in cakes, the moulds for that purpose having arrived. The price is 25 cents per pound.

Rev. Geo. W. Martin has accepted an invitation to deliver the address at Clark on Decoration Day. North Platte talent in demand, several parties having received invitations to speak at different points.

Joseph R. Casey and Gertrude E. Parker were married by Rev. Martin Tuesday evening. Some comment was caused by the event, on account of the youthfulness of the groom, being but a little over eighteen years old. Both parties are residents of this city.

Geo. B. Coburn, formerly special agent of the general land office, has resigned and accepted the position of examiner of the Jarvis-Conklin Mortgage Trust Company. Mr. Coburn has pretty accurate knowledge of land in this district, which he has traveled for a number of years.

R. H. Langford, superintendent of public instruction of Lincoln county, while visiting the different school districts in the southern portion of that county, paid Curtis a visit this week, and through his genial, good natured disposition made many friends during his brief stay among us.—Record.

E. N. Keeler, the pioneer settler of Willow precinct and master of the post-office bearing his name, was in the city Wednesday. Like in all parts of the county, everything in his precinct looks well and indicates a very bright future. He is indeed promising. Warm weather is the next thing wanted.

Hugh Ralston paid the taxes for the Rock Island syndicate last Saturday on their land in this county, amounting to a little over \$1,500. Mr. Ralston was well satisfied with his county, and the taxes being only about \$20 per section, 640 acres, on an average. He didn't fancy quite so well in Keith county, some sections there being as high as \$40.

Corn planted early, before the late storms commenced, has decayed in the ground to such an extent as to necessitate replanting in many places. In the eastern part of the county some farmers are replowing the fields before planting again to give the corn an equal chance with the weeds.

The delegates to the congressional district convention at Norfolk went down to Omaha to witness the work of the State Convention, most of them being delegates to that body also. They returned home with flying colors, having secured for West Nebraska triumphant recognition.

The wives, mothers, daughters and sisters of the engineers and firemen will give a strawberry social and dance at Lloyd's Opera House Monday evening next, the proceeds to be donated to the relief fund of the striking B. & M. engineers and firemen. There will be a large attendance and a pleasant time may be expected.

Dr. Gray's popular dentist has now associated with him Dr. F. L. Cary, recently assistant to Dr. Werty of Omaha. Dr. Cary is an expert crown and bridge worker and a first class operator. Dr. Gray can assure the public that he can do any dental work as thoroughly as any factory manner as can be done in Omaha or any other city. Our prices will be moderate.

The ball to be given on the evening of the 20th by the fire laddies should be well patronized. North Platte has a fine set of firemen and the citizens should see to it that they are supplied with uniforms. The object of this ball is to secure suits for the Third Ward Hose Co., the First and Second ward companies being already supplied.

Some of the foreign holders of Keith county land have "caught it in the neck" pretty heavily this year in the matter of taxes, the amount on some sections being as high as \$80. This is owing very largely to the school tax, quite a number of districts having voted the full limit, 25 mills. Districts where the speculator lands lie, are "beehived" for several years to come. The land sharks must educate the children.

After long retirement from business, THE TRIBUNE philosopher ventured a weather prediction last week which only showed how easy it is to be mistaken in such matters. The affable philosopher is anxious to have nice warm weather, and he entertains the opinion that the less the weather is monkeyed with by inexperienced prophets the sooner this desired condition will arrive.

Our old time and well tried republican friend, Jerry Brittain, of Deer Creek is very enthusiastic over the coming autumn campaign, and declares that having once brought the good old ship to the shore, and landed all the cargo without the slightest loss, he will always continue to sail on to victory, and he is perfectly willing that Hon. J. I. Nesbitt and his "bull team" of able bodied seamen shall man the ship. Jerry may not be as careful in the preservation of his spring chickens at season, but for kindness and hospitality he stands the peer of any man in the county.

Throughout the whole of the south eastern part of the county, wheat and oats are looking splendidly, and the farmers are very busy planting corn; and when you consider that each of them is preparing and planting from 75 to 100 acres, it is an evidence that we are surrounded by a farming community, and that the name "ranchman" is a misnomer. The rains we have had, and are having, delight the grangers hearts, and they go to their work with an energy born of the hope that they will reap a bountiful harvest. Joy, wealth and prosperity go with them for they are right good fellows.

The delegates to the Republican State convention returned yesterday morning.

The soda fountain which were opened a month ago have been frozen up for a couple weeks.

The first product of the creamery brought thirty-five cents per pound, and was pronounced strictly first-class by consumers.

Capt. St. John, formerly host of the Hieman House but now living on his ranch in Keith county, was in town the early part of the week.

The assessors are at work very quietly, but we trust none the less effectually. The cool weather somewhat dampened their ardor and made us all feel poor.

A letter received from Capt. Baker, of the McPherson National Cemetery, says he is busy at work fixing up the grounds in readiness for Memorial Day. Those who spend the day at the cemetery will have a delightful time.

The water-works company has suspended the work of laying the mains for a short time, trusting that the water may subside somewhat. By this the ground will be comparatively dry and will not cave so easily.

We are informed that the corn band has received an invitation from the citizens of Wallace to go over and render music for them on the Fourth of July. It is stated that they will be there that day and we think our people should engage them before they accept the invitation from Wallace.

C. S. Harter living three miles southwest of town was so unfortunate as to lose a valuable horse and ten head of swine at his stable also several bushels of grain by fire last Saturday. Mr. H. presumes his stable to have been set fire to by accident by one of his little children.—Ogallala Reflector.

The recent heavy rains have been bad on sod houses. The sides of John Elander's house has caved in, and B. A. Balm's blacksmith shop and E. Bible's stable have also melted under the softening influences of the pattering rain. With good crop prospects, however, these little occurrences weigh lightly upon the very settlers.—Gothenburg Independent.

The street commissioner should devote his attention to opening the street drains as soon as possible, notably those that have been obstructed by laying the water mains. A few loads of filling in the drain on Sixth street between Spruce and Vine would not be out of place.

Evidently the cold wave reached its culminating point Friday morning, when the mercury was down to the freezing point, there being quite a severe frost. Not much harm was done, however, the ground being so warm, in some cases not even beans being injured. The cold was general throughout the plains region.

A very pleasant party was given by Mrs. J. H. Bennett on Thursday night last, wherein fifteen or twenty couples enjoyed themselves till 2 o'clock in the morning. Dancing and singing was indulged in and everybody expressed themselves that it was the most enjoyable time they had this year. The business certainly deserved great credit for the success of the evening, for her excellent refreshments and pleasant ways made everybody feel at home.

The railroad company is making some improvements about the depot yard. The plot of ground about the train dispatchers office is being leveled preparatory to seeding with blue grass. Evergreen trees will be planted at proper intervals, fountains put in, and when finished will be a very pretty little park. The carpenter shop occupying an out-of-the-way position, is being moved to a more central location.

DEMOCRATS—Union Pacific, the overland route will sell through tickets to St. Louis, Mo. to parties desiring to attend the National Democratic Convention, to be held at that place, on June 5th, at one fare for the round trip from points in Nebraska and Kansas. Tickets going good June 24 to 25th, inclusive, and returning June 6th to 11th, inclusive, good for continuous passage only in each direction.

The money to build the county jail is in the treasury. As little delay as possible should be allowed in the completion of that structure. To say nothing of the unsafe condition of the present Bastille, possible prisoners confined there may have ground for damage suits against the county for being confined in an unhealthy jail. Whatever the law may be in other countries, in America the prisoner has a right to a reasonably healthy place of confinement.

We have recently received another large lot of Peerless Steam Cookers. They are of the very best quality and by way of saving Gasoline or Coal are guaranteed to be the best article for the purpose ever invented and will not boil dry without giving the alarm. A large number are now in use in North Platte and every lady is pleased with them. We are sole agents for them. L. STRICKLER.

The concert given by the Woody Bros. Tuesday evening for the benefit of the M. E. Sunday school—held on, let's say, the 15th, was a very successful one. The house 15, and the school 15; we rather think it was for the benefit of Woody Bros. was not very largely attended. The singing was very fair, but most of our people did not seem to have any of our amateurs can give with a little practice. As a result of the concert, the treasury of the Sunday school is not loaded down with an enormous surplus.

If any of the readers of this journal should be desirous of seeing either business or pleasure bent, to pass through the south eastern part of the county, they should not fail to visit the equerry of Mr. John Watt of Deer Creek canyon. Excepting the stables of Hon. Wm. F. Cody, Mr. Watt has the finest horse ranch in the county; and his horses are superior to anything found in this part of the country. He is engaged principally in the breeding of trotting and carriage stock, but has lately imported the celebrated Percheron stallion, Mouton, weighing 1900 lbs., splendidly proportioned, he is a magnificent specimen of the equine race. Any one visiting Mr. Watt, will meet a perfect gentleman, and one who is well posted in all the equine gossip of the times.

The Fourth of July. The Fourth of July is approaching. Preparations should at once be commenced for properly observing the day in North Platte. THE TRIBUNE moves that we have a big celebration this year, and that the people from surrounding towns be cordially invited to participate. General Manager of the Union Pacific, Col. Fisher was formerly on the Union Pacific in its younger days. He is said to be a railroad man thoroughly versed in the business.

A New General Manager. We learn from private source that Col. C. W. Fisher, late of the Chicago, Kansas and Nebraska road, has been elected General Manager of the Union Pacific. Col. Fisher was formerly on the Union Pacific in its younger days. He is said to be a railroad man thoroughly versed in the business.

Water works and electric lights are all right in their way; they were wanted and they came. But they are non-producing enterprises—that is they do not manufacture wealth. We want improvements, but they must be such as will manufacture our raw material into articles of commerce, into products ready for the consumer. The mill and the creamery are establishments of this kind—especially the latter, which will create thousands of dollars out of that which has heretofore largely gone to waste, and will stimulate production.

But we want more manufacturing establishments. To become wealthy we must produce something to sell. At present our only product is land. This we have in abundance, but unfortunately the market is now dull and sales not easily negotiated.

We should have a broom factory. Why should the broom straw raised in Lincoln county be shipped to Chicago, be manufactured into brooms, shipped back again, the consumer paying the freight both ways, besides commissions and profits? By being manufactured here, we would get the benefit of the manufacturers' profits, besides the increase of wealth and population he would bring into the community, and consequent increase in value of property.

We believe that a soap factory on a small scale could be made a profitable industry at this point. The surplus grease from butchers' stock is practically worthless, the market price at Missouri River points being so low as to scarcely bear shipment. It can be utilized at home in the manufacture of soap, and the surplus proceeds to jobbers and dealers on this territory.

Some of our leading citizens are talking up canning factory. An improvement of this kind would find a ready market for its products, as an immense quantity of canned vegetables are consumed here and all over the plains and mining regions. Our soil is peculiarly adapted to the raising of vegetables of superior quality, and the yield is enormous.

In commencing these manufactures, it is not necessary or advisable to go in on a large scale; indeed the tendency is to commence on too large a scale, investing too much money, and the enterprise proves a failure because of inability to pay interest on the investment. Commence small, the main object being to produce as good an article as can be made elsewhere, and there will be no danger of finding sales at a fair profit.

Our board of trade can hold profitable meetings for the discussion of these subjects.

Decoration Day or Memorial Day. Which?

Your attention has been called to the heading over the article of exercises for May 30th. In the original as written by A. H. Church the heading was "G. A. R. Programme for May 30, 1888," but it was printed "G. A. R. Program for Memorial Day," the latter correct, or should it read "Decoration Day" is the question. W. M. Taylor, urging all soldiers of Curtis to turn out on Memorial Day says: "The 30th day of May is Decoration Day, and the 30th of May is Memorial Day." In the official call of the W. R. C. of Nebraska, General Order No. 3 commences: "On May 30th the Grand Army of the Republic will observe the nation's memorial day."

The Omaha Republican alludes to the 30th as Decoration Day and in another place in the same article as Memorial Day.

In recent proceedings of the W. R. C. in Lincoln the question was discussed: "A general order of the national and also one of the department W. R. C. were read, pertaining to the beautiful observance of memorial day, when every garden is robbed of its choicest bloom to mark the resting places of thousands of heroic soldiers."

From these expressions it is evident May 30th is alluded to both as Memorial and Decoration Day, and that it is, however, we believe that the 30th of May is Decoration Day, and the Sunday previous Memorial Day.

Wednesday evening a couple of deserters came down from Fort Sidney on No. 2. Policeman Friend rounded them up and with the assistance of a posse of citizens succeeded in arresting and bringing them in jail. There they rested quietly and peacefully until Thursday evening, when a guard of soldiers arrived from Fort Sidney to escort the runaways back. The runaways evidently did not fancy the sentence of a court martial, for they were well satisfied with the accommodations of the hotel de Baker, and during Thursday night notwithstanding the coolness of the atmosphere outside and the slimness of their purses, they concluded to proceed on their journey. Accordingly a hole was made through the ceiling and the roof, from which it is only an easy jump to the ground. Having gained the open air, they kindly bade adieu to Jalar Merriam, when they resumed their journey with light hearts and feet heels. Apparently they forgot to pay their bills, as Jalar Merriam was quite anxious to have them come back, even spending some time looking about the country for them.

Proclamation by the Mayor. WHEREAS: It is fitting and proper and in keeping with the beautiful custom of Memorial day that all citizens should assist in a proper observance of the day dedicated to perpetuating the memory of the loyal defenders of our Nation, now deceased.

THEREFORE, I, Chas. F. Ormsby, Mayor, call upon the business men and all citizens of the city to close their places of business, and from 10 o'clock a. m. on Wednesday, May 30th, 1888, to remain from all business during the remainder of the day, and join in paying fitting tribute to our country's loyal dead.

Witness my hand and the seal of said city this 10th day of May, 1888. CHAS. F. ORMSBY, Mayor.

Attest E. B. WARNER, City Clerk.

During the last term of the district court at Ogallala the question of medical evidence was brought up by Dr. Harris refusing to testify as an expert in a criminal case. Judge Hamer ruled against the Doctor and his evidence was taken. It does not seem right that a physician should be compelled to leave his patients, many of whom require his closest attention, and be called to court, there to be held open for several days at a time and then compelled to give information that has taken him years of study and experience to acquire, not mentioning the money expended in attending college, for books, etc., without additional compensation. We do not know that the case has ever been passed on by the supreme court, but we are satisfied if the doctors would "stand in" the matter could be definitely settled and that they would receive proper recognition.—Paxton Pilot.

In an article in the Union Pacific, the circus the small boy in the park home in Keith county Saturday.

That barber sign owned by Ralph Barber is entitled to a first prize.

C. C. Hawkins came in from the ranch Friday evening and spent several days in town.

Mrs. G. W. Dillard and children left for the east Thursday evening to spend part of the summer.

The railroad pay checks came in Thursday and gave a temporary impetus to business.

Miss Louise Breternitz has been confined to the house this week by an attack of malarial fever.

The appearance of the sun yesterday after so many days of cold, cloudy and dismal weather was gladly hailed.

S. D. Wadsworth was in town the early part of the week visiting friends and selling agricultural implements.

Miss Kate Gibbs contemplates a trip to St. Louis in the near future and will spend several months with her sisters in that city.

Dr. L. F. Cary, lately of Omaha, a dentist of pronounced ability, has associated himself with Dr. Gray and will remain in the city for a time.

Frank Nowell started Tuesday evening for Alaska. He goes by rail to Port-Townsend, W. T., and from there to Juneau by steamer.

Building operations have been considerably retarded by the cold and wet weather. When the weather clears off things will hum in that line.

The Wild West is coming home and will open at its old place of business on Staten Island, N. Y., May 30th. Col. Cody will probably visit North Platte shortly.

The stream of west-bound emigrant wagons is by no means abating but rather increasing. This once American desert is rapidly being peopled by energetic, intelligent men and women.

Conway & Keith are carrying in stock a full line of hydrants, pipes, hose, faucets, etc., and have secured the services of a competent plumber. They are prepared to take all kinds of plumbing on short notice.

Mrs. W. H. Cary and daughter, of Zanville, Ohio, mother and sister of E. A. Cary, arrived in the city Thursday evening and after spending several days here went to Paxton to visit the family of Dr. Harris.

Mrs. O. B. Willard, editress of the Loup City Times, was a pleasant caller at these headquarters Saturday. Mrs. Willard is a fluent writer and deserves credit for the business like manner in which she manages her paper. She was accompanied by a Miss Long.

In school district 48, of which M. E. Green is the director, there is no school this spring. They have experienced considerable difficulty in getting their affairs so arranged that the machinery will run smoothly, but now matters have assumed a form so that it is ardently hoped no further trouble will arise. In the matter of difference between this district and District No. 4, it will be amicably settled as soon as No. 48 will take the trouble to ascertain from its assessed valuation the amount due from No. 4 to it.

Some boys are in the habit of throwing boxes, barrels and other articles standing on the sidewalk into the gutter almost every night, considerably to the damage of the owners of such property. The barrels of salt on Sixth street belonging to Mr. Foley seem to be a special object, one or more being in the water which stands there nearly every morning. The city pays a night policeman to protect the property of citizens during the night time. A reasonable amount of vigilance on his part would stop this business. Let the property of merchants be protected.

The case of the State vs. Green, in which the attempt was made to compel the defendant to send his children to school, was decided before Esquire Elder, of Medicine precinct, in favor of Mr. Green. It is a lamentable fact that the compulsory school law in this state is very weak, and yet, had there been a good attorney for the state, the result would, in all probability, have been different. Those who refuse to have their children properly educated should bear in mind that this case does not strengthen their position. This decision was arrived at through the assistance of one of North Platte's leading attorneys.

Another petition is going around praying that a saloon be allowed to open its doors in Wallace and it reports to be true it bids fair to get the required thirty signers. The Herald does not claim any credit for bringing the institution here, and whatever good comes out of it we are willing should redound to the honor of those who have encouraged its starting. James Light has broken 149 acres of his quarter section. We think Mr. Light has knocked the persimmon around here, though all of our farmers are turning over every foot of ground their means will permit. E. N. Keeler took a car load of stock to Omaha last week, returning Sunday evening. He reports a very successful trip and is well satisfied with the treatment of Byers, Patterson & Co., of South Omaha, who handled his stock.—Wallace Herald.

overland route, will sell through tickets, at rate of one fare for round trip, from points in Nebraska and Kansas, to parties desiring to attend the National Republican Convention to be held at Chicago, June 19th. Tickets good going June 16th to 19th and returning June 20th to 25th inclusive, with continuous passage only in each direction.

Two tramps were out foraging in this place one day last week for something to sustain the inner man, and one of them humbly approached the back door of an eating house and solicited a "hand out," while the other kept out of sight until the first man should report success or failure. He only waited a few minutes when his "pard" returned and kindly informed that he could "get some water back there."—Gothenburg Independent.

Eight deep wells are completed at the water works and as soon as they can be connected a test will be made. At the point where the pipes are cut off and connection made with the pumps, about two and a half feet below the surface, the overflow will be at the rate of about seventy-five gallons per minute per well. If the test shall prove an insufficient supply, more wells will be sunk.

Now is the time to get ready for cheap traveling. If you want to go to the St. Louis Democratic convention, June 5th, or to the Republican convention at Chicago June 10th, you can get a railroad ticket for one fare for the round trip. An opportunity to see the great men who will be assembled at each of these places only occurs once in four years.

The soldiers' supper given by the Grand Army a couple weeks since was so slimly attended on account of the unfavorable weather, that the remark has been quite frequently made that the Post should give another in the near future, at which the old soldiers should have an opportunity to talk, if they can be induced to do so—not to make speeches, but to tell a story, army experience or anecdote. THE TRIBUNE heartily seconds the suggestion.

The contract is let for the erection of the new school house in District No. 4 and the building will be completed in about thirty days. The size of the building is 20x30 and when completed will be one of the best in the county. The school in this district is new in session with Mrs. Sarah Johnson for teacher, but the same difficulty is experienced as in many other places, not more than half the children who should be there attend the school. The parents are intensely interested in school till they get one, then the interest dies, and the children are allowed to remain at home.

LOOK OUT! LOOK OUT!! For ice cream and strawberry festival and dance at Lloyd's Opera House on Monday evening, May 21st, given by the "Ladies Auxiliary" of the Brotherhood of Engineers and Firemen.

BUTTERMILK for sale by the barrel at the creamery.

Household furniture for sale at a bargain. Enquire of C. W. PRICE.

FURNITURE! JAMES BELTON has now in stock as handsome a line of Furniture as any one could wish to select from. Elegant New Designs in Parlor Furniture, beautifully upholstered Turkish couches, artistic tables and desks, fancy chairs in great variety, bed-room suits in mahogany, cherry, ash, antique oak and walnut. THE BEST FOLDING BEDS in the market.

PLUMBING. If you are thinking of using the splendid deep-well water from the water works, call at JAS. BELTON'S and get prices on plumbing. All work is done by an experienced plumber and guaranteed.

DISSOLUTION OF PARTNERSHIP. The partnership hitherto existing between John Broeker and Herman Baumback, under the firm name of Broeker & Baumback, is this day dissolved by mutual consent, the business will be continued by John Broeker by whom all the affairs of the old firm will be adjusted. All parties knowing themselves indebted to the late firm will please call and settle at once. JOHN BROEKER, HERMAN BAUMBACK, North Platte, Neb., May 14, 1888.

My Motto: I Will not be Undersold. C. F. ORMSBY.

FOR SALE. 5-Room House with two lots, one block east of Second ward school house, cheap. For full information apply at the premises. U. A. DAUGHERTY.

Try Thacker's Ice Cream Soda Water. It is delicious.

THE HAWLEY HOUSE FOR SALE. Situated as I am I find it impossible to run the house. Will sell on easy terms; will take part cash, part in cattle or unimproved real estate in North Platte. Address, JOHN HAWLEY, North Platte, Neb.

New and large assortment of spring styles in wall paper at bottom figures, at Streitz's Drug Store.

Try Thacker's Ice Cream Soda Water. It is delicious.
