Our square dealing together with our unequalled stock of clothing, etc., has gained for us many friends and lasting patrons. We are doing a good and satisfactory business, the result of our

treatment and honest representations. Don't be misled. Many of our friends will observe large, flaring advertisements and hand-bills to the effect of closing out sales. Now don't have the "wool" pulled over your eyes. These changes of business dodges have been worked on you so often that they make you "tired."

YARD ON R. R. TRACK WEST OF DEPOT,

HA! HA! THE BEST OF ALL!

It did not take five years to discover that the

Jewel Gasoline Stove

was the only safe gasoline stove made, but in 1887, the first year it was introduced in North Platte, FORTY-SIX were sold, more than was sold of all others combined. We have them with either drop tank or the pneumatic, and in the language of the poet, "no pump to get out of order or gas forced through the room," but can prove that less gas escapes from it than any stove made and can show it has many points of superiority over all others and prove to you that the Jewel is

The Best Stove Made.

They are all guaranteed to give perfect satisfaction and will consume less gasoline than any stove in the market. Call and examine the late improved Jewel and be convinced and you will buy no other.

RESPECTFULLY,

L. STRICKLER.
