Lincoln County Tribune. VOL. IV. NORTH PLATTE, NEBRASKA, JUNE 16, 1888. NO. 22.

Sheriff's Sale. Notice is hereby given that by virtue of an order of sale issued out of the district court of Lincoln county, Nebraska, on a decree rendered therein in favor of the First National Bank, of North Platte, for the sum of \$491.25 with interest thereon at ten per cent from April 21st, 1888, and in favor of Wm. Neville for the sum of \$191.90 with interest thereon at ten per cent from April 12th, 1888, in an action wherein said First National Bank was plaintiff and Louis C. Bayer and others were defendants, will at one o'clock p. m. on the 24th day of July, 1888, at the east door of the court house, in North Platte, Lincoln county, Nebraska, offer for sale at public auction to the highest bidder for cash the following described real estate as the property of said Louis C. Bayer described in such decree to-wit: The west twenty-two feet of lot 2, in block 194, in the city of North Platte, Lincoln county, Nebraska.

Notice to Non-Resident Defendants. Daniel S. Dickinson and Hollis Gifford, defendants, will take notice that on the 24th day of May, 1888, Lena O. Dickinson, plaintiff herein, filed her petition in the district court of Lincoln county, Nebraska, against said defendants, Daniel S. Dickinson, Hollis Gifford and Sarah E. Dickinson and others, the object and purport of which are to foreclose a certain mortgage executed by the defendants Daniel S. Dickinson and Sarah E. Dickinson, to the plaintiff upon the undivided half interest in all of lot one (1) and that portion of lot two (2) lying east of certain of county road running across said lot connecting the bridges across the north and south channels of the South Platte river in section nine (9), township thirteen (13) north, of range thirty (30) west also the whole interest in lots five (5), six (6), seven (7) and eight (8) in block number ten (10) in Miller's addition to the city of North Platte, in Lincoln county, Nebraska, as platted and recorded in the office of the county clerk of said Lincoln county, Nebraska, to secure the payment of a certain promissory note dated March 31st, 1888, for the sum of two hundred and eighty and no hundredths dollars (\$280.00), due and payable in two years from date thereof, that there is no new deed and mortgage the sum of nine hundred and eighty and no hundredths dollars (\$980.00), which, together with interest thereon and costs, is due and payable by the defendants to the plaintiff, and that said promissory note is to be satisfied by the amount found and due on said mortgage.

School Notes. By the County Superintendent. Prof. N. E. Leach of St. Paul, Neb., will be here to conduct the Lincoln County Institute. The Professor is said to have no superior in the state as an institute instructor, and every one interested in education should attend and note the superior manner in which the institute is conducted.

Steps of each foot and mashed them flat. He was taken to Hoover & Duckworth's office, where his injuries were dressed, and moved to the Grand Central Hotel. He is doing as well as could be expected. The county authorities are caring for the unfortunate. -New Era.

A Frontier County Cyclone. We learn from Jim Urmsom of Moorfield, of some almost miraculous occurrences connected with the young cyclone of last Saturday evening. The corn crib on his father's place, containing some 400 bushels of corn, was lifted free from the ground and carried a distance of several rods and dropped, literally smashing it into splinters and the corn scattered for rods around. Also some 4x4, 20 foot timbers, were taken up from the ground where they were lying, and broken into kindling, and strewn over several acres of land. A carriage belonging to a tree agent also received the impartial attention of this strange freak of nature, for when it was found it was in just the condition of the deacon's one-hoss shay. Considerable damage was done on some of the neighboring places, but definite circumstances were not learned. -Stockville Faber.

Mrs. Jerry Hinton, of North Star, has some fine young chickens. She takes a good deal of pride in them, and when they began to disappear a few days ago, mysteriously and with alarming regularity and proportions, she very naturally got up and read the riot act. Whoever or whatever was at the bottom of the matter, transacted his, her or its business at night. Finding no other way of solving the problem, she took some blankets, a wagon box and a pitchfork and went into camp in close proximity to her precious live-stock. She went to sleep only to be awakened by a row in the henry. Grabbing her pitchfork, she charged on the unknown and unseen, but certainly present enemy, and soon found herself in pursuit of him. He was a pole-cat. Right here is where Mrs. Hinton showed the bloom and bravery of a heroine. A pole-kitty is a dangerous thing to pursue. But the one in question had appropriated her chicks without even offering to settle the account by either cash or note. She therefore determined upon his extermination. He was exterminated. The pitchfork and Mrs. Hinton did it. But it was several days before the atmosphere in her immediate vicinity seemed to be freighted with the balmy and enrapturing qualities that usually pertain to the hills and dales of this section of sunny Nebraska. -Stockville Faber.

In West Virginia, on the Great Kanawha river there stands a huge sycamore tree which is hollow from its centre to tree surface. This has been utilized as a residence for two men, a woman and two children. They live, eat and sleep in it, and to all appearances are as happy as any family in a brick front or other substantially built house. On being interviewed a short time ago, one of the men in answer to a query said, "Yes, we are pretty well satisfied with our quarters. The landlord never threatens us with a writ of ejectment because we don't pay the rent; we never have any repairs to make; the house never needs painting; the tax gatherer never bothers us, then we never have the bother of moving. Taken altogether, we think we are better off than a great many people."

The number of pupils returned by the county superintendent for Keith county last year was 1,226. And this year the superintendent of Perkins county returns 1218. This shows an immense increase, as Perkins county is less than half the size of Keith county. The band-boys received their instruments last Sunday evening. They were made by Jules Beautee, of Paris, and cost \$270. The cornets are silver and all the other instruments are first-class in every respect. Those having instruments are all old players and with a little practice will make good music. -Assessor Boeswetter furnished us the following items from Grace precinct assessors roll: Personal property, \$13,000; real estate \$40,800. This shows up pretty well for one precinct in a new county. -Grant Sentinel.

Talking about strikes, it is the farmer after all who moves the world. If he would go out on a strike and refuse to raise a crop for a single year, it would undoubtedly produce a more disastrous effect than would result from a universal strike of all the labor organizations combined. In fact he would paralyze the world, yet there are many people who don't know how much more our prosperity depends on the farmer than it does on the duke with the cane and waxed moustache.

Last Saturday evening the severest hail storm swept over Curtis that has been known here for many years. The stones were in many instances, as large as walnuts, and quite a number of windows were broken in town. Many horses became frightened and broke their fastenings and a good part of Sunday was spent in looking them up. -Curtis Record.

"Grandmother" Mark, aged 94 years, of Juniata township, the oldest citizen in Huntingdon county, Penn., who has seen her children, grand-children, and great-grand-children grow up to manhood and woman-hood, occasionally stops in her work to relax her limbs by indulging in the Fisher's hornpipe and Highland fling.

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lung and friends and physicians pronounced me an Incurable Consumptive. began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."

Jose Middlewari, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Trouble. Was given up by doctors. Am now in best of health." Try It. Sample bottle free at A. F. Steiner's Drug Store.

Morris, Newark, Ark., says: "Was down with Abscess of Lung and friends and physicians pronounced me an Incurable Consumptive. began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."

By the County Superintendent. Prof. N. E. Leach of St. Paul, Neb., will be here to conduct the Lincoln County Institute. The Professor is said to have no superior in the state as an institute instructor, and every one interested in education should attend and note the superior manner in which the institute is conducted.

Failure to attend the institute means failure to secure a school in the county. All those who are looking forward to the fall term of school, with the expectation of teaching should note this fact.

A school officer who does not attend to his duty promptly is not a proper person to hold so important a position, and should resign in favor of one who will attend to the business intelligently and energetically. It is not an office that any person very ardently desires,—there are no pay and no thanks connected with it, and yet having once accepted the place there is no excuse for negligence.

Lincoln County Institute will be held this year commencing June 18th, with Professors Leach of St. Paul, Neb., and Allwine and Byerly of North Platte, conductors. Every one who expects to teach next school year will be required to attend at the opening and continue regularly to the close of the same. It is the intention of the instructors to make a special effort to teach teachers how to teach, how to classify, how to carry into effect a course of study, and how to make a complete report. These reasons are sufficient to warrant us in saying that all who teach in the county this year must attend the Normal.

It is the intention of the Sup't of School to use every effort to have an exhibit of school work at our Institute and also at the county fair next fall. Teachers, keep this fact in view and preserve specimens of your work and exhibit it. This is a new departure in this county, and one, too, which will be productive of great benefit. Get your specimens ready and send them to me without delay. All those teachers who are engaged in the work at present, are earnestly solicited to have their pupils prepare work and either bring it or send it in before the close of their school.

The following from the Ogalala Reflector relative to the ranch of E. M. Searle, will be read with interest by the many friends of that gentleman in this city: "A ride over E. M. Searle's rancho shows that he has improved that tract of eleven hundred acres with a particular view of making it a stock breeding farm. He has it fenced into pasture, grain and meadow lots, the latter containing about two hundred acres of excellent native grass, while he has under the plow about one hundred and ninety acres; he has ten acres of young timber a good portion of which is ash, and all making a splendid growth, the remainder of the tract is devoted to pasture. He has a large barn and will this year add much in sheds for his stock accommodation. Mr Searle is giving particular attention to horse breeding having now sixty good brood mares and one of the finest Norman stallions in the state, the get of which are exceptionally good and attractive. He is also making the breeding of Durham cattle a specialty and has some very fine thoroughbreds and grades are to be found in the state. This farm is but three miles from town, and it is but a question of a few years when Riverside Stock Farm, as it is named, will be one of the noted stock breeding farms of the west. Mr Searle takes much pride in improving both stock and farm, which pride is sure to reward him abundantly.

The Northwestern Railroad. From present indications there is but little doubt but the Chicago & Northwestern railroad will extend its line from the present terminus, Albion, Boone county, towards Denver this season. The action of the Illinois Central road in filing articles of incorporation touching the same countries a spirit of rivalry, that will result in both roads making the dirt fly at a lively rate before the season is over. There is much connected with the movements that are now under consideration, which assures a lively time, between not only the Chicago & Northwestern and the Illinois Central railroads, but the B & M as well, this season which we have never the time to mention, nor liberty at the present time. Suffice it to say that Mr. Lusk, one of the directors, with other officials of the road spent Monday and Tuesday looking up statistics and other matters relative to railroad affairs. They were favorably impressed with the prospects and within a few days at most, we expect to be at liberty to give the public a bit of news that will be flattering to the country along the line between Albion and Broken Bow. -Broken Bow Republican.

Mashed Both Feet. Another victim of the car wheels was added to the list last Sunday morning in the person of a stranger answering to the name of Sidney Gardner, who was besting his way east. When a freight train pulled away from the water tank, Gardner, in company with another man took their positions near the train and looked for desirable brake beams to ride on. Gardner grabbed for the iron rod beneath a car, and in attempting to swing under fall backward with both feet directly on the rail, the wheels passing over the in-

State Bank of North Platte, NORTH PLATTE, NEB. Discount Good Notes. Loan on Chattels. Accounts solicited and prompt attention given to all business entrusted to its care. Interest paid on time deposits.

MORROW FLAT. Mr. and Mrs. Wm. McDonald of North Platte spent one day last week visiting Mr. and Mrs. I. K. Neeley. The genial face of Harvey Harden is again seen on the flats. He has been in ill health for some time but we think the pure air of Nebraska will be very invigorating.

Pleasant View Sunday School is progressing finely, large attendance, a nice new organ and a splendid chorister. All that is necessary to make it complete is the new singing books which the committee have some difficulty in getting the kind desired.

Mrs. H. B. Daniel is still confined to the house suffering from a severe sprain. The tree claims in this vicinity are looking extremely well. The Crete men have been cultivating the Hosford claims of which they have the care. Some of our neighbors who have been working on the roads near North Platte were stopped quite unceremoniously and told to quit work or receive no pay as there was no more money in the treasury, for that purpose. This will be a little rough on our roads. The Republicans around here are beginning to wake up in regard to political affairs. Two of our sturdy old bachelors were putting on lots of shape last Sunday with brand new buggies. We wonder if this means anything. CHICKET. June 11, 1888.

FAXTON NEWS. From the File. Capt. St. John made entry under the tree culture act, last Saturday, of a quarter section of Uncle Sam's domain, in range 16 north of the North river. On Monday morning Elder Ambsary received a dispatch from Mrs. Ambsary, at Florence, Colorado, informing him that his little son was very sick. The Elder went west on the first train. Mr. J. S. Kinne and Mrs. A. W. Kinne visited North Platte one day last week. Conductor George Hartman has bought a fine buggy, horse and harness, for Mrs. Hartman's use while he is on the road. Broach, the photographer, has been rusticated at Paxton the past week. He has taken views of several business houses and residences, among them he took the residences of Dr. Harris and Howard Miles, the Lone Tree Ranch and Lookout Ranch. We understand that the school board of District No. 11 has had some trouble about accepting and paying for the school house which has just been built by bonding the district. One of the board claims that the house was not completed according to contract, and that one of the other members of the board was an interested party in the contract contrary to the law made rod provided. If half that has been said is true,—and we have our information from reliable sources—there has been some crookedness on the part of some that have been interested in the building of that house. The tax payers of School District No. 11 should investigate this matter to the bottom and see wherein the fault lies. Tuesday evening about 9 o'clock, freight No. 22, coming from the west, broke a coupling about one mile west of Paxton. About half a mile from Paxton, after the front part of the train began to slow up, the rear cars came up at the rate of 20 miles an hour, striking the cars in front, totally demolishing two box cars loaded with coal. The rear brakeman was on top of the runaway and had succeeded in setting several brakes. He was thrown down and pretty well shook up but was not seriously injured. A tramp who was stealing a ride in a car that was next to the ones wrecked was badly scared. He said he thought the day of judgment was at hand for him. Fortunately no one was seriously injured. The train was delayed several hours on account of the accident. "There is no Cure but Marriage." How many a pompous old ruffian, with an M. D. attached to his name, has offered this time-dishonored prescription to a pale haggard girl, suffering from the ills of womanhood? How many a wretched hell on earth has thus been started? for no marriage can be blessed, either to husband or wife, which is taken as a pill. Out upon such quackery! There is a cure for suffering women—a cure which will make marriage the greatest of earthly blessings, and home the sweetest of Edens. Its name is Dr. Pierce's Favorite Prescription. Just try it, and see the black clouds of life roll away before the growing sunshine of returning health and vigor. It is the only medicine for women sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case or money refunded. See wrapper around bottle. Dr. Pierce's pellets the original and only genuine Little Liver Pills. 25 cents a vial; one a dose. Is Consumption Incurable? Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lung and friends and physicians pronounced me an Incurable Consumptive. began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."
