

STEVENS & BARE, EDITORS AND PUBLISHERS.

SATURDAY, JUNE 16, 1888.

J. I. Nesbitt has accepted an invitation to deliver the oration as Ansel, Custer Co., on the Fourth.

Home-grown new potatoes will be in the market in a week or so. The early potato raiser is the one who catches the ducks.

If the party who borrowed Conway & Keith's stove lifters will return the same he will receive the thanks of the firm.

We understand that the creamery has secured a market in Denver for all its product over and above the home consumption.

The city schools closed yesterday and the children will doubtless enjoy their summer vacation after ten months of school work.

MARRIED.—On June 10, 1888, by Rev. Adam Stump, Mr. Wm. Buchanan of Elsie, Neb., and Mrs. Elizabeth Ann Hayes of this city.

A. J. Dill of Brady Island came yesterday morning intending to take this morning's train for Chicago to see the next President nominated.

W. J. Patterson will erect a brick building on his lot west of the opera house to be used as a blacksmith shop and will shortly remove from his present stand.

The Catholics of this city always give pleasant entertainments and the fair which commences next Tuesday evening will be no exception. We hope to see a large attendance each evening.

Children's services in the Lutheran church next Sabbath. Subject for the morning, "Lenten fruits and life." For the evening, "Children's exercises in the evening."

H. M. Grimes has accepted an invitation to deliver an oration at Buchanan on the Fourth. Mr. Grimes' scholarly attainments insures the people a worthy address on that occasion.

Bills are out announcing a Democratic rally at the Court House this evening. We make this announcement because our Democratic contemporary over on Locust street will say that the meeting is on Sunday evening and we don't want our Democratic friends fooled that way.

The attention of contractors is called to the advertisement in writing bids to build a jail and several bridges. There will be a large amount of public building done this summer, in spite of commencing late.

Fishing is not so good as it was last year, experts only being able to catch a few. Thacker and Wilson took a trip up the river Wednesday afternoon and returned with one pike only. It was quite a nice one, however, weighing two pounds and a quarter.

Remember that Conway & Keith have the sole agency for the celebrated Maltese Cross Hosiery, the same make as has been adopted by the city water works. This is the only PERFECT Hosiery manufactured.

Merchants should bear in mind that newspapers are always booming the town, but that the advertising columns are the best guide as to whether the town is booming. The advertisements are what the stranger measures the town by.

Would it not be well to have Lincoln county represented at the state fair this fall? By a little effort we can send a collection of grain and vegetables that would compare favorably with, if not exceed, those raised in other sections of the state.

It had been the intention of the Water Works Company to resume the work of laying mains this week, but heavy rains at Kearney, where the pipe gang is at work, delayed operations and are expected here this week, when an effort will be made to get the mains down by the specified time, July first.

T. C. Patterson has purchased the lots at the Corner of Sixth and Spruce streets, commonly known as the Neary corner, for the purpose of erecting a building thereon this season if possible.

W. S. Cox who killed the gray wolves that had been destroying cattle and colts near Maxwell, has been present at the county election and is not through yet. In addition to this he received a bounty of three dollars for each scalp from the county, the whole reward being about \$130. He hunted seven days and killed seven wolves.

People who complain of the cold weather are now equally pronounced in their denunciation of the heat. The TRIBUNE weather regulator long ago became convinced that the cold weather was not the cause of the trouble, but that the heat of the country was the cause of the trouble.

A young man residing not over a thousand miles from North Platte is just recovering from a serious illness which was caused, it is said, by kissing his best girl's rouged cheek. A friend of our club suggests that any man who fools away his time on his best girl's cheek when her lips are only an inch away deserves to be sick.

P. H. McEvoy has rented the north side of the room next to the post-office and will engage again in the jewelry business. Mr. McEvoy is now in Chicago selecting his stock, which though not large, will be of the latest designs and will be sold as low as consistent with business principles. THE TRIBUNE wishes Mac success in his new venture and respectfully asks that he be given a share of the public patronage.

To the few ladies in the city who are discouraged because leap year is passing swiftly by and Cupid's shaft has not yet pierced them we offer the following verse:

There never was a goose so gray,
But some day, soon or late,
Some honest gender came her way
And took her for his mate.

Children's Day was appropriately observed at the Methodist and Presbyterian churches Sunday, both edifices being packed morning and evening.

The respective rooms were filled with fragrance emanating from the large display of plants and flowers, birds sang sweetly within the cages, while the children were hanging on the walls, the children were seated nicely, the songs were well rendered and the audiences were in a happy humor. Those who failed to attend missed a very pleasant evening.

Indications point to a dull summer season and people who delight to be entertained in various ways are bemoaning their fate. It of course depends altogether upon the people whether social gatherings are few or frequent. Informal evening parties are always pleasant occasions and do not require much work in preparing for them; picnics are always joyous and can be gotten up on short notice; lawn tennis and archery are pleasant sports and several clubs could be formed—in fact there are many available means of amusement if the people are inclined to make use of them.

For Good Meat Call on BRODDECK & GERMANN.

The Ladies of the Baptist Church expect to give a Literary and Ice Cream entertainment Friday evening, June 29th.

Services at the Baptist Church June 17th: Morning Subject, "Lessons from the Fall of Jericho"; Evening, "Mantness"; Sunday School at 10 o'clock.

Rev. Geo. W. Wainwright, secretary of the American Bible Society, will preach in the Presbyterian Church Sunday morning. All are invited. No services in the evening.

Thursday the thermometer registered over 85 degrees in the shade at the station office, the hottest day of the period up to that time. Yesterday the mercury ran up to 2 o'clock.

Colgate Hoyt, Director of the Oregon Railroad and Navigation Company, with a party of friends, went west on the Overland Flyer Monday night. They occupied a special car.

Remember that Conway & Keith have the sole agency for the celebrated Maltese Cross Hosiery, the same make as has been adopted by the city water works. This is the only PERFECT Hosiery manufactured.

McMahon's circus exhibited here on Tuesday in spite of reports that the concern had bit the dust. As a show it was creditable and gave satisfaction to all who attended. There was a good audience to see the performances, both afternoon and evening.

The new court house at Gandy was dedicated yesterday at which occasion the people of Logan county had quite a celebration. Among the speakers were Judge Hamer, H. M. Grimes, J. S. Hoagland, J. W. Bixler and A. H. Church. The building cost slightly over \$65,000 finished on the 15th inst.

The California, Nevada and Utah delegations to the Republican National Convention passed through this city at 5:30 yesterday morning on a special making overland flyer time. The coast is said to be solid for Blaine.

Mr. and Mrs. Harley have been busy a couple of weeks soliciting subscribers for a circulating library, having thus far secured about a hundred names. A. F. Streitz will have charge of the library. The plan seems to be a very good one.

R. D. Thomson of this city was a bidder for the contract of erecting the new court house. In dollars and cents Mr. T. was the highest bidder, but if the truth could be known we believe he is actually the lowest, for "Dave" never was known to slight a job.

The attendance of buyers at the Evans & Wald horse sale Saturday afternoon was not very large and their demands were soon satisfied, when the sale closed. Those sold brought very good prices, one 3 year old mare bringing \$135. After the public sale, a number were sold at private sale at fair prices. Most of the colts were well-bred grades, readily attracting buyers.

Remember that Conway & Keith have the sole agency for the celebrated Maltese Cross Hosiery, the same make as has been adopted by the city water works. This is the only PERFECT Hosiery manufactured.

Fifteen or twenty Democrats gathered at the court house Wednesday evening to talk party matters and have a kind of a good time, we suppose. A few Republicans went in, but an intimation that their presence was not desired, caused them to retire. Evidently they are going to get up an enthusiastic feeling, but the whole party body is so full of malaria they find this a difficult job. About 10 o'clock loud huzzas were heard issuing from the court room, and the supposition is that something good had been taking.

In taking the census of sections 14 and 15 in 10-34, which it was proposed to include in the village of Wallace, the enumerators got considerably excited, apparently. One thing that mixed matters more or less is the fact that in the village there are a number of people at work who own no horses and who live long distances outside the county are not actual residents of the territory proposed to be incorporated. By accident they were "put on the list" and helped to swell the figures to the necessary two hundred. But still they are not to be shorted, and the indignation is made that hotel registers were searched. When a man wants wet goods he wants 'em bad, and will not allow little trifles to stand in his way.

Election of Teachers. After the Board of Education had heard the arguments of those desiring a change of teachers, a motion was adopted to proceed to the election of teachers, the test of course being on the principal. Mr. Principal H. W. Allwine.

Central School.—1st Grammar, Anna M. Cronen; 2d Grammar, Mrs. Widdmeyer; Intermediate, Annie Stolle.

First Ward.—Principal, Bettie Graves; Assistant, M. E. Sullivan.

Second Ward.—Principal, Ethie Cleland; Intermediate, Bertha Tholeck; Primary, Eunice Babbit.

Third Ward.—Principal, Mary Conway; Assistant, Annie Bowen.

Fourth Ward.—Principal, Maggie Loftus; Assistant, Thomas School.—Mary Loftus.

Has Not Left. A short time ago A. Hibner appeared before the County Commissioners and represented that F. M. Jennings, assessor for Fox Creek precinct, had left the county, and was not performing the work of assessor. As Hibner was Jennings' bond, and consequently a very interested party, the board appointed Hibner assessor; but by the time Hibner had got back to the precinct Jennings had returned and commenced the assessment. Hibner of course retired gracefully from that field.

Now Jennings writes us and desires the report that he had left the country, contradicted. He says he "never thought of leaving the county, nor does he expect to leave it." And then he fires into us a communication, viz: "What is the best remedy to stop tongues from attending to other folks' business?" Dear Mr. Jennings, the experience of ages has demonstrated that the cold and clammy hand of Death is the only remedy.

The Wallace Saloon Business. The people of Wallace and vicinity have had considerable controversy lately over the question of establishing a saloon in that village. There is quite a number of saloons in the village, while a much larger number it appears do not think it would be for the best interests of the village and surrounding country to have one of these institutions, and they protest. The saloon men argue that it will be better to have liquor sold openly rather than surreptitiously. The temperance people think otherwise. While the very thirsty and craving may be able to obtain a small amount of liquor this way, there will not be that temptation to moderate drinkers, young men and boys that a saloon holds out. On the remonstrance were the names of a large number of women, but we think there were none on the petition. After hearing the evidence introduced by both sides, the County Commissioners rejected Sullivan's application.

Juni Apportionment of School Money. The semi-annual June apportionment of interest derived from the permanent school fund is \$283,988.88.

No. of children in the state, 293,985. Rate per scholar, \$0.866. No. of children in Lincoln county, 2,438. Apportioned to Lincoln county, \$2,129.16. This money will be ready at the first of the month and as soon as the same can be apportioned by the county superintendent.

The Fourth. Preparation to observe the day in North Platte are being slowly made. At the meeting Monday night it was decided to place the celebration under the auspices of the fire department. Committees to make arrangements and one to solicit donations were appointed. A meeting of the committee Thursday evening, a program was outlined and a subcommittee appointed to perfect it to report next Tuesday evening, at which time there will be a general meeting at the Court house.

The School Investigation. The investigation on the charges published in THE TRIBUNE last week, into the conduct of our schools, was resumed this evening at a meeting of the board and completed on Wednesday. Mr. Hoagland appeared before the board and made quite a lengthy statement, besides having previously filed a written statement of the reasons why he believed the Messrs. Allwine and Beyer should not be re-elected. Mrs. W. M. Hinman also made an argument in favor of having new teachers. Of the members of the board, Mr. Sullivan took a leading part in sustaining the course of the superintendent while Mr. Hinman conducted the investigation. After all parties had been heard, the board proceeded to the election of teachers.

Railroad and Telegraph Assessment. The assessment of the railroads and telegraph lines in this county was received from the State Auditor by the county clerk Tuesday evening. The Western Union Telegraph Company operates the line along the Union Pacific. The telegraph lines along the N. & C. are supposed to belong to the road.

The Western Union Telegraph Co. is assessed as follows: 3.82 miles, \$5,041.29; 26.82 miles, \$3,610.00; 26.82 miles, 2 wires, \$9,345.20; 26.82 miles, 2 wires, \$9,345.20.

United Pacific, 56.62 miles of road at \$11,440 per mile, \$645,220.50; Nebraska & Colorado R. R., 6.73 miles at \$2,500 per mile, \$16,825.00. Total valuation, \$902,409.19. Total number of miles of telegraph in the county, 105.35.

ANNOUNCEMENT EXTRAORDINARY. Having been formed into a corporate body, in accordance with the law, for the purpose of furthering the interests of education, we who are hereby notified, enter the profession of teaching. This school will be operated on a novel plan, one which needs explanation, but which we believe will give complete satisfaction to those directly interested, and redound to the credit of the originators. We wish to place before the people a few of the many admirable features of this wonderful scheme. It is our intention to put our pet theory into practical operation by placing the pupils of this school, not only in the schools of our city and furnishing them children upon which to operate. For six hours a day the little ones will be subjects in the hands of the members of this training school. Metaphorically speaking, we who are hereby notified, enter the profession of teaching. This school will be operated on a novel plan, one which needs explanation, but which we believe will give complete satisfaction to those directly interested, and redound to the credit of the originators. We wish to place before the people a few of the many admirable features of this wonderful scheme. It is our intention to put our pet theory into practical operation by placing the pupils of this school, not only in the schools of our city and furnishing them children upon which to operate. For six hours a day the little ones will be subjects in the hands of the members of this training school. Metaphorically speaking, we who are hereby notified, enter the profession of teaching. This school will be operated on a novel plan, one which needs explanation, but which we believe will give complete satisfaction to those directly interested, and redound to the credit of the originators. We wish to place before the people a few of the many admirable features of this wonderful scheme.
