The two young ladies of New Mexico who fought a duel because of jealousy over a charming cowboy, are still living, although the wounded one is very ill. The gentle cowboy is said to have given his great, brave heart to the latter, while the girl that emerged from the conflict unhurt is still her lone watch keeping for him who'll come no more.

Colonel M. V. Sheridan has sent Representative Dorsey a letter on behalf of the general, thanking him in the warmest terms for the interest he took in the passage of the bill reviving the rank of general of the army. Mr. Dorsey and General Sheridan have been intimate friends ever since the war, the former has worked faithfully for the revival of the rank of general since the retirement of General Sherman, believing it was due to the man who is now promoted.

How to Cure Salt Rheum and Tetter. Many persons believe that salt rheum and tetter can not be cured and quietly submit to be tortured by them. If they would invest twenty-five cents in a box of Chamberlain's Eye and Skin Ointment and apply it as directed they would soon become convinced of their error. It almost instantly relieves the itching and burning sensation and has cured many cases after they had resorted all other treatment from ten to twenty years. Try it. For sale by F. H. Longley.

General Bradley T. Johnson was precisely right when he declared last week that the confederate soldiers were in actual possession of the government. Of twenty-eight United States senators representing fourteen southern states, twenty-six were officers in the army of the rebellion, and as many as eighty representatives in the lower house from the same states fought on the same side. The committees of the house are largely controlled by confederate soldiers, and the president has distributed among them the highest offices at his command, knowing that his re-election would depend upon their active support. The confederacy is in the saddle and is hoping to ride rough shod over Northern Industries.—Ex.

Electric Bitters. This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters since the time of its introduction will testify to its efficacy. It is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, will remove Pimples, Boils, Salt Rheum and other affections caused by impure blood.—Will drive malaria from the system and prevent as well as cure all Malarial fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters.—Entire satisfaction guaranteed, or money refunded.—Price 50 cents and \$1.00 per bottle at F. Streitz Drug Store.

The annual death rate of London, it appears, is about twenty in one thousand, and that of New York about twenty-six in one thousand. The population of New York is given as 1,439,037, and of London as 4,149,533. The total number of deaths in New York in 1886 was 37,331, and in London 32,545. If New York had the same population as London, and the death rate from the different diseases was the same as at present exists, the number of deaths in New York would amount to 107,705, or 25,160 in excess of those in London.

AN EXPLANATION. What is this "nervous trouble" which so many now seem to be afflicted? If you will remember a few years ago the word Malaria was comparatively unknown—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and malaria are included to cover what our grandfathers called biliousness, and all are caused by troubles that arise from a diseased condition of the liver which in performing its functions finding that it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, malaria, bilious fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvellous.

Reports from 2,500 grain dealers and millers in six of the principal winter wheat states give a rather discouraging view of the winter wheat prospects. The crop is undoubtedly short, as much of it is in bad condition. Warm rains are badly needed in some sections.

Pretty Women. All women look attractive when their color and complexion is clear. If your skin is sallow eyes dull, you are bilious, secure a box of Williams' Australian Herb Pills, take as directed, and the feeling of languor will leave you, your eyes brighten, and you are another woman. C. W. Price, Agent.

It is just a little amusing and a trifle suggestive to see a party of philosophers resting their tired frames on a dry goods box, discussing the tariff and the need of protection of their interests. If men had to pay as a direct tax what idleness and shiftlessness cost, the howl and indignant protest that would arise would appal a Comanche Indian. Undoubtedly those who howl the most about their "interests," have the least to fuss about. The farmers need a few good champions, but not of the alligator type—all mouth.

Ballard's Horehound Syrup. A single bottle of Ballard's Horehound Syrup kept about your house for immediate use will prevent serious sickness, a large doctor bill, and perhaps death, by the use of three or four doses. For curing consumption its success has been simply wonderful, and for ordinary coughs, colds, some hoarse cough, whooping cough, sore chest hemorrhages its effects are surprising and wonderful. Every bottle guaranteed. C. W. Price, agent.

In an interview with General Foraker relative to the nomination of Thurman he said: "I don't think his nomination will add any strength to the democratic ticket in the state, and I don't see why it should in any state. He never was any stronger than his party; in fact, not quite as strong. The only time since the war that he has been a candidate before the people was when Hayes defeated him for the governorship in 1867. He then ran behind his ticket. He never had any special strength and at this time he has less than ever before."

Is Consumption Incurable? Read the following: Mr. C. H. Morris, New York, Ark., says: "Was down with Abscess of Lung, and friends and physicians pronounced me an incurable Consumptive. Then I took Dr. King's New Discovery for Consumption, and now on my third bottle, and able to resume my work on my farm. It is the finest medicine ever made."  
John Middlewert, Doctor, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Trouble. Was afflicted by doctor's medicine. I am now in good health." Try it. Sample bottle free at A. F. Streitz's Drug Store.

Mrs. Langtry now owns five thousand acres of land in Lake County, California, and Mr. Gebhard is credited with the possession of three thousand more, adjoining.  
Mr. John D. Rockefeller, the new Vassar trustee, has a daughter in the college and has subscribed \$20,000 toward the \$100,000 fund, and has given \$1,000 in addition to another fund. The general sentiment of the board of trustees has been to offer prize inducements to enter the college to students from various schools throughout the country. Professor Maria Mitchell is tendered a home in the college the rest of her life and the free use of the observatory.

AWARNING. The modes of death's approach are various and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of bacteria germs into the system and when these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs, producing consumption and to the end, causing certain. Now this dangerous ailment if allowed to proceed will in time cause death. At the onset you must act with promptness, allowing a cold to go without attention is dangerous and may lose your life. As soon as you feel that something is wrong with your Throat, Lungs or Nostrils, obtain a bottle of Rosebush's German Syrup. It will give you immediate relief.

The latest joke at the national capital is that Cleveland is hard at work under the tutelage of Col. Dan studying Latin in order to be able to hold conversation with the "Old Roman," when they two chance to meet. It may be possible that Cleveland refused Thurman a place on his cabinet four years ago because of his mistaken belief in the "Old Roman's" nationality. But Mr. Thurman was naturalized before Grover was more than a toddling infant.—Journal.

One hundred thousand Irish-Americans will be appealed to by the Irish-Americans anti-Cleveland and protective league, which was organized at Clarendon hall on Thursday evening. The league already represents 75,000 votes which were polled by Irish-Americans against Cleveland in 1884, partly accounting for the reduction of his plurality from 192,854, when he ran for governor in 1882, to 1,047, when he was the presidential candidate in 1884. This figure of 75,000 ought to be doubled this year. President Cleveland has openly abandoned the former pretentious attitude in favor of "incidental" protection, and has attacked the protective system by advocating legislation which the English manufactures and newspapers urge upon this country for their own benefit. His party has endorsed him by renomination and also endorsed the free trade measure which he has ordered his partisans to support. Every Irish-American who wants to be an American in fact as well as name should help to organize against these anglo-maniac foes of American sentiment and prosperity.

Fairview Happenings. Paxton Pilot Correspondence. Seeing no items from this community, I thought I would write a few: and if you find them worthy of your notice and they escape the waste basket I will probably write again.

Farmers are pretty well along with their work. A good rain would be thankfully received. Erwin and Wright are the first to begin haying. Everybody is jubilant over the prospect of the bridge near O'Fallon.

Miss Ada Allison talks of leaving soon, for her home in Iowa; she will be missed by her many friends. In a recent storm Mr. Applegate's house was partially unroofed; fortunately the inmates sustained no injuries. Willie Jones made a trip out west a short time ago; we understand he has taken some land; suppose he will soon be classed among the many homesteaders of Nebraska.

Supt. R. H. Langford was visiting schools in this community the first of the week. At Excelsior Miss Cora Shoup is teaching the young ideas how to shoot; Miss Hattie Hoetterer wields the rod at Fairview.

Mr. Williams has greatly improved the appearance of his place by moving his house to a better location; he intends to further improve by building an addition to the house.

Last Saturday the 10 year old son of Mr and Mrs. Eugene Springer met with quite a serious accident: as he was riding along in the wagon he fell out between the wheels and the hind wheel passed over his body. It was thought at first his injuries would prove fatal, but at present writing he is better and hopes are entertained of his recovery. Respectfully yours, OBSERVER.

Miss Jennie Chamberlain and parents, of Cleveland, sailed for Europe Saturday. Miss Chamberlain has been our distinctively beautiful American girl in the vicinage of the English court. The family spend much of the summer near Sandringham. Miss Chamberlain is twenty-three, and a blonde, has blue eyes, radiant complexion, hair light brown, features Grecian, figure slender and graceful, has perfect breeding and can talk intelligently.

\$25.00 Reward. The above reward will be paid for any case of rheumatism not benefited by Ballard's Snow Liniment. There is no pain it will not subside, no wound it will not heal. It is the most penetrating liniment known for all pain, for man or beast; it stands without parallel. Ladies who have backache should never be without it. Price 50 cents. C. W. Price Agent.

Judge Gresham has sufficient size for the dignity of the position, and is clear of the obesity, paunchiness and bullish neck of the present incumbent. He is rather above the medium height, well formed, erect and with that amount of fleshy covering which is sufficient for symmetry, and to show a sound physical constitution, without any excess of flesh or paunch to dull the activity of body and mind. His head is intellectual in size and shape and bears a strong growth of dark hair, now grizzled. He will not advertise to the world that the American people are not bald. His beard, which is worn as it naturally grows, is not so big as to be the overwhelming feature, nor to obscure his face, and it also is grizzled. His complexion is dark, his eyes good, his voice good, his manner of speaking easy and with the directness of one accustomed to the accurate use of words. His manner is modest, but withal self contained. He has the good gift of a kindly and winning address, without having taken on any of the courtier manners of a candidate. While not a striking person in a crowd, he is an intellectual and gentlemanly looking man, a manly man, a man of easy, modest, dignified and pleasing address.
