It did not take five years to discover that the Jewel Gasoline Stove was the only safe gasoline stove made, but in 1887, the first year it was introduced in North Platte, FORTY-SIX were sold, more than was sold of all others combined. We have them with either drop tank or the pneumatic, and in the language of the poet, "no pump to get out of order or gas forced through the room," but can prove that less gas escapes from it than any stove made and can show it has many points of superiority over all others and prove to you that the Jewel is The Best Stove Made. They are all guaranteed to give perfect satisfaction and will consume less gasoline than any stove in the market. Call and examine the late improved Jewel and be convinced and you will buy no other. RESPECTFULLY, L. STRICKLER.

DUTCH FLATS. WELLSFLEET, July 7.

The weather is very fine. The fact is, when Nebraska tries she can turn out as good an article of weather as any other country, but sometimes I am disposed to believe she can go to the other extreme. Gardens and small grain are showing the want of rain, but corn is still doing nicely, especially such as has been well cultivated, and a large yield is looked for. [The account of the McLaughlin suicide is omitted, the same having been published last week.—Ed.] A jury trial was had before Squire Bolish last Monday between K. Davis and Henry Horn. Constable Labille went up to Wallace on the evening train to auctioneer a lot of boots and shoes at a foreclosure sale. The meeting tried to hold a ratification meeting the other evening, but it was a solemn affair for a fact. Here as well as elsewhere, they feel as though it was their funeral. A small club was organized, and a couple of the faithful tried to make speeches on the tariff, but failed as neither one knew what tariff meant, but that they didn't care anything about that so they elected Cleveland. That's about the size of the Democratic idea. They don't care much about their ostensible principles—all they want is the offices. Yours truly, STUNNER.

NICHOLS. Mr. Tilford's house was burned on the Fourth. Particulars, not learned. Most of the farmers have laid their corn by until time to irrigate. Ed. Stannard has the finest stand of corn in the vicinity. The dance given by Johnny Tillion on the eve of the Fourth was immense and the sun was up before some of the boys came home. Some of the section men came near being shot while looking for watermelons too early yesterday. Richard Brown started for Cottonwood Ranch this morning to look after his cattle. The grass crop this year will be mostly cut and put up as there is more money in a load of hay than there is in a load of corn. The birthday party on Friday night of last week was largely attended. The finest girls in the neighborhood were there and all had a good time. Some of the stockmen around here are selling their cattle and some more of them are for sale. Shortness of range is the cause. SHORT.

Last Thursday G. M. Biglow, Cash. Williams and a man named Gillette were arrested for obtaining money under false pretences, on complaint of H. B. Burton. They had a preliminary hearing before Judge Hastings and were bound over to appear in his court Friday afternoon. The trial opened at the appointed time, Parsons and Logan acting for the prosecution and Williams & Braught for the defense. The trial was full of interest and the room filled with spectators. The judge found that while there was a great deal of criminal evidence against the prisoners, the testimony did not warrant him in binding them over to appear at district court and they were therefore discharged. The gentlemen arrested and tried were representatives of the Nebraska and Iowa insurance company. On Monday, the 9th inst., Surveyor I. Babcock, in conjunction with the surveyor of Chase county, will begin the survey of the boundary line between Perkins and Chase counties. They will meet at Winchester and survey a random line west to the state line. Then they will survey east, planting the section corners as they go. The corners put there by the government—if such an occurrence actually took place—are obliterated from the west end of the county until you reach the northwest corner of Hayes county. Land owners on the county line will be glad to learn that the survey is to be made. It has been asked for a great many times and it should have been done years ago. The uncertainty of settlers as to their boundaries has caused a great deal of annoyance and trouble. The survey will settle this for all time to come and prevent a few enterprising Chase county farmers from insisting that their land runs nearly up to Grant.—Grant Enterprise.

Important changes in the pre-emption, homestead and timber-culture laws are contemplated by what is known as the Holman Bill, now said to be pending before the house. In fact, it contains provisions which, if enacted into law, will change more or less, all existing laws relating to the disposal of public lands. It repeals the pre-emption and timber-culture laws and permits the disposal of agricultural lands only under the homestead law, in which numerous changes are proposed. It provides for the classification of the public lands into classes to be designated as agricultural, timber, mineral, desert and reserved lands, and prescribes methods of procedure to procure title to each of the classes.

Fashion and society, impose many privations upon the female sex, in the way of dress. First it is one freak, and then another and from the fact that many of them are unhealthy in the extreme, it is small wonder that many women succumb, and that "female weaknesses" are the too frequent result. Dr. Pierce's favorite prescription is the only positive cure for these complaints in existence, and thousands of women can bear witness to its efficacy. "Favorite Prescription" is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is the only medicine for women, sold by druggists, under a positive guarantee, from the manufacturer, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years. Dr. Pierce's Pellets or anti-bilious granules, laxative or cathartic according to size of dose. Purely vegetable. Sells Brothers' big show stopped here Sunday about five hours and fed their animals. The elephants, camels, dromedaries and other herbivorous animals were turned out to grass, affording our citizens a gratuitous view of a portion at least of the great show now crossing the continent, which besides other curiosities, carries with it about 300 of the hardest looking specimens of humanity the world affords.—Opalitis Reflector.

Old Mr. Barber, residing near the mouth of Blue Creek, met with a serious accident Monday, being kicked by a horse, the hoof of which struck his face just above the eyes, causing a fracture of the cranium. Dr. Hollingsworth was called and removed four pieces of bone. He considers Mr. Barber in a very critical condition, as considerable of the brain tissue is being lost. At last accounts the old gentleman was resting as easy as could be expected under the circumstances with slight chances for ultimate recovery. The physician states that there are a few similar cases on record which have not proved fatal. The harm was done while Mr. Barber was returning from the field Monday night, walking behind the team and holding the lines; happening to walk faster than the horses he raised a rein and slapped one of the animals, which immediately kicked, striking him with the above result.—Opalitis News.

The coal trust is ordering the advance of hard coal of twenty-five cents a ton, on the pretext that there is a scarcity in the east, gets some of the popular attention that it merits. There is no reason whatever for this advance and it is not a good time when the price of labor is depreciated by democratic hard times and the threat of the Mills bill to American industry, to advance the price of this necessary. There is not the excuse of "protection" in this case for there is no tariff on hard coal. It isn't a "tariff trust" and hence the project of the combination cannot help the democrats in their pretenses about the tariff being the parent of "trusts."

There have been twenty-two sessions of Congress since the close of the war of the rebellion. By a peculiar coincidence the control of the House of Representatives, with which must originate all legislation effecting the revenues, has been for an equal period—eleven years with each of the two great political parties. While one of these parties has been committed to legislation having in view the protection of American labor and industries, the other has been inviting the support of voters by its promises of "revenue reform," and the reduction of taxation. It may prove instructive to look over the record of each party for the eleven years it has controlled national legislation, and find out just what has been accomplished. The Protectionists, while in position to originate legislation, passed eight acts, by which the revenues were reduced \$363,304,569. On the other hand, the party clamoring for "revenue reform" has during the eleven years of its supremacy, reduced the revenue but \$6,988,935. The figures upon which this summary is made have been before Congress repeatedly, and have never yet been controverted. Upon the record thus made,—performance on the part of the one, promise on the part of the other,—the two parties again appear for the support of American voters. Which is most to be trusted?

We take this method of informing the public that we have sold our blacksmithing and wagon business to John H. Harden, who will conduct the business in the future. We bespeak for our successor the liberal patronage which has been bestowed upon us in the past. We will continue in the implement and wagon business and will be glad to receive your orders. CLEAN UP. Ordinance No. 17 makes it unlawful for any one to throw refuse, manure or filth in the streets or alleys. Clean up, keep it clean and avoid trouble. SYLVESTER FRIEND, Chief of Police.

To The Teachers of Lincoln County. It will save me the performing a very disagreeable duty and you great unpleasantness, if you will not ask to be excused from attending the coming institute. The Teachers both in city and country are expected to attend, and if you fail, and cannot furnish satisfactory evidence that the failure was no fault of yours, you must bear the consequences. R. H. LANGFORD, Co. Supt.

OF INTEREST TO ALL.
