-Judging from the looks of the rail which broke and caused the accident at Kimball this week, it would be to the interest of the company as well as a duty to the public to inspect the track a little closer, especially near stations, and replace defective rails with good ones. The lipping of wheels when starting and stopping trains causes a greater wear near stations than at other points and the rail becomes not only worn on the surface but the great strain gradually destroys its elasticity and strength. One of the boys who returned from Salt Lake this week, saw a number of former North Platte people in that city. Among the number were Oliver Shannon and sons Harry and Tom. Mr. A Disgraceful Case.

One of those cases that are a disgrace to any community was tried on preliminary hearing before Justice Stolle this week. The complaining witness was James Tatum, charging that his daughter, Rebecca, a child about 15 years old, had been raped by one David Potter. All the parties live in Birdwood precinct, about this matter as is consistent with sound.

North Platte has grown so large that the erection of a dozen residence buildings makes very little impression on the apparent size of the town. James Sutherland on Thursday sold his fine residence in the Second ward to A. F. Streits for \$5,000, taking as part payment two fine vacant lots on west Fifth street at \$1,000, the balance cash.
