Pretty Women.
All women look attractive when their color and complexion is clear. If your skin is sallow eyes dull, you are bilious, secure a box of Williams' Australian Herb Pills, take as directed, and the feeling of languor will leave you, your eyes brighten, and you are another woman. (C. W. Price, Agent.)

The Empress of Japan is rapidly becoming one of the best informed women of her time. She is a hard student of German, Russian, French, and Italian, and it is said that her majesty has certain days of the week upon which Japanese is a forbidden language.

A merchant, after selling and using an article for years, knows something of its merits. Mr. W. D. Haller, druggist, Blair, Neb., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy, and do not hesitate to say, that I think it the best of all medicines for diarrhoea and bowel complaints generally." Sold by F. H. Longley.

Says the Lincoln *News*: "Everybody who goes abroad to other states, joins the unanimous echo on returning. 'There's no state like Nebraska.' No state has such crops; no state has better people; no state has more healthy prosperity."

With the nomination of Warner Miller by the New York Republican convention, the last hope that the Democracy cherished of carrying that state for Cleveland and Hill died out. The combination is too strong to be beaten. Without New York Cleveland's chances are not worth a picayune. No wonder the Democrats are more disheartened than ever.

\$25.00 Reward.

"Politics," remarked a western traveling man, "is a matter of climate; depends wholly on the mean annual temperature. I've just been up in Dakota where the air is cool and bracing, and there the people are nearly all Republicans. In Iowa the weather is several degrees warmer and the Democrats are a little more numerous. In Missouri it's considerably warmer, and the Democrats are in the majority. In Texas, where it's blasted hot, the people are nine-tenths Democrats. And in hell it's all in the climate."

He knows what he is writing about. Mr. R. McLeod, druggist, Hemingford, Neb., says: "I keep in stock a great variety of so-called cures for diarrhea and cholera morbus, but from a personal trial of Chamberlain's Colic, Cholera and Diarrhoea Remedy, I regard it as the best of any medicine in the market, for diarrhoea and all bowel complaints. It saved the life of our banker here." Sold by F. H. Longley.

Their Business Booming.
Probably no one thing has done so much a general revival of trade at A. F. Streit's Drug Store as their giving away to their custom-ers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup and all throat and lung diseases quit kity croup. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

George W. Cox, a murderer, was hanged at San Andreas, Cal., on Friday of last week. He swore profusely on the way to the gallows, and when the rope was on his neck reeled off a great amount of breezy profanity, to the astonishment of all. He refused to listen to the comforting words of the pastor, and when asked if he did not want to go to heaven, he replied that he would sooner go to the devil, to which sulphurous statesman he probably went without tarrying by the wayside.

It is rumored in London that the Queen has at length completed arrangements which will result soon in the marriage of Prince Alexander of Battenburg, and the Princess Victoria. The German emperor and Bismark are said to have waived all objections and so what some months ago seemed likely to involve Europe in war, will now be consummated so quietly that, but for the previous notoriety, it would scarcely attract public attention.

The Saturday Evening *Gazette* of Boston suggests that "the old Roman will have to be silenced by his friends if he continues to make speeches in the vein in which he has begun," and anxiously inquires: "Is he a political Rip Van Winkle who has just waked up from a long slumber, and in perfect oblivion of what has been going on during the past quarter of a century? "If, says the *Gazette*, "he was a veritable old Roman come to life again, he could not be more antiquated in his views of political economy than he appears to be."

AN EXPLANATION.
What is this "nervous trouble" with which so many now seem to be afflicted? If you will remember a few years ago the word malaria was comparatively unknown—today it is common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and malaria are intended to cover what our grandfathers called biliousness, and all are caused by troubles that arise from a diseased condition of the liver which retards its functions, sending the blood through the system, causing nervous troubles, macular spots, etc. You who are suffering can well appreciate a cure. We recommend Green's Anagall Flower. Its cures are marvellous.

The pension business has placed the democrats of the house between the devil and the deep sea. The republicans by shrewd engineering, have forced Congressman Matson, of Indiana, to report the bill removing the limit from the arrears of pension act, and the bill must now be considered. If the bill passes, it will make such a drain on the treasury that there is likely to be a deficit instead of a surplus to handle, and that means good-bye to the Mills bill and all their pretensions to tariff reform. If the democrats vote against the bill after going on record as being against the consideration of any other pension legislation, they will lose the soldier vote in Indiana and other doubtful states, and is good-bye, democratic party, in either case. — *Norfolk Journal.*

Kansas tried to steal a march on young Nebraska and carry off the chairmanship of the deep water convention. But the convention would not have it. It recognized the metal of the Nebraska delegation and the disposition of Nebraskans to "get there," and concluded that the best way for deep water to succeed was to put Nebraska to the fore front of the battle. So they set aside the report of the committee on organization and elected Gov. Thayer permanent chairman. It was rather an extraordinary kick for a non-partisan, non-political convention to make, but the convention was evidently indignant at the action of the committee in undertaking to upset the agreement that had been made to put the governor in the chair. Kansas will know better next time.

Brace Up.
You are feeling depressed, your appetite is poor, you are bothered with headache, you are sluggish, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines or bitters, which have for their basis very cheap, bad whiskey, and which stimulate you for an hour, and then leave you in worse condition than before. What you want is an alternative that will purify your blood, start healthy action of liver and kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters and only 50 cents a bottle at A. F. Streit's Drug Store.

A WARNING.
The modes of death's approach are various and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of tubercle germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs, producing consumption and to the head, causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness, allowing a cold to go without attention is dangerous and may lose your life. As soon as you feel that something is wrong with your Throat, Lungs or Nostrils, obtain a bottle of Breche's German Syrup. It will give you immediate relief.

There are Two Distinguishing Characteristics

Which, more than anything else, have contributed to the phenomenal growth of **The Chicago Daily News**, giving it a circulation larger than that of all other Chicago dailies combined. It seems strange that the first practical, combined application of two such common sense principles in journalism should have been left to a paper as yet only twelve years old. And yet true it is that in this fact lies the real secret of the unparalleled success of **The Chicago Daily News**. Briefly stated these principles are:

First. THE DAILY NEWS
Is a daily paper for busy people.

Of all mankind the people of Chicago and the busy north-west are the busiest. And yet perhaps no equal number of people are to be found who appreciate so keenly the necessity of an intelligent knowledge of the world's daily doings. They recognize that, more than anyone else, are the world's providers in many of the most important necessities of life. How important, then, that they should have their daily intelligence of every event, the world-over, which by any possibility can affect their diversified commercial holdings. And in all the higher interests of life where can be found a like number of people more keenly appreciative of all that contributes to progress in art, literature, science, religion, politics, and the thousand and one things which make up modern civilization.

And yet, strange to say, right here in this great, busy north-west, in its busy metropolis Chicago, there has taken place the creation and development of that most cumbersome, unserviceable, time-consuming thing, the "blanket-sheet" newspaper. With the blindness of very fatuity this monotony of journalism, this beeder of mental dyspepsia, has steadily imposed its mountain of unthreshed straw to the demand of the people for the winnowed grain of fact. It was out of the very incongruousness of such a condition of things that **THE DAILY NEWS** had its birth. People wanted the News—all the news—but they demanded it apart from the overpowering mass of the trivial and inconsequential. It is because **THE DAILY NEWS** satisfactorily meets that demand that its circulation is over "a-million-a-week."

R. M. LAWRENCE, Williamsville, Ill., says: "The 'big daily' is too much for me. Not that a person is obliged to read everything printed in the 'blanket-sheets,' but one having anything else to do doesn't have time to hunt through the long-drawn twaddle for a few grains of digestible food."

When to two such comprehensive elements of popularity **THE DAILY NEWS** now adds a third in its unparalleled price reduction to **One Cent a day**, it offers a combination of attractions at once unique and unapproachable by any other American newspaper, and one which will surely multiply its friends throughout the Northwest by the thousands.

The Chicago Daily News is for sale by all newsdealers at **One Cent per copy**, or will be mailed, postage paid, for \$3.00 per year, or 25 cents per dealer. The farmer and mechanic can now afford as well as the merchant and professional man to have his metropolitan daily.
Address VICTOR F. LAWSON, Publisher **The Daily News, Chicago.**

Second. THE DAILY NEWS
Is an Independent, truth-telling newspaper.

The reader can count on one hand the known newspapers whose statements in matters of politics can always be accepted as at least intentionally truthful, and commonly so in fact. On the other hand, it is the all-but-universal rule to praise one's party and candidate to the skies, and to cry down the opposition party and its candidate to the verge of the disreputable. So common have such silly and reprehensible methods in journalism become that they pass unnoticed, and are accepted as a matter of course—as an evil inseparable from practical politics. But this is only another mistake of the thoughtless. The American people are intelligent enough, thoughtful enough, fair enough to appreciate and endorse honest, truth-telling journalism—in truth to prefer it to the misleading, the truth-discoloring dishonesty of the "organ."

The demand is more and more for the fair, impartial, independent newspaper which gives the reader all the news, and gives it absolutely free from the taint of partisan bias. This done, an expression of opinion, based upon facts, will commend itself to the thoughtful reader even when he may not find himself in agreement with the conclusions deduced from the premises. Disagreements are of small moment if only confidence in honesty of purpose remains. With no mere political ambition to gratify, no "ax to grind," the impartial and independent newspaper may truly be "guide, philosopher and friend" to honest men holding every shade of political faith. And this is why **THE DAILY NEWS** has to-day a circulation of over "a-million-a-week."

M. WYCAT, Sibley, Iowa, writes: "I am well pleased with **THE DAILY NEWS**, although I am a 'bred-in-the-bone' Republican with a *carpet bag* experience in the South ending in 1872. The extreme fairness of **THE DAILY NEWS**, giving credit where due regardless of party, meets my approval."
