Something New for Ladies

The Most Elegant Shoe Ever Made. TRY THEM.

CROFOOT, LIBBY & CO., Manufacturers of MEN'S AND WOMEN'S FINE SHOES.

We are prepared to supply a long-felt want, and for this shoe we claim it is the most SATISFACTORY, STYLISH AND ONLY PERFECT FITTING SHOE MADE. It fits on the foot like a glove on the hand. It is not cumbersome like the button shoe that has four or five thicknesses of leather over the instep, but this shoe has but one thickness and presents a seamless, glove-fitting front, comfortable to the foot and pleasing to the eye.

This shoe differs materially from the "old side lace." That had from 18 to 24 eyelets, double cord, and pulled on sideways, while this shoe has but eight eyelets, pulls on straight and is held in place by a low gore, inserted on each side of the shoe, which is covered and protected by the top, and is adjusted to the ankle by lacing on the inside, giving to the foot a very slim and small appearing form. This shoe cannot break in the back, and neither are you inconvenienced by constantly re-sewing buttons or repairing button holes. This shoe is being placed in all good towns, and its success and popularity are assured. We feel confident if you will try a pair of these shoes you will not be satisfied with any others. Would be pleased to have you call and make a personal inspection of this shoe and think it will interest you.

Yours Respectfully,

C. C. NOBLE, - - NORTH PLATTE.

The doctors at Bellevue Hospital, New York, say that more criminals were received from the three State prisons to be treated for insanity during the one year of enforced idleness among convicts than in any three years before. The county commissioners of Cheyenne county have decided to submit the proposition of voting \$26,000 bonds on the county to pay off the indebtedness and aid in running the county. The Kearney Hub tells of the finding of a petrified human hand by J. R. Mote, a farmer residing in Phelps county. The stone was dropped by accident upon the floor and breaking in two, there rolled from within the broken clutch of the fingers a small handful of what appeared to be precious stones--diamonds. Each of these stones were larger than a very large kernel of corn, and beautifully clear and brilliant. Among them was one solitary stone which had the appearance of a smoky topaz. The supposed hand was probably a common geode.

An inventive mechanic has laid claim to the prize of \$100,000 offered by the Buffalo business men's association for a device for harnessing the power of Niagara river. His machine is an endless steel chain 200 feet long and twenty feet wide, each link of which is a tiny turbine wheel. When this chain of wheels is set across the current an astonishing amount of power is developed. The region around Niagara will become the greatest manufacturing district of the country if the enormous power of the river can be put to turning factory wheels.

Since the United States census of 1880 the population of Nebraska has increased from 452,402 to about 1,000,000; and the number of its farms from 63,387 to 141,107; the number of its live stock from 2,424,500 to 4,647,530, and their value from \$33,440,265 to \$81,009,941. Its crops of three principal cereals which aggregated, in 1880, 65,853,018 bushels, have since reached 185,902,000 bushels, and the true value of its real and personal property has risen from \$352,343,128 to at least \$700,000,000.

A Kansas statistician has been sharpening his pencil since abundant crops are assured for his state. He now tells us that if the proceeds of the product of the present year were devoted to debt paying entirely, every dollar of indebtedness in the state would be swept away. This is a pretty strong statement. Kansas has suffered from bad crops for three years and a great many of her people are in financial straits. Still, after giving a liberal allowance for the part played by imagination in these estimates, it is evident that the crop will do Kansas a world of good. Old debts will be paid and new confidence will be felt in the future of agriculture in that region. They say that events go in waves in Kansas, and that the three years of crop failure will be followed by three years of plenty. In that case Kansas will be almost ready to move ahead with the booming state of Nebraska. For several years our southern neighbor has been dragging behind sadly.—State Journal.

Consumption is on the increase. From recent statistics it appears that Consumption is on the increase throughout the western states. The principal cause, it is stated, is due to neglect of common coughs and colds. It is the duty of all persons, whether of delicate or robust health to have a remedy at hand at all times in readiness, and a cough or cold may be broken up before it becomes seated. HALL'S HONEY-SWEET SYRUP will cure any cough except in late stages of consumption. A single tin saves time. Always keep it in your house. A. F. STRAITS, Agent.

SOME grocers are so short sighted as to decline to keep the "IVORY SOAP," claiming it does not pay as much profit as inferior qualities do, so if your regular grocer refuses to get it for you, there are undoubtedly others who recognize the fact that the increased volume of business done by reason of keeping the best articles more than compensates for the smaller profit, and will take pleasure in getting it for you.

A WORD OF WARNING. There are many white soaps, each represented to be "just as good as the 'Ivory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and Insist upon getting it. Copyright 1888, by Procter & Gamble.
