Arsenic and Potash Three Times a Day for Twenty-Five Years. I have been taking S. S. S. (Swift's Specific), and feel it to be my duty to state its results, that others who are similarly affected may profit by my experience, and be relieved of their sufferings. I had suffered for a long time with what the doctors called Herpes, an eruption of the skin, forming scales and blotches which was horrible to endure. Under the advice of physicians I took 30 drops of Fowler's Solution of Arsenic every day for 25 years besides many other kinds of medicines, without a cure. I have been taking S. S. S. for about two months, and the eruption and unpleasant symptoms have all disappeared, and I am continuing it to completely root it out of my blood, which I am confident it will do; and what it has done for me I am sure it will do for others, for there are thousands of such cases all over the country which resist all other treatment. I have lived here in my present business for 22 years.
