"Seeing is Believing." And a good lamb must be simple; when it is not simple it is not good. Simple, Beautiful, Good-these words mean much, but to see "The Rochester" will impress the truth more forcibly. All metal, tough and seamless, and made in three pieces only, it is absolutely safe and unbreakable. Like Aladdin's of old, it is indeed a "wonderful lamp," for its marvelous light is purer and brighter than gas light, softer than electric light and more cheerful than either. Look for this stamp—The Rochester. If the lamp dealer has n't the genuine Rochester, and the style you want, send to us for our new illustrated catalogue, and we will send you a lamp safely by express—your choice of over 2,000 varieties from the Largest Lamp Store in the World. AN ALL AROUND DECEIVER.

The Calcium Light of the Past Turned on a Delinquent Bridegroom. CORTLAND, N. Y., Sept. 21.-Edward Hamon of Homer, the son of a prominent church member, was to have married Minnie Johnson of Truxton Friday evening. The lady in question is very attractive, blonde and but 19 years old. Everything was in readiness for the wedding Friday evening, supper, minister. guests, etc., but Hamon failed to appear. He was waited for until 10 o'clock, when the company dispersed. The expectant bride was crazed with grief and shame. It has since been learned that Hamon ran away to avoid marrying Miss Johnson, and his previous career has been laid bare. He was on one occasion arrested for breach of promise on complaint of a young lady of Albany, but the matter was settled out of court. A lady in Marathon is after him on a similar charge, while the father of a Brewery Hill girl wants him for abducting his daughter and keeping her in Binghamton for three months. He is an all around deceiver. Hamon it about 30 years old and is of a very sanctimonious appearance. His whereabouts are unknown. evening. The lady in question is very

Bell's attorneys say they have a witness who will swear that the murder was committed by a gambler named Max Schwartz, who had been visiting Jacobson's sister. Jacobson forbade him the house, and finding him on the night of the murder tried to eject him and was shot by Schwartz.

Fear of the Penitentiary. CHICAGO, Sept. 21.—The Herald says Fear of the penitentiary is what in-Fear of the penitentiary is what induced Miss Gertrude Potter to discard young Rust and take Mr. Daniels of New York "for better or for worse" in the presence of Dr. Stryker. It may be said the ceremony was performed merely "for the look of thing"—for the purpose of stopping wagging tongues and reassuring as to there being no scandal—but a significant message from New York to the Potters stating that Gertrude could be punished for bigamy is said to have played a most important part in bringing about the wedding.

GUTHRIE, Sept. 21.-Yesterday had little semblance of Sunday. All day the streets were crowded with prairieschooners, carriages, horsemen and foot passengers, all jammed into a shouting, struggling, hurrying mass. At the ne-gro settlement of Langston there are 2,000 negroes, all armed and on the road.
All of these negroes are determined to have a claim or fight. On every side of the reservation the line is one continuous camp and the number of people in waiting is fully thirteen thousand.

Alleged Pension Extravagance. WASHINGTON, Sept. 21.—Feeling is growing stronger in the Grand Army of the Republic against the excessive pension legislation and the numerous frauds perpetrated under it. There is an un written chapter of history in connection with the last Grand Army reunion at Detroit. That meeting was not characterized by the demands for more liberal pensions which were made at previous meetings. The explanation is interesting. Notice was quietly served that if the attempt was made to committ the Grand Army to any more extravagant pension measures the issue would be raised and a split would occur. Some of the best men in the Grand Army were prepared to leave the organization who are not entitled to be there.

Frankfort's System of Banks. Of all the schemes designed for small savings and to encourage the poor to lay by small sums the penny savings stamp system, established in 1882 at Frankforton-the-Main, is the most unique. Frankfort is distinguished among European cities by the large average wealth of its citizens, and by its exceptional promi-nence in all that pertains to banking and finance. Many great banking fami-lies had their origin in Frankfort, from which branches have been established at Paris, London, Vienna and New York There are today not less than 200 banking houses, public and private, in the city. It might naturally be expected, then, in view of these facts, that some original features in the line of savings original features in the line of savings have about the found there. The Tea Houses of Japan.

Mousinees, rickshaws and tea houses are the three institutions one associates with Japan. Kipling has made the rickshaws hardly more of a phantom than the three-horse car, while Sir Edwin Arnold and Pierre Loti have pictured the gentle mousmee with such exquisite finish that people ignorant of the mean-ing of the word a few months back are in love with her quaint beauty and rav-

Tea houses are simply inns or restaurants where the principal refreshment (often the only one) is tea. In the cities they are the favorite evening resorts, for there you can hire the gaudy Geisha girls to dance and sing or play the samosin and koto between the intervals of love making.
