COMMISSIONER DUCLOS' REPORT.

He Finds the American System of Pork Inspection Perfect.

PARIS, June 28.—Commissioner Duclos has returned to this city from the United States, where he had been sent by the minister of agriculture for the purpose of studying the pork trade. Mr. Duclos has presented to the minister a flattering report as to the completeness of the precautionary measures taken by the American department of agriculture to insure that no unwholesome meat be exported from the United States. Mr. Duclos states in his report that he considers that there is little ground for fear on the score of trichinella. He dilates on the sanitary system of the inspection of the slaughter houses and expresses the opinion that more care or precision is hardly possible.

Warnings for Writers.

The Society of Authors in England has issued the following warnings, which are timely.

Never sign any agreement of which the alleged cost of production forms an integral part until you have proved the figures.

Never enter into any correspondence with publishers (especially with those who advertise for manuscripts) who are not recommended by experienced friends.

Never, on any account whatever, bind yourself down for future work to any one.

Never accept any proposal of royalty until you have ascertained exactly what the agreement gives to the author and what to the publisher.

Never accept without advice any pecuniary risk or responsibility whatever.

Never, when a manuscript has been refused by respectable houses, pay others, whatever promises they may put forward, for the production of the work.

Never, without advice, sign a receipt which gives away copyright.

Never forget that publishing is a business, and that the publisher is not connected with philanthropy or charity or pure love of literature. You have to do with business men.

Ballard's Snow Liniment.

This Liniment is different composition from any other Liniment on the market. It is a scientific discovery, which results in its being the most penetrating Liniment ever known. There are numerous white imitations, which may be recommended because they pay the seller a greater profit. Beware of these and demand Ballard's Snow Liniment. It positively cures Rheumatism, Neuralgia, Sprains, Bruises, Wounds, Burns, and Inflammatory Rheumatism, Burns, Scalds, Sore Feet, Contracted Muscles, Stiff Joints, Old Sores, Pain in Back, Sore Throat, and all other ailments, and is especially beneficial in Paralysis. Sold by A. F. Stritz.

"Tesla's Glow" in England.

Tesla's experiments with high frequency currents before the Royal Institution have laid such hold on the imagination of the English, who, as Tesla says in a recent letter to a friend in New York, "are the most enthusiastic people in the world in scientific matters," that crowds flock daily to the Crystal Palace to see the high pressure demonstrations given at the electrical exhibition. Tesla's people find it hard to believe, without actually seeing it, that a tube carried in the hand, without any wire connection whatever, will fill a room with beautiful light and high pressure discharges with their dazzling and exquisite effects of color and light, and the illumination of the vacuum tubes promises to be indispensable at any afternoon party.—Exchange.

Evangelists in Jail.

The Pisch brothers, who are known throughout Michigan as the crazy evangelists of the Pisch county, have been landed in Bangor jail. On May 29 they broke up a religious meeting at Sangerville because the exposition of the Gospel on that occasion was not according to their ideas, and a day or two later at a funeral, when the officiating clergyman remarked that the deceased was a good woman and was then in heaven, they also broke up the funeral. A. F. Stritz.

Mr. Epstein Held Four Aces.

Bury Seiger, betting from St. Louis, yesterday afternoon, had a grand total of \$190 on a poker hand, and James Cary, Charles Kline and Isaac Epstein were arrested on the charge of operating a confidence game. The four men were on an income tax case in court, and were indulging in a quiet game of euchre for points. During the progress of the game Epstein remarked that he held a good poker hand. At this Seiger said he also had a good poker hand, and proposed that the game be turned from euchre to poker, which was accordingly done and the cigars bet. From cigars for the crowd the stakes grew to a box, and from a box of cigars to five dollars. On the next deal the next best set of \$100—all Seiger had—was made and the turn called. Seiger held four kings and Mr. Epstein four aces.—Kansas City Journal.

A Pretty Big Fourteen-year-old.

The youngest soldier in the British army, Private Defries, aged fourteen years and six months, is a fine child for his age. He is close upon 5 feet 5 inches in height, with a chest measurement of 33 inches, and weighs 130 pounds. It is not wonder, therefore, that the military authorities should have enlisted him without a demur when he told them that he was over eighteen. His father now seeks to have him discharged on account of his tender years; but the war office, not remarkably, holds that the ones lies upon him to prove that his son is the lunatic nature he would make him out. In other words, the condition of his discharge is the production of a certificate of age—and very right.—London Globe.

Good Dentistry by a Cow.

An Oak Hill (Ipswich) man had an aching tooth out in a novel manner the other day. He was removing a piece from a cow, when the animal threw up her head, striking the boy pin which he held in his hand, knocking it out. It happened to be the one that had been aching.—Winthrop (Conn.) Banner.

Once Weekly.

A third of a century ago Bob Gridley of this place was probably the best gambler and tried to keep at a distance from the United States. He conducted a place for years before John Morrissey came to the front. Bob was characterized as an "honest gambler," a scarce article in the world of chance today, and it was a common saying that "Bob Gridley's word is good for \$50,000." As the years thinned his locks and bent his form his luck changed and false friends assisted in depleting his exchequer. Step by step he was losing the financial ladder, and his continued misfortune soured him to the pessimistic extent that he believed everybody was against him. Reverses drove him out of gambling and the speculating fraternity soon looked upon him as a "has been."

Pat People on a Hot Day.

On one of the recent hot, soggy afternoons, when every man hated his neighbor and tried to keep at a distance from him, a perspiring, heavily clothed fat man waddled into an elevated train at the city hall station and pre-empted one of the cross seats. He breathed like a porpoise and mopped his face with a large handkerchief.

The Hypnotic Social.

The latest link in the society way is the "hypnotic social," which has been going about for the past three weeks. A company of friends is invited and an amateur hypnotist is brought in, who proceeds to divert the select audience by experiments with various persons of the company. There are three or four of these amateurs who are picking up a few dollars through these little exhibitions. One of them is said to be developing in such a marvelous way that his friends are endeavoring to persuade him that he could make a fortune as a well-versed professional.—Indianapolis Journal.

"High Card Bob" Joins the Church.

Bob Braxington, formerly of Kirksville, Mo., and known to his associates as "High Card Bob," who recently won \$2,000 in Arizona, announces that he has given it back and will reform. He declares that he has been honest in the money he earned will go farther than \$100 won over the card table, and that the gambler's life has lost all its charms for him. Finally he has promised to join the church.—St. Louis Republic.

Cloude of Locusts.

The locusts are reappearing in Algeria in greater numbers than ever, in spite of the efforts that were made by the French administration last year to annihilate the pests. It is now believed that they come clear across the desert from the Sahara. The period of incubation varies from twenty to thirty days, and the locusts require only about two months to attain their complete development. This fact gives a realizing sense to the prodigious numbers in which the terrible insect may multiply during its progress across the Sahara. Great clouds of the locusts have already been seen on the northern edge of the Sahara making their way north. The news comes from Touggourt and Ghardai in the Sahara that early this year the locusts suddenly invaded those places in such enormous numbers that for four hours they fairly darkened the heavens. About a month before the locusts, clouds of locusts were reported in the valley of the Niger river in the Sudan, and it is believed that in the four succeeding weeks they had journeyed to the northern part of the Sahara.—New York Sun.

Italy's New Prime Minister.

Signor Giovanni Giolitti, the new Italian premier, is said to be the youngest head of a ministry that Italy has had since Cavour. He is barely fifty years of age, and has only been in parliament ten years. In the caricatures of him in the Don Chisciotte he is used to be represented, owing to his being one of the tallest of the deputies, by what might be called a hop pole clad in a long overcoat and very high silk hat. When he was twenty-two he took his degree of doctor of law, and in 1876, when Signor Depretis was in power, he had become director of customs. Signor Crispi was his minister of the treasury in March, 1889, and in November, 1890, minister of finance. A month later Signor Giolitti resigned, owing to a difference with the minister of public works, whose expenditure he wished to cut down. He then helped to bring about the fall of the Crispi cabinet. Signor Giolitti is the leader of the Piedmontese group of the left center.—London News.

Sheep from Persia.

Thirteen sheep and three lambs are on their way consigned to the agricultural department at Washington—a fact that presents considerable interest for the agricultural department. They were shipped from Persia, and an attempt is to be made to introduce their breeding into this country. These sheep are said to be noted for the beauty and richness of their skins, which are valued for the manufacture of warm climate is necessary for their existence, at least for the present, they will probably be sent to southern California or to some other warm climate, where the value and adaptability of this country can be determined.—Worcester Spy.

Fruits Attract Them.

Hosts of unemployed men and others seeking temporarily to better their condition are flocking to the Delaware peninsula now to pick small fruits for the markets of Philadelphia and New York. The fruit growers erect rude sheds in the open fields, and here the berry pickers eat and sleep while the season lasts. The earnings of berry pickers are considerably above the average pay of farm hands, and the men who pick them are "peach plucks," a race of tramps from all parts of the northern Atlantic slope, feared by the native farmers and hated as competitors by the negro farm laborer.

Said It and Then He Died.

Bert G. Hunter, a prominent mining man of Newark, Mo., died recently from a sixty grain dose of morphine, taken with suicidal intent. Physicians worked over him for seventeen hours without success. Toward the last, while being jolted on a board, slumped in the face and shaken to keep him awake, he looked up ruefully and muttered, "Oh, what a difference in the morning."—Cor. San Francisco Examiner.

Iron Deposits in Finland.

An important discovery of very extensive iron ore deposits, which are even supposed to rival the enormous iron ore mountain at Gellivara, in north Sweden, has quite recently been made in Finland by M. Stjernvall, the geologist.

A Blacksmith Saves the Life of a Little Girl.

Minnie Carney of Lytle City, Iowa, was perhaps as near leaving this world as any one can be, and recover. She was sick with cholera morbus; completely exhausted and unconscious. The physicians in consultation decided the case was hopeless and beyond their power to reach. Chas. J. Newcomb, a blacksmith, walked four miles through the darkness and storm, to get a remedy he had himself used, and which he firmly believed would cure her. That medicine was Chamberlain's Colic, Cholera and Diarrhea Remedy. He obtained part of a bottle, with which he hastily returned, and gave the little sufferer a half teaspoonful, which relieved her. Toward the last, gradually returned. The medicine was given in broken doses and in a short time she was well. He is positive that it saved her life, and has others in that vicinity. For sale by A. F. Stritz, Druggist.

Floods Help Fishermen.

The recent high water at Marion, O., and vicinity has afforded the fish in the bigger streams a good opportunity to ascend the smaller, and they are found in abundance, and with little effort can be caught with hook or hand. Catfish of all sizes are found almost as numerous as the English sparrows and are caught with ease; also carp weighing five and six pounds are found in the Whetstone river in that county. Along the smaller streams and in detached basins of various kinds are reported to be smaller trout.
