Venezuela's Capital Has Fallen Into His Hands.

THE SITUATION IN CARACAS.

No Improvement in the Condition of Affairs—Bitter Struggle for the Presidency—Gladstone Has Recovered. Bismarck Will Speak His Mind.

CURACAO, W. I., Aug. 2.—News has been received here from an apparently trustworthy source in Venezuela that Crespo is now in charge of that country. The revolutionary leader kept up a steady advance toward the capital. The government troops concluded they were unable to stand an attack and so evacuated the city, leaving the victorious leader of the Legation in full possession. The situation in Caracas is reported as strained to the utmost limit by the condition of the struggle for the presidency, and the most extreme bitterness prevails. Dr. Paul seems to be in the lead, but the government reactionists, under the inspiration of Gomez Blanco, are gaining strength daily. General Sania threatens to proclaim a new revolution in case of the election of Paul, and Crespo will unquestionably recommence hostilities at once in case of the election of Sania, which he regards as the establishment of the republican system. It is stated that a conference will be held in Caracas shortly between the president and the revolutionary factions to see if the basis of an arrangement for the permanent suspension of hostilities and a satisfactory reorganization of the government can be agreed on. There is no improvement in the condition of affairs throughout the country. Business is paralyzed and famine reigns.

READY TO OPEN PARLIAMENT.

Everything Prepared for the Ceremony—Except Signing the Queen's Speech.

LONDON, Aug. 2.—According to the form of procedure for the opening of parliament, which takes place Thursday next, the clerk for the crown first hands a list of the members elected to the clerk of the house of commons. Then the clerk of the house, standing at the entrance of the commons, verifies the members entering. The house then proceeds to elect a speaker, who, after his election, first makes oath. Then the reading of members begins. It is done by separating the members into detachments of twenty each, and will be completed Saturday. The Queen's speech, if fixed, will be read on Monday, Aug. 3. It has been arranged that the queen to sign the speech at a meeting of the privy council at Osborne house on Tuesday next.

WILL SPEAK HIS MIND.

Criticism Will Not Deter Prince Bismarck from Expressing His Views.

JENA, Aug. 2.—Prince Bismarck enthusiastically greeted on his arrival here. He made a tour of the town in his carriage with the university students, full strength forming a guard of honor and lining the whole way on his drive. Before he addressed the representatives of the university, Prince Bismarck advised his countrymen to produce strong parliamentary majority so as to prevent absolutism of government bureaucracy. Some formal fault, said, with his criticism, but he will continue to speak his mind whatever the consequences might be.

Manitoba Wins Its School Case.

WINNIPEG, Man., Aug. 2.—The Hon. Joseph Martin, who was in London arguing the school case on behalf of the government, sent the following cable to the Manitoba government from London: "Strong judgment in our favor by the privy council at the school case, adopting our arguments and controverting the superior court's judgment in opposition."

ST. JOSEPH, Mo., Aug. 2.—The Pacific hotel burned. The guests lost everything and narrowly escaped with their lives. Loss, \$10,000.

Wood Electrocuting.

DANMORON, N. Y., Aug. 2.—Joseph Wood was executed here by electricity. Death was apparently instantaneous and painless.

Person's Largest Mill Destroyed.

PARSONS, Kan., Aug. 2.—The National flour mill of this city, the largest in southern Kansas, was destroyed by fire. Loss, \$53,000.

Suicide of a Police Superintendent.

WAWERLY, Ia., Aug. 2.—Burglars broke into the lumber yard office of Hosmer & Co., at Sumner, in this county, and broke open the safe. They got about \$1,000 in cash. They also entered the dwelling house of a Baumgartner, where they took about \$50. Several attempts were made to break into Chauncey Carpenter's residence and other places.

PINKERTON PLAINTIFFS.

Men and Women Who Assaulted Them at Homestead Will Be Arrested.

PITTSBURG, Aug. 2.—Frick rose early this morning and ate breakfast with his family. Except for a slight stiffness of the neck he seems entirely recovered from his wounds.

Several non-union men left the Homestead mills, declaring that there were two cases of smallpox among the non-unionists in the mills. Superintendent Potter denies the story. He says there is a physical examination of the men and that there is no disease of any kind among the men. As newspaper men are denied admittance to the works it is desirable to verify either side of the story.

Militiamen Growing Insolent.

HOMESTEAD, Aug. 2.—At a meeting of the Homestead borough council Burgess McLuckie asked that some action be taken to compel deputy sheriffs and militiamen who have been patrolling the streets to behave themselves. He charged that some of the deputy sheriffs and militiamen had been patrolling the streets to commit unlawful acts. Councilman Lynch said his wife had been assaulted by a militiaman. Another member complained that he had been stopped on the streets at night by the deputy sheriffs. The matter was referred to the borough solicitor.

PITTSBURG, Aug. 2.—A number of informations were made by Pinkerton detectives who were so abused at Homestead on July 6, charging women and children with aggravated felonies, assault and battery, highway robbery, larceny and pocket-picking. TOPEKA, Aug. 2.—Attorney General Ives has written another letter, in which he says that the interpretation put on the recent opinion relating to the inspection law is entirely erroneous and that inspectors from the state of Missouri or any place who attempt to inspect grain in Kansas soil without qualification are in violation of the law should be promptly dealt with.

Saw Mill Men Strike.

STEVENS POINT, Wis., Aug. 2.—The men employed in the saw mills of the city are on a strike. When Bossworth and Kelly's started the men refused to go to work and marched to the other mills, calling out every employer who what is wanted is not definitely known, some claiming that they want an advance in wages, while others say they will be willing to work at the former wages provided the time is changed from eleven to ten hours for a day's work.

Collided on a Curve.

ST. LOUIS, Aug. 2.—The limited east-bound passenger on the Big Four collided with a freight train at Edwardsville, Ill. The engineer and fireman were killed and a number of passengers injured, several fatally. The accident was caused, it is thought, by disobedience of orders. The engineer of the east-bound train had orders to wait at the Edwardsville crossing for the incoming train. The latter was behind time and after waiting he considered reasonable space, the engineer pulled out, meeting the other train on a curve.

A Vitified Brick Company Involved.

ALTON, Aug. 2.—The Alton Vitified Paving Brick company, of which J. P. McCallister is the party candidate for state senator, is general manager, has been sued by Thomas Beattie, its former president, for \$28,487.50 for \$100,000 of stock of property, for \$10,000 for defendant's character, to cost McGuire from the directors and for \$10,000 damage for \$187.50 for stock salary.

AFTER THE ASSOCIATION.

Suit to Dissolve the Transmissouri Freight Organization.

ON TRIAL AT CHEYENNE.

Leading Railroad Attorneys of All Western Lines Defending Their Interests.

Chairman Caldwell Objects to Ford as an Atchison Arbitrator.

CHEYENNE, Aug. 2.—The case of the United States against the Transmissouri Freight association, comprising all the railroads west of the Missouri river, came up for argument in the United States district court before Judge Ritter. The government brings this suit under the anti-trust act of congress which prohibits the formation of trusts for controlling business. The attempt is being made to dissolve the association. The suit was begun in Kansas, but is tried here for the greater convenience of all concerned. The government is represented by J. W. A. J. United States district attorney of Topeka, and Judge S. Peck, general solicitor of the Santa Fe; Hon. B. B. Wagner, general attorney of the Missouri Pacific; W. W. Guthrie, attorney of the Burlington; M. L. Love, general attorney of the Rock Island; J. I. Vail, solicitor of the Rio Grande; A. Morrison, general attorney of the Kansas City, St. Joseph and Council Bluffs; and W. H. Loomis, attorney for the Union Pacific.

M. A. J. argument occupied the entire afternoon. Mr. Peck followed him in behalf of the roads this morning.

Objected to Ford.

CHICAGO, Aug. 2.—Chairman Caldwell of the Western Passenger association has caused considerable surprise among railroad men by refusing to accept A. E. Ford, general passenger agent of the Pennsylvania lines, as arbitrator in the Atchison appeal from his rulings. The Atchison took an appeal in two cases. One was from the chairman's ruling that the Atchison was deprived of its rights under the agreement.

In both of these appeals to arbitration the Atchison nominated E. A. Ford for one of the arbitrators and asked the chairman to name his choice for another. The rules provide in such cases that each side shall choose one arbitrator and the two thus chosen shall select the third. Secretary Chairman Caldwell's friends are afraid that he unnecessarily aggravated the situation in objecting to Ford as an arbitrator, and are of the opinion that no board of arbitrators will sustain his objection. The controversy has now reached a stage that is regarded as serious, and only a change of tactics on the part of some of those who have been fanning the flames will save the Western Passenger association from disruption.

REFUSED A RECEIVER.

Lehigh Directors Are Not Conspiring to Ruin the Road.

EASTON, Pa., Aug. 2.—In the county court in relation to the Philadelphia and Reading and Lehigh Valley railroads, a motion for a receiver of the Lehigh Valley Railroad company, on the grounds that the directors are conspiring to ruin that company in the interests of the Philadelphia and Reading, was denied. The court holds that there is not the slightest evidence to sustain the charges, and that the directors are all of a high character.

By Hoisting a Tunnel.

NEW YORK, Aug. 2.—A Toronto special says: "A local paper gives an account of a scheme on foot in Canada to discount the effects of discrimination in the matter of tolls on the Saint Lawrence canal. It says that prominent engineers are now at work on a proposal to construct a canal or river from Georgian bay to Toronto by which United States exports will be made inland cities, while Canada will control the inland waterways. The plans embrace the boring of a tunnel from some point on the Hamilton river, just west of Toronto, out into Georgian bay, which it is calculated will lower the water in Lake Huron and Erie as to drain the Detroit river and make it impossible for boats to land at Duluth and other United States lake ports."

Big Cotton Firm Falls.

NEW ORLEANS, Aug. 2.—The large cotton firm of Bickham & Moore of this city made acession of property to its creditors. The firm was regarded as one of the staunchest in the country, but heavy losses in cotton futures rendered it impossible to continue. By one deal alone the house lost nearly \$100,000. The liabilities are estimated at \$250,000. Mr. Moore, who carried on the business, is very ill and it is feared that the failure will cause his death.

LEAVENWORTH, Kan., Aug. 2.—As a young son of one of the officers at Fort Leavenworth was passing through the woods on the reservation he came upon the body of a well dressed young man hanging from the limb of a tree. The body was very much decomposed and had evidently been hanging several days. Investigation proved it to be a most remarkable suicide. The young man had climbed the tree, fastened the rope to the limb and about his neck, and then saturated a handkerchief with chloroform and held it to his nose until he became unconscious and fell off the tree. The man was a stranger here and there is not a single one of his clothes by which to identify him.
