WEDNESDAY, APRIL 19th, 1893.

Cyclones are getting in their work early and frequently this season, but let us hope the gait they have started out on may not be maintained.

It is said that J. E. Boyd has refused to accept the appointment as one of the government directors of the Union Pacific. He gives it out that he is not an applicant for any position.

The impeachment action against the state officials is upheld by the republicans of the state, though the men implicated are members of that party. It is the desire of all to see punishment meted out to the guilty ones, if guilty they are proven.

It was said last November that Mr. Cleveland was elected just to reform the tariff, yet some of his friends now declare he is anxious to postpone until after the congressional elections in 1894 the operation of the tariff measure which is to be passed next winter.

NOTWITHSTANDING the pressure brought to bear on the governor, Joseph Garneau has been re-appointed commissioner of the exhibit at the world's fair. Mr. Garneau will undoubtedly devote considerable energy to making the exhibit an attractive one.

The President is now confronted by the demands of both the New York Herald and World that the pledges of the Chicago platform be carried out, and it is worrying him considerably. In fact it is causing him more trouble than the horde of hungry office seekers.

CLERK KERR of the house of representatives, has published his list of members-elect of the fifty-third congress and it shows that the democrats will have 220 representatives, the republicans 127 and the populist eight, giving the former a clean majority of eighty-five.

HENRY WATSON demands that a duty be laid on coffee, tea and sugar which will raise an income of seventy-five million per year. That's right go ahead and tax the breakfast table of the American workman and give him a chance to appreciate the beauties of English free trade.

GOVERNOR CROUSE having signed the Newberry bill, the railroad question is thrown out of state politics for a time at least, and the populists will probably concentrate their energies on the matter of cheap money. But before going in too deep they had probably better wait and see whether the reduced railroad rate really reduces.

THE doctors of Chicago have lately held consultation, and have agreed that the suppression of cholera in our country is impossible, and it is only a matter of a few weeks when sultry weather sets in, that it will break out in the large cities. Then, and not till then, will the eyes of our people be opened to the fact that the foreign immigration will have to be prohibited.

UNDEB advantage has been taken by wicked republicans of the unfortunate accident down in Indiana of a prominent democrat having his commission as postmaster handed him by a special delivery boy, just as he was on his way to jail for selling liquor without a license. These little coincidences are inevitable when the democracy is in power once in awhile, and nobody is to blame.

CHOLERA scare will play a big part in market manipulation this year, says the Globe-Democrat. It will be very easy any day to start a report that the plague has made its appearance in some of the cities East or West, and, with that report once in circulation, down will go prices of grain, provisions, stocks and everything else. The contradiction will come along after a while, but not until the bears have accomplished their object.

The record of the journey of three men-of-war from the Pacific to the Atlantic shows that vessels built on American lines are superior to those planned abroad. The San Francisco, an American ship from first to last, burned less coal by far than the Charleston and the Baltimore, and at the end of the voyage was in perfect condition, while both of the vessels designed by English builders were obliged to go to the navy yards for repairs.

The Reform Club exports estimate the imports of wool manufactures under their 25 per cent duty at \$75,000,000, or more than double the imports of 1892. Chairman Springer of the ways and means committee asserted that under the 40 per cent duty on this line of goods proposed in the bill which passed the last house imports would jump to \$100,000,000. This disagreement among the free trade doctors illustrates how little the alleged tariff experts of the democracy know about what the effect of their measure would be on the important interests for which they presume to prescribe legislation.

But whether imports of woolen goods would jump to \$100,000,000 or stop at \$75,000,000 it would only mean so many millions taken from American industries and American wage earners and given to Europeans - New York Press.

Assistant postmaster-general Maxwell is making political depreciations at the rate of 150 per day.

HORNEY HAPPENINGS. This town has just enjoyed a boom. H. P. Sellers has built a residence, Geo. Korabaugh and I. Baley stables. Sam Funkhouser is sowing a large acreage to small grain. A. G. Smith, Morris Van Tyle and Maud Sellers attended the dance at Sutherland last Wednesday evening.

Mrs. Frank Carpenter returned Saturday morning from a visit to her parents in St. Paul. Mrs. Hoover accompanying her on her return. Frank is now the happiest man in town since he doesn't have to batch any longer. He pines the life of a poor batch. They have all his sympathy since he tried their kind of life.

The dance at the Sisson school house Friday night was not very well attended; plenty of fun but not much dance. H. P. Sellers and family occupy the front room of George Horabaugh's house.

Several car loads of hay were shipped from here last week, and more are being loaded for shipment. Morris Van Tyle left Saturday evening for Gothenburg where he goes to take charge of a furniture store, while the proprietor takes in the world's fair. The Hershey base ball club indulged in a game at this place Sunday afternoon with quite a few spectators. M. T.

SOMERSET SNAP SHOTS. We are needing rain very bad. The rye crop is looking well. R. L. Bendall will work for J. H. Knowles this spring. E. C. Fletcher was on the sick list this week.

Mrs. A. O. Randall was real poorly last week, but is now reported better. Miss Mary Dixon and Miss Clara Green went to North Platte Friday returning Sunday.

Will Willerton has moved in with Mr. Jenkins. He will work at the Platte. Mr. Smales car load of lumber has arrived and he has commenced building a dwelling. We are informed that besides the brick and tile yard, that the company will build a grist mill, an elevator and two or three brick storehouses.

Miss Hosford was visiting the schools in this vicinity this week. O. I. C. The superiority of the American locomotive over all others is said to be due chiefly to the fact that it possesses the greatest power in proportion to weight. Next to the American locomotive in merit stands the English, but the latter cannot hold its own in competition with the superb machines turned out by our shops. Even on British territory, where prejudice always exerts some influence, the American engine has had an extensive sale. Within the past two years seventy-five American locomotives have gone to Australian colonies, four to the British West Indies and twelve to British North America. To the West Indies and South America together we have exported during the past two fiscal years 355 locomotives. Of these 193 went to Brazil, eighty-six to Cuba, thirty-four to Mexico and twenty-three to Chili. Even in the far eastern countries the splendid American engines have become popular, and the railroad from Joppa to Jerusalem is equipped with motive power from the United States. The number of locomotives exported from this country during the past two years was 472, and their value was \$4,142,078. In view of the fact that iron and steel are cheaper in England than in this country, these extensive exports must be due entirely to the superiority of the American locomotives. - Bee.

The explanation that is made by the hilarious twenty thousand majority that so triumphantly elected Carter Harrison mayor of Chicago the other day, is that the fair has cost the city a great deal of money, and it must have an unobstructed chance to get the money back out of the rural rooster that visits the city to see the exhibition. Every thing that takes in money from therefore be allowed to run day and night and Sunday all summer long. Harrison is the man to see that it is done. - Ex.

Karl's Clover Root, the New Blood Purifier, gives freshness and clearness to the complexion and cures Constipation, 25c, 50c, and \$1.00. Sold by North Platte Pharmacy.

The coroner's jury in the case of Dan Donovan, who was knocked out and killed in the prize ring at Cleveland by another bruiser, knew its duty and did it nobly. It brought in a verdict to the effect that Donovan came to his death from too much training and a lung trouble that made muscular exertion fatally dangerous to him. It did not even mention the name of the fellow that knocked him out with a blow from which he died twelve hours later, without once recovering consciousness.

One thousand head of sheep are reported to have been burned in a fire north of Julesburg.

A cyclone struck Robinsonville, Tenn., on Wednesday last week, entirely demolished the village and killed sixteen persons and seriously wounded ten. A cyclone passed over part of Michigan Thursday and destroyed much property.

ROYAL Baking Powder. ABSOLUTELY PURE

We guarantee this to be the best Cough Syrup manufactured in the whole world. This is saying a great deal, but it is true. For Consumption, Coughs, Colds, Sore Throat, Sore Chest, Pneumonia, Bronchitis, Asthma, Croup, Whooping Cough, and all diseases of the Throat and Lungs, we positively guarantee BALLARD'S HOREHOUND SYRUP to be without an equal on the whole face of the globe. In support of this statement we refer to every individual who has ever used it and to every druggist who has ever sold it. Such evidence is indisputable. For sale by A. F. Streitz.

Ballard's Snow Liniment. Mrs. Hamilton Cambridge, Ill., says: I had the rheumatism so bad I could not raise my hand to my head. BALLARD'S SNOW LINIMENT has entirely cured me. I take pleasure in informing my neighbors and friends what it has done for me. Chas. Handley, clerk for Lay and Lyman, Kewanee, Ill., advises us SNOW LINIMENT cured him of Rheumatism. Why not try it? It will surely do you good. It cures all Inflammation, Wounds, Cuts, Sprains, etc. For sale by A. F. Streitz.

The prince of Serbia, young Alexander, concluded all at once that he was old enough to run the government without his guardians, the regents, and so he celebrated his twentieth birthday in good style and finished the proceeding, by proclaiming himself of age, a year before the attainment of his legal majority, and on the regents protesting he had them arrested and thrown into a hostile prison. Nothing was omitted in the business to prevent the full realization of the old medieval methods of conducting a coup d'etat. It is believed that the young man's revolution will be a success, as he has the army on his side, which is a good thing at times.

No matter what may be the outcome of the impeachment trials before the supreme court, the verdict of the populist press, which has already tried, convicted and executed the prisoners, will not be reversed. Though proven by indisputable evidence to be innocent of the charges against them, the fellows who damn the constitution and the supreme court will never admit that they have been wrong. The impeached gentlemen, not being reformers, are consequently guilty, and that settles it, supreme court or no supreme court. And it will be a telling argument in the rural districts during the coming campaign. - Callaway Courier.

In reviewing the result of the elections before last the New York Press says: "The result of last week's elections afford ample ground for republican encouragement. The splendid republican victory in the democrat city of St. Louis, the republican triumph in Michigan and the republican sweep in Kansas are unmistakable indications of a revival of republican unity and strength. The complete overthrow of the democratic-populist forces in Kansas is especially significant and encouraging. It is evident that the state whose soil was made free by republican resolution and patriotism has returned to her allegiance to republican principles."

It is placing it at a low estimate when we say that the recent damage by fire to this county is \$25,000. This sum snatched from the farmers and those who have braved and outlived the trials of the past comes quite hard, and especially when we reflect that the cause for a great deal of it was the careless and thoughtless putting out of fire without guard, and often too we think it foolish, looking at it from a farmer's economic view to burn straw or rubbish, simply for the purpose of getting it out of the way, better we think put it under by way of the plow. - Ugalala Herald.

Says the Sargent Times: We notice many farmers plowing the ground two to three inches deep, or cutting ground with the disc, missing at least one-fourth of it and insensibly imagining all the time that they are putting in their crop. When harvest time comes they will wonder why they get half a crop instead of a whole one. Whatever is worth doing at all is worth doing well. Put the crop in right and then if it fails, your conscience will be clear.

Elder S. S. Beaver, of McAllisterville, Juniata Co., Pa., says his wife is subject to cramp in the stomach. Last summer she tried Chamberlain's Colic, Cholera and Diarrhoea Remedy for it, and was much pleased with the speedy relief it afforded. She has since used it whenever necessary and found that it never fails. For sale by A. F. Streitz.

The Rev. Biddison chaplain of the rump poping of the late Kansas house of representatives, has been dropped from the rolls of the Methodist conference to which he belonged for the fervency of his prayers in the legislature. It is said that on one morning the chaplain was so enthused by his zeal for the pops, that he prayed the Lord to pay the brains and still the hearts of the wicked conspirators on the other side of the hall."

A report from Lemars, Iowa says that that city has adopted the gold treatment in the police court, for the second offense of drunkenness the prisoner is given his choice of ten days on the street walk with ball and chain or a course of treatment. This is certainly the most sensible prohibition Iowa ever had. More than that, it is in the line of philanthropy and economy.

American generally will not relish the news that comes from Honolulu to the effect that commissioner Blount has ordered down the American flag that has been flying for several months from the government buildings. In doing so he gives no intimation of the intention of the government of the United States further than that no interference in the affairs of Hawaii by any foreign government will be permitted. No annexation, not even a protectorate. What then? Uncle Sam will do well to keep a sharp watch on Japan and Johnnie Bull - Kearney Hub.

A Sound Liver Makes a Well Man. Are you Bilious, Constipated, or troubled with Jaundice, Sick Headache, Bad Taste in Mouth, Foul Breath, Coated Tongue, Dyspepsia, Indigestion, Hot Dry Skin, Pain in Back and between the Shoulders, Chills and Fever, &c. If you have any of these symptoms, your Liver is out of order, and your blood is slowly being poisoned, because your Liver does not act properly. HENRICH'S will cure any disorder of the Liver, Stomach or Bowels. It has no equal as a Liver medicine. Price 75 cents. Free trial bottles at A. F. Streitz.

From 1790 to 1890 the center of American population moved westward 505 miles, or a little more than five miles a year on average. In 1790 the center was twenty-three miles east of Baltimore, Md., and in 1890 it was twenty miles east of Columbus, Ind. This is one of the best possible illustrations to show how the west is being populated.

The many cases of rheumatism cured by Chamberlain's Pain Balm during the past few months have given the people great confidence in its curative properties, and have shown that there is one preparation that can be depended upon for that painful and aggravating disease. Honaker Bros., Lorain, Ohio, say: "Mr. Moses Price, of this place, was troubled with rheumatism for a long time. Chamberlain's Pain Balm has cured him. He says that the Balm has no equal." For sale by A. F. Streitz.

Attention Horse Men! STAR BRAND No. 5525.

The only trotting horse that will make a pull in North Platte, Neb., will stand at the White Elephant Barn on South Main or Spruce street. My wife was confined to her bed for over two months with a severe attack of rheumatism. We could get nothing that would afford her any relief, and as a last resort gave Chamberlain's Pain Balm a trial. To our great surprise she began to improve after the first application, and by using it regularly she was soon able to get up and attend to her house work. E. H. Johnson, of C. J. Knutson & Co., Kensington, Minn. 50 cent bottles for sale by A. F. Streitz, Druggist.
