

It is now about a year since the representative democrats of the country assembled in Chicago, and among other things, made a fierce onslaught upon the financial and business policy of the party then in power.

T. O. C. HARRISON, of Grand Island, is mentioned as a candidate for supreme judge on the republican ticket this fall.

THE reappearance of the cholera in Asia and in parts of Europe does not mean that it will cross the Atlantic, but it is a reminder to us that the bars against its invasion must be kept up along the seaboard.

AS ONE of the objects of the extra session of congress is to repeal the Sherman silver law, it is evident that the silverites who voted for Cleveland via Weaver last November drew a knife across their own throats.

J. E. NORTH, of Columbus has been appointed collector of internal revenue for the district of Nebraska and the two Dakotas, vice John Peters resigned. There is a \$4,500 salary attached to the office.

PRINCESS EULALIE did not figure extensively in the Nebraska Day ceremonies on Thursday last, but our own and only Buffalo Bill was there in all his towering strength and might.

WILLIAM MCKINLEY was renominated governor of Ohio by the republican state convention by acclamation on Thursday. Backed by the administration the democrats of that state will make a bitter fight, and McKinley is undoubtedly the only republican who could have been named that can win the battle.

THE Era thought the supreme court a just and impartial tribunal when it dismissed the mandamus proceedings instituted in the county printing contract last year, but it emphatically denounces Judges Norval and Post for their decision in the impeachment case. It makes a great difference whose bull is gored.

THE Inter Ocean gives the following advice to visitors in Chicago: Leave money and valuables in the safe at your hotel. Take only the change you need. There never were gathered at one place more expert pick-pockets than around Chicago just now. We have the cream of the fraternity, "the 400," as it were, from all the cities of the east.

A SERIOUS encounter between striking employes on the Chicago drainage ditch and the deputy sheriffs occurred Friday at Lemont in which four or five of the strikers were killed and a dozen or more wounded. Troops were at once called out by governor Altgeld, but their services were not needed to restore peace.

A CONVENTION of delegates from the various labor organizations of the state will be held at Lincoln on July 2d. The bee says that forty-one organizations of skilled labor have signified their intention of sending delegates and the number will likely be materially increased before the date of the convention.

THE old Ford theater at Washington, which was being used by the government as an annex to the pension department, collapsed on Thursday of last week, resulting in the death of twenty-one clerks and the injuring of about fifty. The building was being underpinned at the time of the collapse.

AND now S. Edwin Thornton has preferred charges against Jay Burrows and J. M. Thompson for alleged treason to the farmers' alliance. The preliminary trial was held last week, and the impeachment suit will commence the early part of next month.

DEMOCRATS all over the country, including President Cleveland want J. E. Campbell to be the nominee of the democrats for governor of Ohio, but Mr. Campbell has no apparent yearning in that direction. He pitted himself against McKinley two years ago and invited outsiders to observe how easily he could knock out the champion of protection. People did watch, and they saw Campbell come out of the contest the worst defeated man in the country.

OF THE 218 democratic members of the fifty-third congress, at least ninety can be safely counted on as uncompromising opponents of free coinage, leaving about 128 in favor of free coinage. The republican membership of the house is about 127, and it will require only ninety of these votes against free coinage to defeat it. The presumption is that not more than eight are radical free coinage men, leaving say 120 opposed to that policy. These, with ninety democrats would make 210 sound money members, and leave only 146 of all parties to vote for free coinage. This is an extreme estimate of the honest money strength, says the Washington correspondent of the Springfield Republican, for there are several republicans in Iowa, Michigan and Kansas whose views on the subject are loose, and who will probably vote for free coinage just because Cleveland is against it.

Nebraska's Day of Joy. (Chicago Letter Column)

The Nebraska said that they were dedicating their state building yesterday morning, but the vast majority of the crowd waved between the belief that they were dedicating Buffalo Bill and the idea that the Spanish princess was going to honor the Nebraska building with her presence.

Mr. Menzie was so unfortunate last week as to lose one of his horses.

Mr. Sivitt, who started from here to visit friends in Iowa, had the misfortune to have a leg broken before reaching his destination. He was leading the mules by the head when they became frightened and ran off, one of them stepping on him.

Children's Day exercises at the Myrtle school house were successfully carried out last Sunday every one acquitting him or herself creditably. Rev. Derryberry gave a discourse appropriate for children's day. There were visitors from North Platte and other places. C. H.

Mrs. C. Handy of North Platte spent Wednesday on her ranch here. Little Annie, daughter of Mr. and Mrs. L. Dolan has been very ill with pneumonia during the last week.

G. W. Snyder went to North Platte last Thursday. W. Plumer and Will Lantz spent Friday in North Platte. C. H. Daley formerly a resident of Maxwell, but now of Garfield, preached here one day last week, and the crops were looking fine in his locality.

Those Hannah and daughter Marie spent last Monday in Brady Island. Mrs. L. Snyder returned from her visit to Garfield Neb., last Wednesday.

A number of hard up men passed through this week. Daniel Fowles left Maxwell last Sunday evening to attend the world's fair.

Mr. and Mrs. McNamara, formerly of Brady Island, are now residents of our town. Mr. McNamara being night operator. Mrs. J. Snyder and daughter Anna went to North Platte one day last week.

Miss Marie Hanrahan spent Thursday and Friday in North Platte. Mrs. C. W. Horne came down from North Platte one day last week.

There was a hard wind storm here last Wednesday night. Michael McCullough was on the sick list this week.

T. Long is preparing to move from the sand hills to his home west of Maxwell. G. Snyder was in Brady Island one day last week.

John McCullough went to the island last Tuesday. William Dolan who is attending college in Kansas, is expected home to spend the vacation with his parents.

Charles Hendy, Joe and Frederick Elliott, of North Platte, were Maxwell visitors last Sunday. Charles Bequer, a farmer from the sand hills, was in town last Saturday.

John Snyder went to North Platte Saturday. Mrs. Laughlin, of Kearney, got a verdict of two thousand dollars Saturday last against the Kearney electric company for causing the death of her husband two years ago. Laughlin was digging a tunnel for the big supply pipe for the turbine wheel at the company's power house when the ground caved in on him and killed him. She is a poor woman and has a large family of small children.

CHARLESTON'S chamber of commerce denounces the Sherman law and urges its speedy repeal. From other parts of the south, as well as from the southwest, the same sort of action has been taken by business bodies within the past few weeks. In every state in the Union, with the exception of Kansas, Colorado, Montana and Nevada, the silver men are steadily and rapidly losing ground.—Ex.

Ex-Speaker Elder: "As the case stands, Maxwell's decision makes it a little better for our (populist) party. I never believed in impeachment in the first place. If they had brought suit against the state officers and their bondsmen for the money lost, it would have been right. But the fellows were willing to give thousands for impeachment and not one cent for a suit, and this is what they have got."

One of the inestimable benefits that it is suggested may result from the world's fair is that it may stimulate the construction of a proper ship canal which would bring the Atlantic seaboard into connection with Chicago by way of the great lakes. The sending of the Spanish caravels to Chicago round by the way of the St. Lawrence has directed attention anew to this great project, long since pronounced feasible by eminent engineering authority. The lakes are already traversed by vessels of 4,000 tons burden. A broad and deep waterway to the sea for ocean vessels would be a boon to transportation facilities that would not likely be relished by the railroads, but it would be a great benefit to the United States as a whole, and also to Canada.

In a lengthy review of the impeachment trial, the Lincoln Call says: The Call does not believe in political trials for political gain or for political revenge. It much mistakes the temper of the people, the sentiment of the honest intelligent people of the state, if they believe in or endorse trials of this character. The majority of the court took exactly this view of it and rendered judgment accordingly.

Those who have been most prominent in the prosecution have been so for political effect. The Omaha Bee, that has a long established record of prosecuting and crushing those whom it could not control, was in this prosecution because it could not itself dictate to and about the exonerated state officials. It is a just and a righteous verdict that puts the stamp of condemnation upon this character of guerilla warfare.

Enterprising Montanans are constructing a canal in the Missouri valley in that state for irrigating purposes, which, when completed, will throw open to settlement 200 farms of 160 acres each. The water is taken from the Missouri river three miles above Toston. The ditch will be twenty-seven miles long, running north along the foot hills, and will cost from \$30,000 to \$100,000. Work was begun on it in 1892 and it is calculated to finish it next year in time to utilize it for the season's crops. The valley contains 50,000 acres, of which not to exceed 10,000 acres are now arable. The farmer of the future in Montana, as well as elsewhere where it is possible, is the one who will place his confidence in the utility of irrigation.—Bee.

A mare belonging to H. M. Grov, residing near Adams, has broken the record in the twin line, and given birth to twin colts, one a horse and one a mule. The colt weighs seventy pounds and is two feet nine in height. Its twin, the mule, weighs thirty-two pounds and is barely tall enough to reach the commissary by standing on its tip-toes. It is believed to be the only case of the kind on record, and the animals will be placed on exhibition. If any one doubts the truth of this story, T. R. Burling, of Firth, will attest to its accuracy with an array of affidavits from Mr. Grov and all his neighbors. Diversified industries are developing in all lines, in the present age of the world.

There is no doubt that alfalfa is a profitable crop for farmers over large sections of the state. Even in the east end of the state, where blue grass and clover thrive, alfalfa is frequently obtaining a footing that will give it a title to a permanent place as a special purpose grass. As the higher and dryer parts of the state become more thickly settled and it becomes imperative to grow more or less of the same grass, it will be found that alfalfa fits the case exactly. It will then act as the balance wheel to the live stock industry of the state.

The country is spending several millions each year more than its receipts. Possibly that is one reason Mr. Cleveland has reached the conclusion that the financial conditions are the "only menace to our prosperity." The tariff bugaboo has been turned down.

Baldard's Snow Liniment. Mrs. Hamilton Cambridge, Ill., says: I had the rheumatism so bad I could not raise my hand to my head. BALDARD'S SNOW LINIMENT has entirely cured me. I take pleasure in informing my neighbors and friends that it has done for me. Has Handley, clerk for Lay and Lyman, Keawee, Ill., advises us SNOW LINIMENT cured him of Rheumatism. Why not try it? It will surely do you good. It cures all inflammation. Women's cuts, Sprains, etc. For sale by A. F. Streitz.

New York has unveiled a monument to young Nathan Hale, the patriot spy of the revolution who before his execution within the British lines sent as a last message to his friends, "Tell them that I only regret that I have but one life to lose for my country." Will Hoke Smith please remember that thousands of government pensioners sowed the seed of their disabilities in the practice of the same sort of heroism that made Nathan Hale immortal.—Inter Ocean.

Dr. M. J. Davis is a prominent physician of Lewis, Cass county, Iowa, and has been actively engaged in the practice of medicine at that place for the past thirty-five years. On the 26th of May, while in Des Moines enroute for Chicago, he was suddenly taken with an attack of diarrhoea. Having sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for the past seventeen years, and knowing its reliability, he procured a 25 cent bottle, two doses of which completely cured him. The excitement and change of water and diet incident to traveling often produce a diarrhoea. Every one should procure a bottle of this Remedy before leaving home. For Sale by A. F. Streitz, Druggist.

PROTECT YOUR EYES. MR. H. HIRSCHBECK, Eye Expert of 229 Olive St., St. Louis, Mo., and 30 E. 14th Street, New York, has appointed A. F. STREITZ as agent for his celebrated Non-Changeable Spectacles and Eye-Glasses. These glasses are the greatest invention ever made in spectacles, and every pair purchased are guaranteed, so that if at any time a change is necessary (no matter how scratched the lenses), they will furnish the party with a new pair of glasses, free of charge. A. F. STREITZ has a full assortment, and invites all who wish to satisfy themselves of the great superiority of these glasses over any and all others now in use, to call and examine them at A. F. STREITZ, Sole Agent for North Platte, Neb. No peddling supplied. "The Best in the World. None cheaper unless stamped Non-Changeable."

THE SPOON RAN IN WASHINGTON. "Spoons! Spoons to the right of them, spoons to the left of them, fully 600." I beg pardon for thus rashly passing a line in the "Charge of the Light Brigade." But I cannot help it. I never saw so many varieties of silver, gold and silver plated spoons in all my life at any one time outside the headquarters of the silver-smiths. In my walks abroad I am attracted to them in the windows of the fascinating shops along Pennsylvania Avenue, offered on sale at prices ranging from \$1 to \$10 each spoon.

This souvenir craze has not penetrated to any extent to "the other side," as we somewhat inaptly refer to the great Atlantic divide. So again I realize

A splendid way to preserve roses which are to be sent a great distance is to insert the ends of them in potatoes. This is also an admirable idea for artists who paint flowers and are obliged to have them out of water hours at a time.
