

IRA L. BARE, EDITOR AND PROPRIETOR

SUBSCRIPTION RATES. IN ADVANCE, \$1.50 PER ANNUM. IF PAID IN ADVANCE, \$1.50 PER ANNUM.

WEDNESDAY, JULY 26th, 1893.

GOLD is coming to this country and the white metal is traveling in the opposite direction. This would indicate that better times are not far off.

The Wallace Star entered its third year last week under favorable conditions. We reiterate the statement that the Star is a bright paper edited by bright young men.

The Globe-Democrat advises the Iowa republicans to disclaim all intentions of sending Clarkson to the U. S. senate. We are among those who believe that Clarkson is entitled to be "shelved."

If people will keep their mouths shut for a while it will do much to restore public confidence in banks. With the banks loaning the usual amount of money the panic will soon draw to a close.

A COUPLE of counterfeiters succeeded in unloading about \$1,000 in spurious five dollar gold pieces in Omaha last week. The officers finally got on their trail and they were forced to leave the city.

DENYERS are putting their money back in the banks, and are showing they are cured, and are fully. Now if they will remain cool and stick to their regular employments the situation will right itself in a few months.

As will be seen by an item on the local page, the fight among the applicants for the local federal offices is by no means diminishing. There is now an opportunity for dark horses to come forward and win in a canter.

In slating R. C. Harden for county clerk, the independent managers are simply rewarding him for his work in the religio-political field. Everybody will be pleased to have Mr. Harden on the ticket—especially the republicans.

THE increase in the New York bank reserves in the week just ended is a favorable feature in the financial situation. Another gain is probable this week. Rates for money are low, and nothing like a stringency is likely to come in the next few weeks.

JUDGE HAWLEY may have an open field in securing the independent nomination for sheriff, but in the race for election he will be defeated. The Judge should not flatter himself that the independent nomination is equivalent to an election, for 'tis far from it.

By figures which do not lie, the New York Press shows that the national banks of that city have lost since Mr. Cleveland's nomination \$72,563,992.37 in bonds, \$132,418,713.78 in deposits and \$13,757,549 in surplus. New York has paid very dear for its whistle.

In the appointment of H. Q. Evans, son-in-law of General Weaver, as a chief of division in the office of the second auditor of the treasury, Senator Allen is said to have shown his hand. Evans supported the populist ticket in this state last fall.

COLONEL GANTT'S mouthpiece says he has no aspiration for the Lincoln county treasuryship, but we are inclined to believe that if he had the positive assurance that he could be elected he would laboriously seek the nomination. To be defeated for a petty county office would be very mortifying to the Colonel.

GOVERNOR MARKHAM Saturday evening appointed ex-Governor George C. Perkins United States senator, to succeed the late Leland Stanford. Perkins lives in San Francisco and is a member of the firm of Goodall, Perkins & Co., general agents of the Pacific Coast Steamship company. He served three years as governor of California, from 1889.

Yes, that independent legislature saved the state great gobs of money. For instance they cut down the appropriation for the reform school at Kearney and as a result the printing department, where a number of boys were learning a good trade, had to be shut down for want of funds to run it and the boys will be taught how to hoe potatoes.

The president would do well to hire Buffalo Bill to go to Washington for the first two weeks of congress. He has had more experience with wild, bucking, kicking stock than any other living man. Buffalo Bill with his lariats, posted behind speaker Crisp, would be a mighty healthy addition to the coming congress. The speaker would only have to wink at Bill and remark, "The gentleman will please come to order," and order it would be.—Inter Ocean.

THE prophecies of the New York Press last fall are being fulfilled. In its issue of October 30th that paper said: In case of democratic success we are sure to have at least two years of disturbance, uncertainty and want of confidence in business circles. Investors will hold their money. The contracts, aggregate millions of dollars that have been made contingent on a republican victory cannot be carried out. Thousands upon thousands of workmen will be thrown out of employment, and there will be a general demoralization of trade and industry.

Settling the "Sand Hills. Senator Manderson has been making an investigation into the condition of the "sand hill region" of Nebraska, and the result of his study is a determination to ask congress for laws which will more closely meet the needs of that district and accelerate its settlement. He finds that there are millions of acres of land in the northwestern part of the state which cannot be devoted to agriculture under the old system of small homesteads, and which are yet too productive to be given over entirely to the free use of the cattle barons. The senator has formed no definite plan as yet, but believes with the leading men in the sand hills region that a modification of the law giving the settlers an opportunity to acquire enough land to maintain a moderate herd of cattle would be entirely advantageous to the district and to the state. He has addressed a circular letter to all of the counties interested, and hopes to receive replies which will be of assistance in framing a new and helpful law.

There can be no doubt of the richness of the region under consideration. The valleys are fertile and well watered, and the hills are covered in the summer with nutritious grasses. At the same time the district will not support a dense population. An ordinary homestead will not suffice for the needs of the settler. He ought to be given an opportunity to acquire more than 160 acres without too large an expenditure. The situation calls for a compromise between the homestead law which has peopled the rich Nebraska prairies and the right of free range which has made the large cattle man such an enemy to the settler in nearly all of the western counties. Senator Manderson has undertaken a good work for Nebraska.—State Journal

John M. Thurston to J. Burroughs: "The platform of the last republican national convention declared in favor of the coinage of the American product of both gold and silver as money. Impartial history declares that the republican party has been true to every promise, and that it has made every honorable endeavor to redeem every pledge. Had the republican party continued in power, I believe there would have come a fair and reasonable solution of the money question without any disturbance of the confidence and credit of the country. The great outcry of today against the present attitude of a democratic administration and the expected action of a democratic congress, comes from the men who, either directly or indirectly, defeated the republican party. So far as I am individually concerned, I believe the welfare of the common people can be best subserved and protected under republican administration. It is already evident that people can hope for nothing from democracy; and you will please pardon me if I fail to see any prospect for relief in the success of that other party, which adopts for its platform a crazy quilt of congruousness, representing mostly the impracticable theories of disaffected humanity.

A party of Kansas populists is enroute for the world's fair. The party consists of four families, there are six wagons, each having the appearance of a small one story house on wheels. Five of the wagons contain beds, chairs, tables and every convenience for travel. The sixth is a dining car. A quartet of fine singers is in the company and the party proposes to inflict the communities through which it passes with alliance meetings of evenings. On their return the party promises to come to Nebraska and give us a course of populist entertainments. It will find this venture an unprofitable one. Nebraska believes in patronizing home industries and she has a sufficient number of howlers, who must first be accommodated.—Grand Island Independent.

WHEN the British bark Kelderale sails for Harve from Baltimore she will carry the largest full cargo of hay yet shipped from this country to Europe. The only other full cargo of hay shipped previously was carried by the German ship Frieburg, from New York to Harve, and consisted of 400 tons. The Baltimore Shipping Company has chartered the Kelderale to carry 600 tons. The company has also chartered the British steamship Sir William Armstrong to load 500 tons of hay for Harve.

A story is running wild down east to the effect that Secretary Gresham will bid for the democratic nomination for president. Many things may happen within the next three years. By that time, we venture to predict, good men will hesitate before consenting to let a democratic convention lead them to slaughter.—Ex.

The chief of the bureau of statistics reports that during the twelve months ending June 30, 1893, the number of immigrants landed in the United States was 497,936 and during the corresponding period of the preceding year, 519,320.

The New York Financier hits the center when he says: "Uncertainty about prospective values in manufactured articles has done more to paralyze the industries of the United States than any uncertainty about silver legislation."

"Not a depositor will lose a dollar." This is the situation with respect to almost, if not quite, all the bank failures this year. No real panic ever occurred under such conditions.

New method to learn German. Take Haller's Little German File. For sale by F. H. Longley, Druggist. Shiloh's Cure, the Great Cough and Croup Cure, is for sale by us. Each size contains twenty-five doses, only 25c. Children love it. North Platte Pharmacy.

Sutherland News. E. C. Brown returned from his western trip last Tuesday. Henry Coker was a county seat visitor on Wednesday. Dr. Duncanson was called to Sutherland Tuesday night to see Mr. McKinstry's little boy who was troubled with chills and fever. Mrs. Hattie Davis who has been visiting her sister Mrs. Seilisen, returned to her home at Pleasanton, Iowa last Monday. Mrs. Seilisen accompanied her and will spend a few weeks visiting relatives and friends.

H. M. Weber, of North Platte, was on our streets Tuesday. North Platte was well represented at Sutherland last Friday. A. F. Streit, F. J. Newton, Geo. McKay and several others were either on business or pleasure bent. Report has it that Fred Hutton will remove to North Platte in the near future and Elmer Coates will manage the elevator and lumber yard here.

On Thursday evening C. A. Holtry was called by telegram to his home at North Platte. E. C. Brown held down the lumber yard during his absence on Friday. Several binders are being put together and taken out among the fields so we may look for a little grain to keep the elevator from becoming rusty. F. A. Carpenter has been returned to his old position at Hershey and we have a new agent to get acquainted with at this depot. Either Sutherland is a very undesirable station or else we have had some very changeable men as this is the fourth within the last two months. Mr. Carpenter has been a very accommodating gentleman and we are sorry to see him go.

Will Coker has returned from Omaha having disposed of his cattle at fair figures. Jos. Canby, a former station agent here has been spending a few days among his friends. He is now located in Colorado west of Greeley. The hot weather is making the corn look sick and the farmers are anxious for rain.

Dr. McCabe was on our streets Saturday. The dance Friday night was well attended and the boys report a good time. The first grain report of the season came from the farm of Bluford Chamblus. His fall wheat averaged about 19 bushels to the acre. This is better than any one expected in this section of the country. CITIZEN.

Wallace Warblings. James H. Seaton and John Conger will shortly move to Iowa, M. E. Patterson to Red Cloud, Neb., S. C. Chase will move into the Mrs. Carrier property and Mr. Bentz will take the Seaton property.

Wm. Cowman and W. H. Pattison started for Casey, Iowa, Sunday with a bunch of horses. They drove to the Platte valley and will follow the line of the Union Pacific. From the condition and number of hogs received by Hayden Bros. last week one would be inclined to think that there are plenty of hogs and hog feed in the country yet.

O. Rogers, founder of the Wallace photograph gallery, has again purchased the studio of Mr. Sandy, to whom he sold, and has concluded to permanently settle in Wallace. Since his vacation he has investigated Oklahoma and various parts of the east and has tried the portable photo business but there appears to be nothing like the old plant. Mrs. Thomas Dolan, who has been suffering for a month with cancer in the side, is said to be in a dying condition.

M. E. Patterson went to Holdrege last Saturday in answer to a dispatch received from J. A. Pearson, western manager of the Louisville, Ohio, shoe manufacturing company, to complete his contract with said firm as traveling salesman. Mr. Pearson informed him his samples were ready. Mr. Patterson's field of labor will be from here to Kansas City and northern Oklahoma. His family will remain here until his business is settled up at this place when he will move east. May his success be such that he will soon become a crank at the table and his communications received be signed your humble servant.

T. S. Meadwell will embark in the confectionery business in Edgar in connection with his business here about August 1st. During fair season in company with Pete Taylor of Grant they will make a circuit through Kansas and southern Nebraska with fleet horses. We do not wish to criticize church people in any measure, but it surely is an extreme selfishness for one church, who happens to be owner of an ice cream freezer, to demand of a sister church of the same creed one dollar for the use of said freezer for one evening, when, for the past five years the church with the new machine has continually borrowed freezers from worldly people, even where the owners had intended to use them themselves.

E. B. Spencer, living two and one-half miles southeast of Wallace, deserves credit for a neat and clean farm. He has 105 acres of corn that is immense, fifty-two acres of wheat considerably above the average crop, has several acres of potatoes, gardentruck, fruit trees and shrubbery all in good condition and the labor of Mr. and Mrs. B. alone. A sufficient quantity of stock and poultry dots the pastures and lawn to make his home one of life and happiness.

While in the act of trimming a mule's feet on Saturday last Frank Shield was knocked down by the creature who, not then being satisfied with the attainment, fell down on Frank, smashing him quite seriously in the back and abdominal regions. The colt exhibition on Saturday last given by the various horsemen of Wallace, attracted a large crowd of people, and over 100 colts from various parts of the country were exhibited. Messrs. W. H. Pattison, J. A. Stevens and Mrs. Wellon were chosen judges. The honors were conferred on a colt belonging to John Sowers. However, it required considerable skill as it was "good horse sense" to choose between various colts as there were many fine specimens. One man was apparently disqualified but Dad Salyard finally convinced him that it was proper.

Samuel S. Buckner attends lodge at Elsie regularly every Saturday night. There is evidently something very attractive about the Independent Order of Odd Fellows, or something, Mrs. Buckner is visiting friends in Maryland. On returning from the Platte last Saturday Dick Skimble, of the Wallace barn, had the misfortune to lose a horse from inflammation of the bowels. Tempests of failure through fear doth prevail, the small fish are on the mediums trail, though the middle man gallantly clings to the brail, his carcass is swallowed by minnow and whale. This week the caption of the Wallace Star will be considerably reduced in size, so as to correspond with the superficial area of that diminutive quarto, and the probable destiny of the editors, if burly type is not credited from that class. A stray cloud passed over Wallace one day last week. The indications were that it was going to boycott the town and a few of the enterprising citizens concluded to knock the water out of it. At least a keg of powder, a couple of anvils and a heavy sledge block was at once procured, the anvils loaded and fired off several times but to no avail. Concluding the charges were light the heavy iron block was also placed on the anvil and a large perforation in it filled with powder also and the contents ignited with the following results: A terrific report, a shower of anvils and fragments of a smashed up sledge block, buggy wheels and horse shoes and a frightened but fortunate lot of amateur rain makers. But the cloud passed over with its rain. Dr. Meredith, of Hayes Centre, and sister-in-law Miss Rosa Richmond, of Walker, Mo., were in the city last Friday. Miss Richmond will make final proof on her title claim in Hayes county while visiting friends here. On Tuesday last Coroner Warner accompanied by Sheriff Baker, J. G. Beeler and John Hammond drove down to Wallace where Sheriff Baker delivered the Patterson stock of merchandise to the corner under a writ of replevin. The stock was then again invoiced which resulted in an increase in valuation of \$340. Mr. Hammond has concluded to let the door remain closed.

Pat Sullivan has got the longest auger you ever saw. He uses it in the ground. He goes down in a canyon and commences in a side hill and bores in parallel the full length of it. He then goes up on the hill and digs a bit cistern down until he digs the end of the hole off. He then runs an iron pipe through the hole and cements the cistern. The flow of water is distributed in stock troughs in various places in the canyons. The flow is regulated by float valves, and the cisterns filled by wind pumps. He now has eight of these cisterns on his ranch in running order.

Hon. Judge Neville of North Platte will deliver a rousing speech in Wallace on Saturday, Aug. 5th, in favor of independent political issues. No one should fail to hear him. The Judge is a fluent speaker and a power in the political arena. His firmness and manner of delivery when on the popular stump will make you think he actually believes it himself. Tom Mozz.

Somerset Soap Works. Mr. Smale made a flying trip to Lincoln this week. Fred Wolfe is working at the Platte. W. V. Mullikin and Cecil Tuell were North Platte visitors Saturday. Charles Smale has taken a claim south of town. Crops in the vicinity are still doing very well, but a few miles to the south-east rain is needed very bad. The potato crop that was hailed down is coming out very slow. We still continue to have some extremely hot weather. Every one should remember to attend the Sunday school celebration in McDermott's grove, Aug. 10th. O. I. C.

Maxwell News. Thomas Harahan went to Brady Island last Thursday for a load of lumber. G. Snyder spent Sunday in Brady Island. Mr. Brodbeck of North Platte was in town last Sunday. Misses Maude Post and Mary Hanrahan were the guests of Mrs. Hendy last Thursday. Catholic services were held in the school house last Saturday. Rev. Father O'Toole officiating. Mrs. J. Nugent spent a few days in Maxwell last week.

Mrs. H. Mathews and Miss May Carter, of Jefferson City, Mo., are the guests of Mrs. Thos. Long. Miss Mary A. Hamman entered a number of her young friends last Sunday the occasion being in honor of Miss Maude Post of Cheyenne, and it was also Miss H's birthday. One of Mr. Dolan's men was quite badly injured by being kicked by a horse last Thursday. He is recovering from his injuries. DRICIMA.

Myrtle was favored with a much needed rain on Tuesday last. Mr. Nuff and A. Moore made a trip to the Dismal last week after berries and returned with quite a lot. Chas. Wilberg was in these parts the early part of the week securing signers to a petition for a new English Myrtle school house to North Platte. Mrs. Averil, who had been visit-

ing with her uncle and aunt, Mr. and Mrs. Null, for several weeks, returned to her home in New Mexico Saturday. Her health was much improved by the Nebraska climate. Mr. and Mrs. Brummette returned to North Platte Monday. Mr. Crabtree had a carpenter from Gandy last week helping to make repairs on his house. Mrs. McNicol and Mrs. Neal were visiting friends in Gandy Saturday. It is reported that a new school house will be built in the Burn's district in the near future. Dollie Brunk spent Sunday in North Platte.

The Sunday-school at Myrtle is progressing nicely and is well attended. When Booth Saved Young Lincoln's Life. It was at Bowling Green, Ky., during the summer of 1877, Edwin Booth stood upon a platform waiting for a train to pass, did a man unknown to the actor. Buried in thought, this stranger left the platform to walk upon the track, not noticing an approaching engine. One moment more and there would have been a sudden tragedy. Suddenly, Edwin Booth seized this stranger and lifted him almost bodily upon the platform. So close came the engine that it struck the stranger's heels as they left the track. Who you are, and how you got here, the well known manager of Baltimore, who witnessed the thrilling scene. "No," replied Booth. "Robert Lincoln, President Lincoln's son."

This was the most satisfactory incident in Edwin Booth's life. Sensitive as a woman, he suffered untold tortures for the mad deed of his brother. He had voted for Abraham Lincoln as president and never voted before or after.—Kate Field's Washington. Exploring Labrador. Two members of the geological survey longest surveys ever undertaken into what is now generally supposed to be the wild, inhospitable territory in the far north and eastern Canada, known as the Labrador peninsula. The expedition will be absent from civilization for nearly a year, and before it returns hopes to have solved the enigmas of the interior of Labrador, concerning which such fabulous tales have been told. If it accomplishes this, the expedition will be a valuable contribution to the world's fund of geological information, and whether fully successful or not should bring back much important knowledge from that unknown country.—St. Johnsbury (Vt.)

What a Bad Digestion Does. All life looks black to a miserable man with a stomach in which his food lies like lead. Woe to his companions if they expect good fellowship from him! Woe to his wife who has the womanly intuition that will make her humor him as though he were a cross baby! Man delights him not, nor woman either, nor is he best pleased with himself, though he jealously demands homage from others.—New York Ledger.

Ballard's Snow Liniment. This wonderful Liniment is known from the Atlantic to the Pacific, and from the North Pole to the South Pole. It penetrates Liniment in the world. It will cure Rheumatism, Neuralgia, Cuts, Sprains, Bruises, Wounds, Old Sores, Burns, Scalds, Sore Throat, Sore Chest, and all Inflammation, after all others have failed. It will cure Barbed Wire Cuts, and heal all wounds where proud flesh has set in. It is equally efficient for animals. Try it and you will not be without it. Price 50 cents. Sold by A. F. Streit.

The coroner's jury investigating the world's fair holocaust of Monday last week has brought in a verdict holding the director of works, the builders of the fatal building and the fire marshal under bonds for action by the grand jury. It is doubtful whether any tangible evidence can be produced before the grand jury, because the calamities of this kind the responsibility is usually too much divided to be distinctly traced. As a warning against negligent conduct in relation to buildings intended for public uses, the finding of the coroner's jury cannot but prove an instructive lesson.—Ex.

"My little boy was very bad off for two months with diarrhea. We used various medicines, also called in two doctors, but nothing done him any good until we used Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave immediate relief and soon cured him. I consider it the best medicine made and can conscientiously recommend it to all who need a diarrhea or colic medicine. J. E. Hare, Trenton, Tex. 25 and 50 cent bottles for sale by A. F. Streit, Druggist.

Entries for the stock show at the World's fair have closed with but two names on the exhibitors book registered from Nebraska. This is a deplorable state of affairs. Stock raising is one of the most important agricultural pursuits in this state and an exhibit worthy of the industry would form a most attractive feature of Nebraska's contribution to the exposition. As it is, visitors to the fair can scarcely fail to be impressed with the smallness of our stock exhibit, especially when they have a perfect right to expect one much larger and more varied.—Bee.

A Sound Liver Makes a Well Man. Are you Bilious, Constipated or troubled with Jaundice, Sick Headache, Stomachic, Flatulency, Heart, Cough, Tongue, Dyspepsia, Indigestion, Hot Dry Skin, Pain in Back and between the Shoulders, Chills and Fever, &c. If you have any of these symptoms, your Liver is out of order, and your blood is slowly being poisoned, because your Liver does not act properly. HENRICH'S will cure any disorder of the Liver, Stomach or Bowels. It has no equal as a liver medicine. Price 25 cents. Free trial bottles at A. F. Streit.

Haller's Barb Wire Liniment for all cuts on cattle and horses. It is the best on earth. For sale by F. H. Longley, Druggist. The democrat who would defeat McKinley this year would be the biggest figure in the convention of his party in 1896. Nevertheless there is nothing like a scramble after that gubernatorial nomination.

Captain Sweeney, U. S. A., San Diego, Cal., says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50 cents. Sold by North Platte Pharmacy. The Massachusetts republicans are going to devote only four weeks to their gubernatorial canvass this year. If they put up the right man, however, they can fix things in this time so as to elect him. Teach your children how to save. Just think one penny a week for a year will buy a large bottle of Haller's Sure Cure Cough Syrup and cure coughs for the whole family. For sale by F. H. Longley, Druggist.

Highest of all in Leavening Power.—Latest U. S. Gov't Report. Royal Baking Powder ABSOLUTELY PURE

Clinton, Missouri. Mr. A. L. Armstrong, an old druggist, and a prominent citizen of this enterprising town, says: "I sell some forty different kinds of cough medicines, but have never in my experience sold so much of any one article as I have of Haller's Horseand Sprig. All who use it say it is the most perfect remedy for Cough, Colds, Consumption and all kinds of Throat and Lung troubles. They have never tried it. It is a specific for Croup and Whooping Cough. It will relieve a cough in one minute. Contains no opiates. Sold by A. F. Streit, 3-1.

In several respects the Reichstag in its dealings with the army bill has set a good example for congress on the silver issue. Very few long speeches were delivered in the German body on the army bill, as it had been discussed freely in the Reichstag which had been dissolved a month or two earlier, and the measure was brought to a vote within two weeks from the beginning of the session.

Last fall I was taken with a kind of summer complaint, accompanied with a wonderful diarrhoea. Soon after my wife's sister, who lives with us, was taken in the same way. We used almost everything without benefit. Then I said, let us try Chamberlain's Colic, Cholera and Diarrhoea Remedy, which we did, and that cured us right away. I think much of it, as it did for me what it is recommended to do. John Hertzler, Bethel, Berks Co., Pa. 25 and 50 cent bottles for sale by A. F. Streit, Druggist.

The state university announces that it cannot undertake to enroll more than fifteen hundred students for the coming year. It will receive all up to that number in order of their application. Though the term does not open until the week after the state fair, students may enroll, at any time, by letter. The number is constantly increasing who desire to enter this, the leading institution of the state, where six years' higher education is offered absolutely free.

Eor a cut, bruise, burn or scald, there is nothing equal to Chamberlain's Pain Balm. It heals the parts more quickly than any other application, and unless the injury is very severe, no scar is left. For sale by A. F. Streit, Druggist.

One by one the southern senator and congressmen have seen a new light in the financial horizon and are declaring for a sound currency. The pressure from the white house is gradually getting in its work and Senators Wolcott and Teller will find that gratitude has been heaped in the political market, and that no southern brigadier will not seem to regret their services in helping beat the "force bill" three years ago.—Ex.

Ballard's Snow Liniment. Mr. Hamilton Cambridge, Ill., says: "I had the rheumatism so bad I could not raise my hand to my head. BALLARD'S SNOW LINIMENT has entirely cured me. I take pleasure in informing my neighbors and friends that it has done for me. Chas. Handley, clerk for Lay and Lyman, Keokuk, Iowa, says: 'I have never cured him of Rheumatism. Why not try it? It will surely do you good. It cures all Inflammation, Wounds, Cuts, Sprains' etc. For sale by A. F. Streit.

The Mormons are again doing active proselyting down south and are said to have converted thirty-three women in Virginia. We trust that husbands have not been so scarce in that great state as to drive women to rely upon the slender chance of reintroducing polygamy into the United States.—Bee.

Shiloh's Vitalizer is what you need for Dyspepsia, Turpid Liver, Yellow Skin or Kidney Trouble. It is guaranteed to give you satisfaction. Price 75c. Sold by North Platte Pharmacy.

More of the same: Two farmers in southeastern Nebraska have had their confidence in banks renewed at considerable personal cost. One lost six hundred dollars which was burned up with his house, and another one had double that sum stolen from his domicile. Sympathizers are few and far between.

DON'T FORGET That's what Brown's wife called out to him—don't forget to get a bottle of Haller's Sarsaparilla, it's so nice. For sale by F. H. Longley, Druggist.

The independent campaign will be opened at Broken Bow on Saturday evening by congressman Kem, who will address a meeting at the court house. The court house ring realizes that it has a big job on hand to keep its dupes in line and it therefore concludes to lose no time.—Republican.

Haller's Barb Wire Liniment for all cuts on cattle and horses. It is the best on earth. For sale by F. H. Longley, Druggist. The democrat who would defeat McKinley this year would be the biggest figure in the convention of his party in 1896. Nevertheless there is nothing like a scramble after that gubernatorial nomination.

Captain Sweeney, U. S. A., San Diego, Cal., says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50 cents. Sold by North Platte Pharmacy. The Massachusetts republicans are going to devote only four weeks to their gubernatorial canvass this year. If they put up the right man, however, they can fix things in this time so as to elect him. Teach your children how to save. Just think one penny a week for a year will buy a large bottle of Haller's Sure Cure Cough Syrup and cure coughs for the whole family. For sale by F. H. Longley, Druggist.

Highest of all in Leavening Power.—Latest U. S. Gov't Report. Royal Baking Powder ABSOLUTELY PURE

HOW IS THIS? TO THE LABORING MEN AND FARMERS OF LINCOLN COUNTY: We offer you one thousand pairs of WORKING PANTS at the low figure of NINETY-FIVE CENTS per pair. We guarantee that they will not rip. We also offer a great bargain in SUMMER UNDERWEAR. Do not fail to take advantage of this sale, for if you do you will always regret it. Star Clothing House, WEBER & VOLLMER.

FIRST NATIONAL BANK, North Platte, - Neb. Authorized Capital, \$200,000 Paid in Capital, \$50,000. A GENERAL BANKING BUSINESS TRANSACTED. Sells Bills of Exchange on all Foreign Countries. INTEREST PAID ON TIME DEPOSITS. CORRESPONDENCE SOLICITED. A. F. STREITZ, DRUGGIST.
