Hattie, wife of Wm. Diener, of Mylander precinct, died at the residence of ber grand-parents, Mr. and Mrs. J. D. Wilson, in this city, on Wednesday afternoon of last week from the effects of child-birth, at the age of nineteen years. The deceased had resided in the city with her grand-parents for a number of years, her mother having died under circumstances similar to her own. Somewhat over a year ago she was married to Mr. Diener and resided at the farm until a few weeks prior to ber death. Mrs. Diener had a wide acquaintance in town, was highly esteemed by all who knew her, and her death is deeply regretted by all friends. The funeral was held at the Presbyterian church Friday afternoon in the presence of one of the largest audience that ever assembled on an occasion of the kind in North Platte. California Names Ending In O. Attention has not been called, we be- at panic figures. Call on lieve, to one peculiarity—that is, the number of geographical names in Calithis state must be awarded the championship medal, as a brief inspection of any list of names of places will show. First, Meets every THURSDAY EVENING at among the 58 counties of California there are no less than 14 which end with the round letter. It is to be observed that only a portion of these are named from masculine saints in the Spanish calendar, Fresno, Inyo, Mono, Solano and others being presumably Indian names, though the termination may have been put on by the early Spanish settlers. When we come to towns in California whose names end in o, their Certificates and world's fair maps furname is legion. In the compilation of this imperfect catalogue the towns and cities named for saints have been omitted, as the list would be entirely too long, running from San Antonio through most of the letters of the alphabet to San Ysidro. There is said to be a reason for all things, and it is not unlikely that the names given by the early and pious Spanish settlers to their settlements may have sounded pleasant to the gringos who came after them and have influenced them, perhaps unconsciously, to confer upon their own mining camps and villages and towns names ending with the letter o.—San THE : TRIBUNE Francisco Chronicle.
