All along the border, from Nova Scotia to Ontario, this feature of tariff is important. But our western farmers depend mainly upon grain and live stock, especially cattle and hogs. For about ten years the European market was more or less closed to our meats, and the only key that unlocked those doors was reciprocity, with its threat of relatives.

MONDAY morning Senator Col-quitt, of Georgia, died at his residence in Washington. He was a very able and conservative man and had very creditably represented his tate for several years in congress. His freedom from the braggadocio of the "brigadier" usually representing that state was particularly noticeable, and excited favorable comment. with tariff talk. There is no lack of good material for republicans state nominations this fall, and it will not be difficult for the convention to name a winning ticket. If the factionists keep in the rear the ticket will be good for a plurality of twenty thousand.

Some of the local pops venture the assertion that it will be brave men who will consent to be republican candidates in our senatorial and representative districts this fall. They may think so, but there are quite a number of people who cast up the situation differently. Lincoln county may have a republican candidate for state senator who can be elected.

The democratic New York Sun declares the Wilson tariff bill a "bill to make republicans" and says that even before its passage it has made "thousands," or republicans" and says that even before its passage it has made "thousands," or republicans cont of save and made are all and representative senators who can be elected.

Correctly Answered.

Not many days ago a school teacher was talking to some of his brightest pupils, and asked them: "What do you consider is the science of human happiness?" A beautiful and intelligent little girl of some eleven years said that she had heard that it was to bestow the greatest number of benefits on the greatest number of people. Then whom in this city, for instance, do you consider lives up to that philosophy in the sincerest manner? Without a moment's hesitation the little girl replied:-

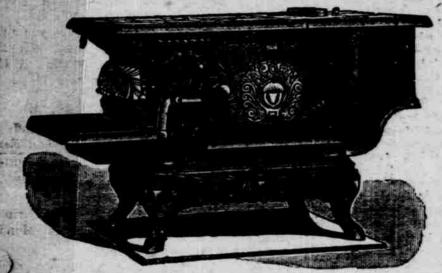

RICHARD BROS. OF THE FAIR STORE, the popular dealers in town; their benificence in placing boundless bargains before the people is never ending.

The fair scholar was quite correct. During the last ten days we have doubled our stock of shoes and we have now one of the largest and most complete lines west of Omaha, and have also slashed the price on all that would stand it. We have also just opened a nice line of SPRING JACKETS AN CAPES of the latest styles at moderate prices. Our line of DRESS GOODS must be seen to be appreciated. They are the greatest values that ever reached the city. The reason we are having such a nice trade in this line, as well as in all other lines, is because we mind our Ps and Qs-Price and Purity, Quality and Quantitity. People are apt to appreciate the highest in purity when it is associated with the lowest in price. Yours for Business.
