

FLEW THREE MILES.

Ohio Men Have a Machine That Travels Through Space.

A Gasoline Engine Furnished Power for Propellers—Navigator Controlled the Machine at Will and Landed It at a Designated Spot.

Norfolk, Va., Dec. 19.—A successful trial of a flying machine was made at Kitty Hawk, N. C., by Wilbur and Orville Wright, of Dayton, O. The machine flew for three miles in the face of a wind blowing at the registered velocity of 21 miles an hour and then gracefully descended to earth at the spot selected by the man in the navigator's car. The machine has no balloon attachment, but gets its force from propellers worked by a small engine.

Preparatory to its flight the machine was placed upon a platform near Kitty Hawk. This platform was built on a high sandhill, and when all was in readiness the fastenings to the machine were released and it started down an incline. The navigator, Wilbur Wright, then started a small gasoline engine which worked the propellers. When the end of the incline was reached the machine gradually arose until it obtained an altitude of 60 feet. In the face of the strong wind blowing it maintained an even speed of eight miles an hour. The idea of the box kite has been adhered to in the basic formation of the flying machine. A huge framework of light timbers 33 feet wide, 5 feet deep and 5 feet across the top forms the machine proper. This is covered with a tough, but light canvas. In the center is the navigator's car and suspended just below the bottom plan is a small gasoline engine which furnishes the motive power for the propelling and elevating wheels. There are two six-blade propellers, one arranged just below the frame so as to exert an upward force when in motion and the other extends horizontally to the rear from the center of the car, furnishing the forward impetus. Protruding from the center of the car is a huge fan-shaped rudder of canvas, stretched upon a frame of wood. This rudder is controlled by the navigator and may be moved to each side, raised or lowered.

MORGAN CALLS IT WAR.

Alabama Senator Declares the President's Action in Panama Affair Is a Hostile Declaration Against Colombia.

Washington, Dec. 19.—Senator Morgan has introduced a resolution declaring that the president has no right to wage war against any foreign power without the consent of congress, when such country is at peace with the United States; that the provision of the canal treaty between the United States and Panama is, in effect, a declaration of war with Colombia; that the intervention of the United States in preventing Colombia to suppress the secession of Panama is contrary to the law of neutrality and the law of nations.

WAR ITS FINAL RESORT.

Colombia Will First Ask Recognition of the United States and Then Submission to The Hague Court.

Paris, Dec. 19.—The United Colombian committee here gave out a statement Friday saying that Colombia would first seek through a commission to induce the United States to recognize Colombia's rights under the treaty of 1846; second, if the commission fails Colombia will ask for the submission of the question to the Hague arbitration court; third, if its submission to the Hague court is refused, Colombia will go to war and rely on the Latin republics to come to her aid.

ASKS MERRIAM TO EXPLAIN.

Secretary Root Angry at the General for Reflecting on the Appointment of Gen. Leonard Wood.

Washington, Dec. 19.—Secretary Root has requested Brig. Gen. H. C. Merriam, retired, to inform the department if he was quoted correctly in an alleged interview in Denver, in which he is made to say that the president's appointment of Leonard Wood to be major general is unpopular with army men and that such appointments tend to unsettle the army and injure its morality.

Don't Want Standard Oil Money.

Lincoln, Neb., Dec. 19.—Strong opposition is being encountered in Lincoln against the acceptance of John D. Rockefeller's gift to the University of Nebraska. Mr. Rockefeller's gift amounted to \$66,666, this sum to be used for the erection of a temple for religious instruction in the university.

Recovered Stolen Stock.

Lawton, Ok., Dec. 19.—Twenty-nine head of horses stolen from an Indian near Faxon and five mules taken at the same time of William Sutherland have been recovered by Greer county officials. A desperate fight, in which many shots were fired, took place between officers and robbers before the stock was captured.

PRICE OF HOSPITALITY.

People of Better Social Than Financial Status Can't Afford to Accept Invitations in England.

The question of tips is perennial. It is especially at this time of the year that it forces itself most prominently into notice, and the awful truth has to be acknowledged that there seems to be no way out of a difficulty which alike besets hostess and guests, says the London World. Hospitality is bought at a price in these days, for the new order renders it possible to open the doors of every great house with golden keys, provided that they are heavy enough and are attached to massive chains; and when guests include millionaires of transatlantic and oriental extraction, how is it possible for hostesses to exercise any control over the tipping system? The result is that everybody is muddled alike. The poor must follow the lead of the rich, and in consequence it often becomes as great a difficulty for men and women of better social than financial status, to accept invitations as to stay at expensive hotels. Yet how is reform to be instituted? This is a social difficulty that it seems impossible to overcome, but at the same time it is one which stands in the way of many agreeable people of both sexes, who dare not in existing circumstances accept invitations, even where they feel they would be most welcome, and where a delightful time would await them.

THE GREEN MORAYS.

Very Able Contortionists—Their Tank One of the New York Aquarium's Attractions.

"Them fellers must have India rubber backbones," said a visitor at the Aquarium, gazing in as he spoke at the tank of the green morays, which were twisting and contorting and tying themselves up into knots, in a manner that would have made the India rubber man want to quit the business entirely, says the New York Sun.

Seven feet long, the biggest of the three here, and five and six feet, respectively, the other two, the big green morays always attract the visitors, even when they are quiescent; but when, as at feeding time, they begin to squirm, then so many people gather around the tank that those at the back can get only occasional glimpses of the giant eel contortionists as they rise high in the tank, to be seen then over the heads of the people in front.

They are doing well, the green morays, oil of them feeding well, and they are probably as comfortable here, in their spacious tank at the Aquarium, as they could be anywhere away from the coral caverns they were accustomed to frequent, in the waters of the isles of Bermuda. They are certainly a great attraction.

Suction Dredges.

The operation of the suction dredges used by the government in river and harbor work is very interesting. A long, flexible tube 12 to 15 inches in diameter drops down from the side of the vessel 20 to 30 feet or more to the bottom of the river or harbor upon which the dredging is being performed. The upper end of this tube is connected to an immense rotative centrifugal pump, making several hundred revolutions a minute and capable of handling many hundred tons of water an hour. The lower end of the tube is manipulated from the vessel against the sandbars and mud banks, and as the water is sucked upward by the centrifugal pumps a very large proportion of sand and mud goes with it.

THE GENERAL MARKETS.

Kansas City, Dec. 22.	
CATTLE—Beef steers	43.00 @ 45.50

PE-RU-NA PROTECTS THE LITTLE ONES

Against Winter Catarrh In Its Many Phases.

Neglected Colds in Children Often Bring Disastrous Results.

Peruna should be kept in the house all the time. Peruna should be kept in every house where there are children. Don't wait until the child is sick then send to a drug store. Have Peruna on hand—accept no substitute.

Pe-ru-na Protects the Entire Household Against Catarrhal Diseases.

As soon as the value of Peruna is fully appreciated by every household, both as a preventive and cure of catarrhal affections, tens of thousands of lives will be saved, and hundreds of thousands of chronic, lingering cases of disease prevented. Peruna is a household safeguard.

ALICE SCHAFER.

ANNA R. BROWN

Mrs. J. M. Brown, Dungen Springs, Mo., writes: "My little daughter three years old was troubled with a very bad cough which remained after an attack of catarrhal fever. She has taken one bottle of Peruna through which she has obtained a complete cure. She is now as well and happy as a little girl can be. When our friends say how well she looks I tell them Peruna did it." In a later letter she says: "Our little daughter continues to have good health."

Mrs. Schaffer, 436 Bope Ave., St. Louis, Mo., writes:

"In the early part of last year I wrote to you for advice for my daughter Alice, four years of age. She has been a puny, sickly, ailing child since her birth. She had convulsions and catarrhal fevers. I was always doctoring until we commenced to use Peruna. She grew strong and well. Peruna is a wonderful tonic; the best medicine I have ever used."

"I was in a very wretched condition when I commenced to take Peruna. I had catarrh all through my whole body, but thank God, your medicine set me all right. I would not have any other medicine."

"Peruna cured my baby boy of a very bad spell of cold and fever. He is a big healthy boy fifteen months old. I have given him Peruna off and on since he was born. I think that is why he is so well. I cannot praise Peruna enough. We have not had a doctor since we began to use Peruna—all praise to it.—Mrs. Schaffer."

Be Sure to Have Pe-ru-na on Hand During the Inclement Months of Fall and Winter.

Croup, capillary bronchitis and articular rheumatism are the special banes of childhood. These all alike result from catching cold.

One child catches cold and scares its mother into hysterics by having group in the dead of night.

Another child catches cold, develops a stubborn cough that will not yield to ordinary remedies. The parents are filled with forebodings.

Still another child catches cold and develops that most fatal malady of childhood, capillary bronchitis. The doctor is called, pronounces the case pneumonia and, if the child is lucky enough to live, it has developed weak lungs from which it may never recover. And yet another child catches cold

and articular rheumatism is the result. Ankles, knees, wrists and elbows become suddenly swollen and painful. A long disastrous illness follows. The child may live and become convalescent, a miserable invalid of valvular disease of the heart. All these mishaps are the direct result of neglected cold. Peruna is the safeguard of the family. If a child catches cold, Peruna should be used immediately.

A few doses of Peruna and a child's cold is gone. The apprehension of the parents flee away. The household is free from fear once more.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Pe-ru-na Kept in the House for Five Years.

Mr. Albert Lietzman, 1596 Milwaukee Ave., Chicago, Ill., writes:

"I am only too glad to inform you that I am feeling splendid and have never felt better in my life. Through the advice of a friend I tried Peruna, and am glad to say it cured me to perfection. I began to tell a friend about Peruna the other day, and I had no sooner commenced than he told me his folks have kept Peruna in the house for the last five years. I am sure I wouldn't be without it. Mother also uses it to keep herself in good health."

PAXTINE TOILET ANTISEPTIC

FOR WOMEN

A Boston physician's discovery which cleanses and heals all inflammation of the mucous membrane wherever located.

In local treatment of female ills Paxtine is invaluable. Used as a douche it is a revelation in cleansing and healing power; it kills all disease germs which cause inflammation and discharges.

Thousands of letters from women prove that it is the greatest cure for leucorrhoea ever discovered.

Paxtine never fails to cure pelvic catarrh, nasal catarrh, sore throat, sore mouth and sore eyes, because these diseases are all caused by inflammation of the mucous membrane.

For cleansing, whitening and preserving the teeth we challenge the world to produce its equal.

Physicians and specialists everywhere prescribe and endorse Paxtine, and thousands of testimonial letters prove its value.

At druggists, or sent postpaid 50 cts. A large trial package and book of instructions absolutely free. Write The R. Paxton Co., Dept. 4, Boston, Mass.
