

A sidewalk has been built in front of Seymour Howe's property and the village trustees have been asked to have a walk ordered from A. R. McCandless' corner to the Methodist church. As the property owners are willing, it will doubtless be ordered in.

Mrs. T. J. Hall of St. Deroin, who went suddenly insane about three weeks ago, was taken to the asylum at Lincoln Wednesday of last week. Her physical condition has improved somewhat but her mental condition is no better. No reason for her insanity is known.

The body of Mrs. Sarah L. Blair was brought in from Auburn on the train Friday afternoon and buried in the Nemaha cemetery. Mrs. Blair had apparently been in good health, dying almost instantly while sitting in a chair. She was a sister of E. D. Rogers of Auburn.

J. A. Ballantyne of Norfolk, Nebr., auditor of Edwards & Bradford Lumber Co., arrived in Nemaha Monday evening, to assist in invoicing the stock here, previous to Mr. Camlin's taking charge. The invoice was completed Wednesday forenoon and Mr. Ballantyne went to Brownville in the afternoon.

Several farmers in this county will experiment this year with macaroni wheat. It is a very hard wheat, requiring special burrs to grind it. It is used in the manufacture of macaroni, spaghetti and vermicelli, and brings a high price, as the most of the wheat used in this country for that purpose is imported from Italy.

Seymour Howe gradually gets weaker, and the cancerous affection of his leg appears to be spreading and from appearances is beginning to break out in other parts of the body. He is very weak—not able to sit up even in bed without being supported, and can talk very little. He suffers continually except when under the influence of narcotics.

We had the privilege of taking dinner Monday with John Davies and his good wife of Brownville. After dinner Mr. Davies took us through part of his orchard. He has about forty acres, nearly all in fruit trees and the indications are that the most of the trees will be loaded. We saw apple, peach, pear, plum and cherry trees with buds almost ready to burst into bloom, and most of the trees will be full of fruit. He has a fine farm.

Thousands Have Kidney Trouble and Don't Know It.

How to Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Prof. Gardner of Auburn, who has been superintendent of Auburn high schools for five years, has been elected superintendent of the Fremont schools at a salary of \$1500 per year. Prof. Gardner has been a candidate for state superintendent, but it is probable he will now withdraw from the contest.

The Delineator for May in addition to the usual portrayal of current fashions, contains many literary and artistic features of highest excellence. There are two short stories, His Finances and The Battle of the Strong. There are articles on the Great Women of Pioneer Times and of this day, the first giving a sketch of Catherine Sevier and the last of Mme. Sembrich, the famous soprano. Scenes in Japan and Corea are shown in some excellent illustrations.

F. G. Hawxby goes the 'descriptive writer' on the Herald one better for the hog story. Fred doesn't deal in 'magnificent animals' but Charley Stanley living on the Kittle farm west of Nemaha has a sow, a thoroughbred Poland China, which gave birth to 18 live healthy pigs, and 16 of them are now living. Two are dead as the result of her crushing them. As she can nurse only 11 of them, Mr. Stanley takes care of the balance 'a la bottle.' Fred says he can produce the pigs to prove the story and as Fred is pretty reliable we don't doubt his veracity.—Granger.

The B. & M. passenger train from the west on Saturday night was delayed on its arrival here by reason of the fact that they were stuck in a snow drift west of Beatrice for over an hour. The drift was over two hundred feet long and five feet deep. The engine ran into it some distance and stuck, after which it had to be shoveled out. Conductor Cronkhite says that the melting of the snow at that time assisted materially in getting the engine out and then taking another run at the drift got nearly through. After breaking their way through the drift with the engine they returned and took the train through. He says that it is about the latest in the year that he ever encountered such snow drifts in this climate. There was considerable sand packed with the snow and the drift was quite firm. The train arrived here an hour late.—Nebraska City News.
