Persons owning lots in the cemetery or having friends buried there should have the lots raked off and the rubbish carried outside the fence. Piles of dirt should also be carried off or used in filling up the low places.
We regret to learn that our old friend Jarvis S. Church has had another stroke of paralysis and is lying speechless at his home in Hennessey, Oklahoma, where Mr. Church has lived for the past year or so. His host of friends hope for his early recovery.

Ethel Sherwood, who fell from the back porch of the opera house Thursday evening of last week, took her part in the play Friday night, carrying her right arm in a sling, but is still suffering from the effects of the fall. There is a swollen place on one arm and it is feared she is also injured inwardly.

A lecture was advertised to be given Monday night, on the Scottish Highlands, by Prof. Chittenden, but the professor was unable to get here on account of a bridge being out on the railroad, so the lecture was postponed until Friday night of this week. The lecture is illustrated with stereopticon view. It is given under the auspices of the Royal Highlanders and is free to everybody.

The play of "Joe" given by eleven of the little folks of Nemaha last Friday night, under the management of Miss Florence Minick, was an amusing little comedy representing child life. The children had been carefully trained and did their parts well. There was no hesitancy at any time, and all acted well. The monologue by Miss Minick was fine, both in speaking and acting. Her solo, "When the Lillacs Bloom Again" was also very good.

A letter from Marshall Webb, who is with the gold mining company at Mystic, South Dakota, says:
"Well, this is a rough looking country to any one that has lived on the prairies. The valleys are very narrow between the mountains. The mountains range something like three or four hundred feet high. We have had nice weather since we have been out here, with the exception of two days, but we worked then. Flowers are in bloom. All tolerably well in camp at present."

The best place in Auburn to take your watch for repairs is S. H. Avey & Co. They are thorough and careful workmen.

Traveling is Dangerous
Constant motion jars the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, trainmen, street car men, teamsters and all who drive very much, suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. Geo. E. Hausan locomotive engineer, Lima, O., writes, "Constant vibration of the engine caused me a great deal of trouble with my kidneys, and I got no relief until I used Foley's Kidney Cure."

MRS. THEO. HILL

MILLINERY
CALL AND SEE HER

Orla Anderson, the eight year old son of Mrs. Flora Anderson, met with an accident last Saturday that came near proving fatal. He was coming to town on a load of corn with his uncle, Thos. Anderson. The boy got off the wagon and walked awhile. South of town about a half mile he attempted to get on the wagon, stepping on the brake block, but his foot slipped and he fell to the ground. The hind wheel ran over him. Both bones of his right leg were broken between the knee and ankle and the bones splintered, and a long gash cut on the back part of his head, laying open the scalp and pushing back the skin.

Stephen Cooper, who was just ahead of the wagon and saw the accident, took the boy in his buggy and brought him to the home of his aunt, Mrs. John I. Dressier. Dr. Gaither was called, who set the broken leg and sewed up the wound in his head. It took seven stitches to close the cut in the scalp.

On Monday Orla was feeling so well that he was taken to his home near Bracken, and he is now getting along better than was thought possible. The wound on his head is rapidly healing and his broken leg is doing well. His escape from fatal injuries is remarkable.

Selected a Piano from the Home Dealer

Mr. and Mrs. John M. Clark have been making a thorough investigation of pianos for some time. We understand there was quite a competition between several different firms. After a very careful consideration and examination S. H. Avey & Co. of Auburn came out victorious, selling to Mr. Clark a very handsome high grade Sterling Piano. The case is very artistic and one of the very best makes, made of the finest selected golden oak.

Mr. and Mrs. Clark use good judgment in buying of the home dealers, in business here since 1882, for if anything is not satisfactory they know just where to find S. H. Avey & Co., instead of having to write to a distant firm, which is very unsatisfactory, as several citizens of the county have found out.

Do you make garden? If you do buy your seed from the Old Reliable seed house cheaper than you can buy elsewhere in Nemaha county.

A Lesson in Health
Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system.—M T Hill.

Holds Up a Congressman
"At the end of the campaign," writes Champ Clark, Missouri's brilliant congressman, "from overwork nervous tension, loss of sleep and constant speaking I had about utterly collapsed. It seemed that all of my organs were out of order, but three bottles of Electric Bitters made me all right. It's the best all-round medicine ever sold over a druggist's counter." Over-worked run-down men and weak, sickly women gain splendid vitality from Electric Bitters. Try them. Only 50c.—Guaranteed by Keeling.

Foley's Honey and Tar is peculiarly adapted for asthma, bronchitis and hoarseness.—M T Hill.
