

Two severe cases of Ovarian Trouble and two terrible operations avoided. Mrs. Emmons and Mrs. Coleman each tell how they were saved by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I am so pleased with the results obtained from Lydia E. Pinkham's Vegetable Compound that I feel it a duty and a privilege to write you about it.

"I suffered for more than five years with ovarian troubles, causing an unpleasant discharge, a great weakness, and at times a faintness would come over me which no amount of medicine, diet, or exercise seemed to correct. Your Vegetable Compound found the weak spot, however, within a few weeks—and saved me from an operation—all my troubles had disappeared, and I found myself once more healthy and well. Words fail to describe the real, true, grateful feeling that is in my heart, and I want to tell every sick and suffering sister. Don't dally with medicines you know nothing about, but take Lydia E. Pinkham's Vegetable Compound, and take my word for it, you will be a different woman in a short time."—Mrs. LAURA EMMONS, Walkerville, Ont.

Another Case of Ovarian Trouble Cured Without an Operation.

"DEAR MRS. PINKHAM:—For several years I was troubled with ovarian trouble and a painful and inflamed condition, which kept me in bed part of the time. I did so dread a surgical operation. "I tried different remedies hoping to get better, but nothing seemed to bring relief until a friend who had been cured of ovarian trouble, through the use of your compound, induced me to try it. I took it faithfully for three months, and at the end of that time was glad to find that I was a well woman. Health is nature's best gift to woman, and if you lose it and can have it restored through Lydia E. Pinkham's Vegetable Compound I feel that all suffering women should know of this."—Mrs. LAURA BELLE COLEMAN, Commercial Hotel, Nashville, Tenn.

It is well to remember such letters as above when some druggist tries to get you to buy something which he says is "just as good." That is impossible, as no other medicine has such a record of cures as Lydia E. Pinkham's Vegetable Compound; accept no other and you will be glad.

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat you with kindness and her advice is free. No woman ever regretted writing her and she has helped thousands. Address Lynn, Mass.

5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Medicine Co., Lynn, Mass.

Save Your Thresh Bill

The average old-style small cylinder thresher wastes enough grain and time to pay your thresh bill.

Why not save the grain ordinarily put into the straw stack? Why not save the time which the ordinary threshing outfit wastes for you.

This can be done by employing the RED RIVER SPECIAL.

It has the Big Cylinder, with lots of concave and open grate service.

It has the Man Behind the Gun, that does most of the separating right at the cylinder.

Besides these, it has all the separating capacity of other machines.

It runs right along, saving your grain and saving time, regardless of conditions.

There has come improvements in threshing machinery the same as in everything else.

As the modern self-binder is ahead of the old reaper of forty years ago, so is the Big Cylinder and Man Behind the Gun ahead of the small cylinder old style thresher.

The old style thresher with its small cylinder and limited separating capacity, has stood for years without much improvement.

The RED RIVER SPECIAL is the crowning improvement in threshing machinery.

It is built for modern, up-to-date work; to thresh well; to thresh fast; to save time and grain and money for the thresherman and farmer. It does it. There are reasons why. Send for our new book on threshing, it gives them and it is free.

Employ the RED RIVER SPECIAL, it is the only machine that has the Man Behind the Gun, and saves enough grain and time to pay your thresh bill.

BEST FOR THE BOWELS

HEALTH NOT RISKED

Mrs. Suburb—"I never noticed until we moved into this house that the pump is outdoors."

Agent—"That's so the water will be nice and cool in summer, ma'am." "But I don't want to be running outdoors dozens of times a day in winter."

"No need to ma'am. The pump always freezes up in cold weather."

REMARKABLE DOGS

First Liar—"I have a dog that runs to a doctor every time he gets hurt."

Second Liar—"Smart dogs are plenty enough but I have one with a sense of humor."

"I guess not. How does he show it?"

"Every time he sees a tailor he pants."

ONE WOMAN'S RIGHTS

He (after the wedding)—"The first time I kissed you I got slapped!" She (firmly)—"Yes, and hereafter you'll get slapped if you don't."

ONE DOLLAR WHEAT.

Western Canada's Wheat Fields Produce It—Magnificent Yields—Free Grants of Land to Settlers.

The returns of the Interior Department show that the movement of American farmers northward to Canada is each month affecting larger areas of the United States. Time was, says the Winnipeg Free Press, when the Dakotas, Minnesota and Iowa furnished the Dominion with the main bulk of its American contingent. Last year, however, forty-four States and districts were represented in the official statement as to the former residence of Americans who had homesteaded in Canada. The Dakotas still head the list, with 4,006 entries, Minnesota being a close second with 3,887, but with the exception of Alabama and Mississippi and Delaware every State in the Union supplied settlers who, in order to secure farms in the fertile prairie country of Canada, became citizens of, and took the oath of allegiance to, the Dominion. Last year no less than 11,841 Americans entered for homestead lands in Canada.

From the Gulf to the Boundary, and from ocean to ocean, the trek to the Dominion goes on. Not only the wheat growers of the central Mississippi valley, but the ranchers of Texas and New Mexico, and the cultivators of the comparatively virgin soil of Oklahoma, are pouring towards the productive vacant lands of the Canadian Northwest. It is no tentative, half-hearted departure for an alien country that is manifested in this exodus; it has become almost a rush to secure possession of land which it is feared, by those imperfectly acquainted with the vast area of Canada's vacant lands, may all be acquired before they arrive. There is no element of speculation or experiment in the migration. The settlers have full information respecting the soil, wealth, the farming methods, the laws, taxation and system of government of the country to which they are moving, and they realize that the opportunities offered in Canada are in every respect better and greater than those they have enjoyed in the land they are leaving.

Canada can well afford to welcome cordially every American farmer coming to the Dominion. There is no question but that these immigrants make the most desirable settlers obtainable for the development of the prairie portion of the Dominion. Full information can be had from any authorized Canadian Government Agent, whose address will be found elsewhere.

Economy in Threshing.

The fact that there is more grain put into the straw stack than there should be, is something that merits the earnest attention of the up-to-date farmer.

Is it not possible to save the wastage of grain and time which attends the use of old-style machinery? This is something that should command the careful consideration of every farmer.

In line with the thought we call attention to the ad. of Nichols & Shepard Company, Battle Creek, Mich., found in another column.

It would seem that the time has come when this great channel of wastage on the farm should be eliminated.

A three minute chat between Park and London by telephone costs two dollars.

Mrs. Winslow's SOOTHING SYRUP for children teething, softens the gums, reduces inflammation, allays pain, cures colic. Price 25c bottle.

Nearly \$1500 is being expended in improvements at the homeopathic hospital in connection with the University of Michigan.

I can recommend Pigo's Cure for Consumption for Asthma. It has given me great relief.—W. L. Wood, Farmersburg Ind., Sept. 8, 1901.

If you want creamery prices do as the creameries do, use JUNE TINT BUTTER COLOR.

Natur has its devious and winding ways as well as its strait places; hence, I have learned to respect the swell in the kat's tale and the rock in the dog's tale.

LITERARY LITTLE BITS

Mortimer Menpes' new book on Whistler, which will be called "Whistler as I Knew Him," will make a volume of about 600 pages, including 100 full-page plates in color and tint.

"Highways and Byways in Sussex," by E. V. Lucas, is the latest addition to the Macmillan Company's "Highways and Byways" series. The volume contains numerous illustrations by Frederick L. Griggs.

Guy Wetmore Carryl's new humorous story, "Far from the Madding Girls," will appear in the Ladies' Home Journal, with illustrations by Peter Newell. It tells of the experiences of a young bachelor whose aim is to keep "one mile from a woman," and miles away from the girls.

O. Henry, who is Sydney Porter in real life, has gone to "The Walrus and the Carpenter" for the title of his novel of Central America, which he calls "Cabbages and Kings." This is Mr. Porter's first long story, although his stories have won for him one of the meteoric successes of the past year.

Americans who contributed several hundred thousand dollars to the sufferers from the India famine of 1899-1900 can learn how this money was distributed in the relief work by reading "In Famine Land," a work written by an American missionary, Rev. J. E. Scott.

William Dana Orcutt, whose book for children, "The Princess Kallisto," was published last year, has written a novel which A. C. McClurg & Co. will bring out. It is entitled "Robert Cavalier." It is the romance of the explorer Robert Cavalier De La Salle's life.

Dr. William Bauer, the German ethnologist, who has been studying the southern tribes in the interior of Mexico for the Royal Museum of Ethnology of Berlin, has compiled an interesting and remarkably complete vocabulary of the languages spoken by the different tribes. The Zapotecan vocabulary is 3,000 words, the fullest yet obtained.

A love story, written almost wholly in dialogue, entitled "A Woman's Will," is among Little, Brown & Co.'s announcements. The author is Anne Warner, a frequent contributor to the periodical press during the past few years. It is a story of an unhappy American widow's summer on the continent. The scenes of the story include Munich, Zurich and Lucerne.

The readers of "The Letters of a Self-Made Merchant to His Son," and those readers were many, will welcome the announcement that George H. Lorimer has another book ready for publication. It is to be called "Old Grogan Graham," and is, like its predecessor, in the form of letters; but the new letters tell the self-made merchant's own story and do not concern themselves with the son.

"Children of the Tenements" is one of the few books of short stories published last year that reached real popularity. Its genuine human interest and its strong human appeal were no doubt the cause of the demand for four editions; but it is also true that these stories by Mr. Riis derive from their simple truthfulness a strange power to touch the emotions to smiles and tears. Wholesome and genuine they are above all things; and so is their author, whose autobiography, "The Making of an American," has given more real pleasure to its readers than almost any other biography of recent years.

Princes in Asia.

During a recent tour in Asia of nearly sixteen months (from February, 1901, to January, 1902), in which I visited Japan, Korea, China, the Philippines, Cochin China, Siam and Laos, the Straits Settlements, Burma, India, Syria and Palestine, I found everywhere a deep interest in the changing economic conditions. The common people in Asia care little for politics, but the price of food and rainfall touches every man, woman and child at a sensitive point.

Almost everywhere the old days of cheap living are passing away. Steamers, railways, telegraphs, newspapers, labor-saving machinery, and the introduction of Western ideas are slowly but surely revolutionizing the Orient. Shanting wheat, which formerly had no market beyond a radius of a few dozen miles from the wheat field, can now be shipped by railway and steamship to any part of the world, and in consequence every Chinese buyer has to pay more for it. In like manner new facilities for export have doubled, tripled, and in some places quadrupled the price of rice in China, Siam and Japan.—Century.

It is easier to buy things on time than it is to be Johnny-on-the-spot when the time comes to pay for them.

A widow says that a husband on earth is worth two in the other place.

GOOD TIME TO DIE

Gloomy Man—"Who is the fool who wrote 'I Would Not Die in Springtime?'"

Wife—"Fool!"

Gloomy Man—"Yes. Springtime is just the season to die. Escape the spring house cleaning, you know."

NO NONSENSE NOWADAYS

Modern Poet—"Give me a rhyme for influenza."

Friend—"What are you writing?"

Modern Poet—"An ode to spring."

Women's Woes.

Much of women's daily woe is due to kidney trouble. Sick kidneys cause back-ache, languor, blind headaches, dizziness, insomnia and urinary troubles. To cure yourself you must cure the kidneys. Profit by the experiences of others who have been cured.

Mrs. William W. Brown, professional nurse, of 16 James street, Paterson, N. J., says: "I have not only seen much suffering and many deaths from kidney trouble, but I have suffered myself. At one time I thought I could not live. My back ached, there were frequent headaches and dizzy spells, and the kidney secretions were disordered. Doan's Kidney Pills helped me from the first, and soon relieved me entirely of all the distressing and painful symptoms."

A FREE TRIAL of this great kidney medicine which cured Mrs. Brown will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists; price 50 cents per box.

DINNER FOR TWO

Mr. Newedd—"How is that, my love? Nothing in the house to eat? I gave you money this morning."

Mrs. Newedd—"Yes, I know; but I ran across the most exquisitely charming London dinner gong—awfully fashionable, you now—and I couldn't resist the temptation to buy it."

"But what shall we do for dinner,"

"We can listen to the gong."

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.
