

The following items are clipped from the Brownville Letter:

Miss Pearl Minick departed Tuesday evening for Warrsburg, Mo., to resume her duties as instructor in the state normal school at that place.

Wednesday morning Elder Sapp departed, via Auburn, for Giltner, Neb., where he will hold revival services. He expects to be gone about four weeks.

Mrs. Pryor, an aged lady who with her husband recently moved to town from the country, is some better of a severe attack of pneumonia.

The social given at the residence of Mrs. Alice A. Minick last Thursday evening was one of the most pleasurable events of the season. The Misses Marie Hoover and Pearl Minick, assisted by other local talent, entertained the guests with several fine musical selections. About \$7 was netted for the benefit of the Methodist church, for which the social was given.

Wednesday afternoon A. N. Sedoras brought to this office one of the greatest oddities in the green bean line ever seen. The pods of the longest ones are thirty inches in length and are filled with a good quality of bean. Mr. Sedoras did not know the name of the bean, he having obtained the seeds from parties who brought them from the east.

#### Thousands Have Kidney Trouble and Don't Know It.

##### How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

##### What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

#### Public Sale

I will offer for sale at my home in Nemaha on Saturday, October 1, 1904 beginning at 2 o'clock p. m. the following property—Household goods, corn, potatoes, hogs, and other articles too numerous to mention. Terms of sale cash.

J. J. ALEXANDER.

Conductor Cronkrite, who has charge of the B & M. train south had a narrow escape yesterday morning from being killed; as it was he escaped with a broken bone in his ankle. The train was approaching Western and the engineer had slowed down so as to make the stop. Conductor Cronkrite had stepped out on the car platform preparatory to getting off when he slipped and fell. He had hold of the rail but realized that he would be drawn against the depot platform and perhaps killed so he let go and fell to the ground, breaking one of the bones in his ankle and injuring his knee. His foot was put in a plaster of paris cast and he is now in bed. He was reported as resting easy today. Conductor Carson is in charge of his train.

#### POINTED EXPRESSIONS FROM ROOSEVELT'S LETTER.

We intend in the future to carry on the government in the same way that we have carried it on in the past.

We are content to rest our case before the American people upon the fact that to adherence to a lofty ideal we have added, proved governmental efficiency.

No other administration in our history, no other government in the world, has more consistently stood for

THEODORE ROOSEVELT.

the broadest spirit of brotherhood in our common humanity, or has held a more resolute attitude of protest against every wrong that outraged the civilization of the world, at home or abroad.

It has behaved toward all nations, strong or weak, with courtesy, dignity and justice; and is now on excellent terms with all.

Our foreign policy has been not only highly advantageous to the United States, but hardly less advantageous to the world as a whole. Peace and good will have followed in its footsteps.

Within the limits defined by the national constitution the national administration as sought to secure to each man the full enjoyment of his right to live his life and dispose of his property and his labor as he deems best, so long as he wrongs no one else.

It is but ten years since the first attempt was made, by means of lowering the tariff, to prevent some people from prospering too much. The attempt was entirely successful.

To uproot and destroy the protective system would be to insure the prostration of business, the closing of factories, the impoverishment of the farmer, the ruin of the capitalist and the starvation of the wage-worker.

During the last five years more has been done for the material and moral well-being of the Filipinos than ever before since the island first came within the ken of civilized man.

We did not take the Philippines at will, and we cannot put them aside at will.

We have striven both for civil righteousness and for national greatness; and we have faith to believe that our hands will be upheld by all who feel love of country and trust in the uplifting of mankind.

We hold ever before us as the all-important end of policy and administration the reign of peace at home and throughout the world; of peace which comes along by doing justice.

The constitution must be observed positively as well as negatively.

We do not have to guess at our own convictions and then correct the guess if it seems unpopular.

A party which, with facile ease, changes all its convictions before election cannot be trusted to adhere with tenacity to any principle after election.

As for the navy, it has been and is now the most potent guaranty of peace; and it is such chiefly because it is formidable and ready for use.

If on one great issue they (the Democrats) do not mean what they say, it is hardly safe to trust them on any other issue.

Free trade and reciprocity are not compatible.

#### AUBURN LOCALS.

Church Howe went to Lincoln on Monday.

J. C. Boyd of Aspinwall precinct was in the city Saturday.

Tom Majors of Peru came over last Friday to attend the races.

The school board have had fire escapes placed on all of the buildings.

The brick work on the new Keedy hall is completed. The carpenters will soon finish it.

The Presbyterians are having their church painted greatly to the improvement thereof.

The foundation for the new M. E. church is completed and the laying of the brick began this week.

The canning company will close its season's pack this week, having had the best season of its existence.

Eph Rhodes is having the foundation excavated for a fine new house on the southwest corner of the Peak block in the city.

The South Auburn Methodists have sent a delegation to conference to persuade the bishop to give them a minister for the coming year.

Supt. Carrington has just issued a booklet of Rules and Regulations to the teachers of Nemaha county giving their duties, the duties of schoolboards and of pupils.

Hon. Church Howe, U. S. consul to Antwerp, expects to bid goodby to his Nemaha county friends this week and return to Washington to receive his final instructions before sailing Oct. 1.

A noticeable meeting took place in front of the post office last Saturday when Tom Majors and Church Howe met, shook hands and enjoyed a visit, with each other for about a half hour.

The County fair last week had the best exhibit of livestock and the best racing that it has had for many years. The agricultural exhibit never will be very good till the association furnishes a suitable place for it.

O. P. Lovel shipped three carloads of peaches from his thirteen acre peach orchard during the past ten days. The fruit has netted him about 20c per bushel. The yield has been over 400 bushel. Peaches at this price pays better than corn.

The Auburn schools opened last Monday with a total enrollment of 658. Athens school having 167, Antioch school 330 and the High school 161. Superintendent Simpson expects a number more to enter the various schools within the next week.

The County Commissioners after providing everyone else in the court house with new furniture have at last purchased for their own use a fine octagon table with chairs to correspond. A blocker for filing papers is provided for each member and the clerk. It is a convenient piece of furniture and cost about \$60.

The directors of the Auburn Gold Mining company held a meeting this week and decided to buy machinery for the purpose of pumping water on their placer claims. Their purpose is to buy the machinery now for delivery on the ground by March 1st.

The tests being made by manager Chas. Anderson shows that the placer dirt yields one dollar per yard and the deeper he goes the richer the dirt.

#### Robbed the Grave

A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to take Electric Bitters; to my great joy the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50c, guaranteed at Keeling's drug store.

#### SCHOOL NOTES

"The great sources of wisdom are experience and observation, and these are denied to none."

The reading circle Saturday evening did not have a very heavy attendance but those present showed a spirit that is truly professional.

The past week has seen considerable irregularity of attendance owing to the fair and sickness. We think there has been none absent without a good excuse tho.

All books in use at school have been labeled and numbered. A record will be kept of the number of each book and the pupil, to whom that book is loaned. This will do away with the necessity of the pupil writing his name in the book and will also enable the teacher to give an account of all books used in the school at the end of the term.

Some pupils attend school about half the time and feel hurt if they do not receive credit for having done as much work as their seatmates who haven't missed a day. Cases have been known where parents shared this feeling with the pupils. We should suggest that since the laborer does not receive pay for time lost so pupils need not expect credit for work that has not been done.

Yes some say it is easy work to go to school but if you will just watch such people you will find that they are paid for their easy work by returns that is just as easy to lose. Brain work is the hardest there is to do: This is shown by the number who do not attempt it. We need not expect something for nothing here, when we do not in other things. If you are going to school to get something out of it make up your mind to work and work hard at that.

#### Brutally Tortured.

A case came to light that for persistent and unmerciful torture has perhaps never been equalled. Joe Golobick, of Colusa, Cal., writes: "For 15 years I endured insufferable pain from Rheumatism and nothing relieved me, though I tried everything known. I came across Electric Bitters, and it's the greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me." Just as good for Liver and Kidney Troubles and general debility. Only 50c. Satisfaction guaranteed by Keeling, druggist.
