Thousands Have Kidney Trouble and Don't Know It.

How To Find Out.
 Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.
 There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes.
 You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

FRIDAY, NOVEMBER 25 1904.

LETTER FROM WILLARD DRESSLER

VALLEJO, CAL., Nov. 14, 1904.

Dear Father:
 Have been expecting to hear from you for almost a week now but expectations come to naught. So this evening will write a letter again making three in all since getting here. My health is good. Have had a little trouble from using my eyes so steadily but that seems to have passed away. But I have had the toothache almost continually for a month. It aches at spells and then quits for a time. Today it has ached pretty bad at times. I intend to have it pulled yet this evening if I can catch the dentist in. Had it examined before leaving Carroll and I guess nothing can be done to save it very long. It now has a filling on one side.

What I want to tell in this letter is what I saw yesterday. It was the grandest day of my life for sightseeing. The expositions are not in it compared with nature. At 7 o'clock in the morning I left here on a boat for San Francisco. Arrived there between 9 and 10. Went to a mormon church for Sunday school and services. How I happened to go there was a young man on the boat who said that he was going and if I would go with him, he would go with me in the afternoon. He works here on the island. They seem to put more stress on the Sunday school than preaching. Their form is quite a little different from protestant churches. In administering the sacrament they use bread and water instead of wine.

After dinner we took a car to the chutes which is just outside the Golden Gate Park. Here we took in the Scenic R. R. and Shoot the Chutes which is a good deal the same as in Omaha only on a much larger scale. In connection is a zoo in which there are animals equal to the biggest of those carried in shows. Then we went over into the park. It is several miles in extent and it is natural. The drives and things of that nature of course are made. It was but a short walk to the bandstand where one, if not the finest, bands was playing. Very beautiful music was rendered. After listening to the band for a while, went into the museum which is but a little ways from the bandstand. There are all kinds of things there, statues, paintings, ores, precious stones, stuffed birds and animals, insects, and old relics from no telling where. Of course we could not examine these in such a short time merely finding out what was in the building. There were thousands of people in the park and in fact every place we went in the afternoon. Automobiles and well rigs, I never saw the like nor did imagine there could be such a number in one place. One rig right after another passed along and I suppose the costly of the costliest.

We went from here across the park which is not very wide at this point and took the car for the cliff house which is a building just out of and above the ocean. The ocean is the grandest thing I saw although the park is fine being right in the mountains almost. The tide was in and the waves came rolling in on the beach with a roar that you could hardly hear sometimes. Beach is all sandy. I was down so the water came out around my feet. Little children were wading and having great sport. In the cliff house is also a museum or rather in the Sutro baths building. This building is next to the cliff house and is one of the most famous bathing resorts in the world. Water is of all temperatures and depths. A large number were in bathing. It was getting about night. The sun had gone down so we started back by a narrow gauge railway to the city. This R. R. passes right along the bluff for a long distance and just below you is the bay. The Golden Gate is not so very wide, I would judge a little wider than the Missouri river.

When we got back to the city we got some supper and then went walking on the principal street of the city, Market street. Hundreds and I expect thousands of people were going back and forth. At 8:30 we took the boat for Vallejo getting back a little before 11.00. Was very tired and rested fine. My tooth is the only thing

that bothers me today. Expect to go again Thanksgiving if it is a nice day. Two more Nebraska boys and one from Idaho are going next time. They are fine boys too so far as I can find out. I expect to room with the young man from Idaho as soon as my month is out here. He has been teaching school for a number of years and came here a couple of weeks before me. The other two from Nebraska came about the same time but from different places in the state. One of them is a strict church member while the other two are not so much that way, they are not the least bit sporty so to speak. I find a good many nice people among the clerks. The man under whom I work is a fine man. He is an I. O. O. F. and took me to lodge a week ago. They have the finest and biggest hall of the kind I ever saw. Perhaps I will go up this evening if I get around to it. Was to the Baptist church last Sunday for services and Sunday school. Was treated fine and met a good many people most all of whom I have forgotten. It has only rained once since I have been here and the rest of the time has been fine. Looks like rain tonight though.

I do wish you could all be out here for awhile and take in some of the sights in and around San Francisco. You must be sure to plan to come next year.

As Ever,
 WILLARD H. DRESSLER
